SUBJ: **Establishment of a Multi-Way Stop Condition at Intersection of Tattant Boulevard at Serenity Bend and Village Lake Road**

A citizen with safety concerns requested that the Traffic Engineering Division review the traffic control at the intersection of Tattant Boulevard at Serenity Bend and Village Lake Road.

Traffic Engineering conducted a multi-way stop study, which consisted of an evaluation of existing field conditions including critical approach speed, sight distance, traffic volumes, and crash history. To improve safety, staff recommends that the existing one-way stop control be converted to a multi-way stop control at the intersection of Tattant Boulevard at Serenity Bend and Village Lake Road.

Staff recommends that the Board approve the establishment of a multi-way stop condition at Tattant Boulevard at Serenity Bend and Village Lake Road.

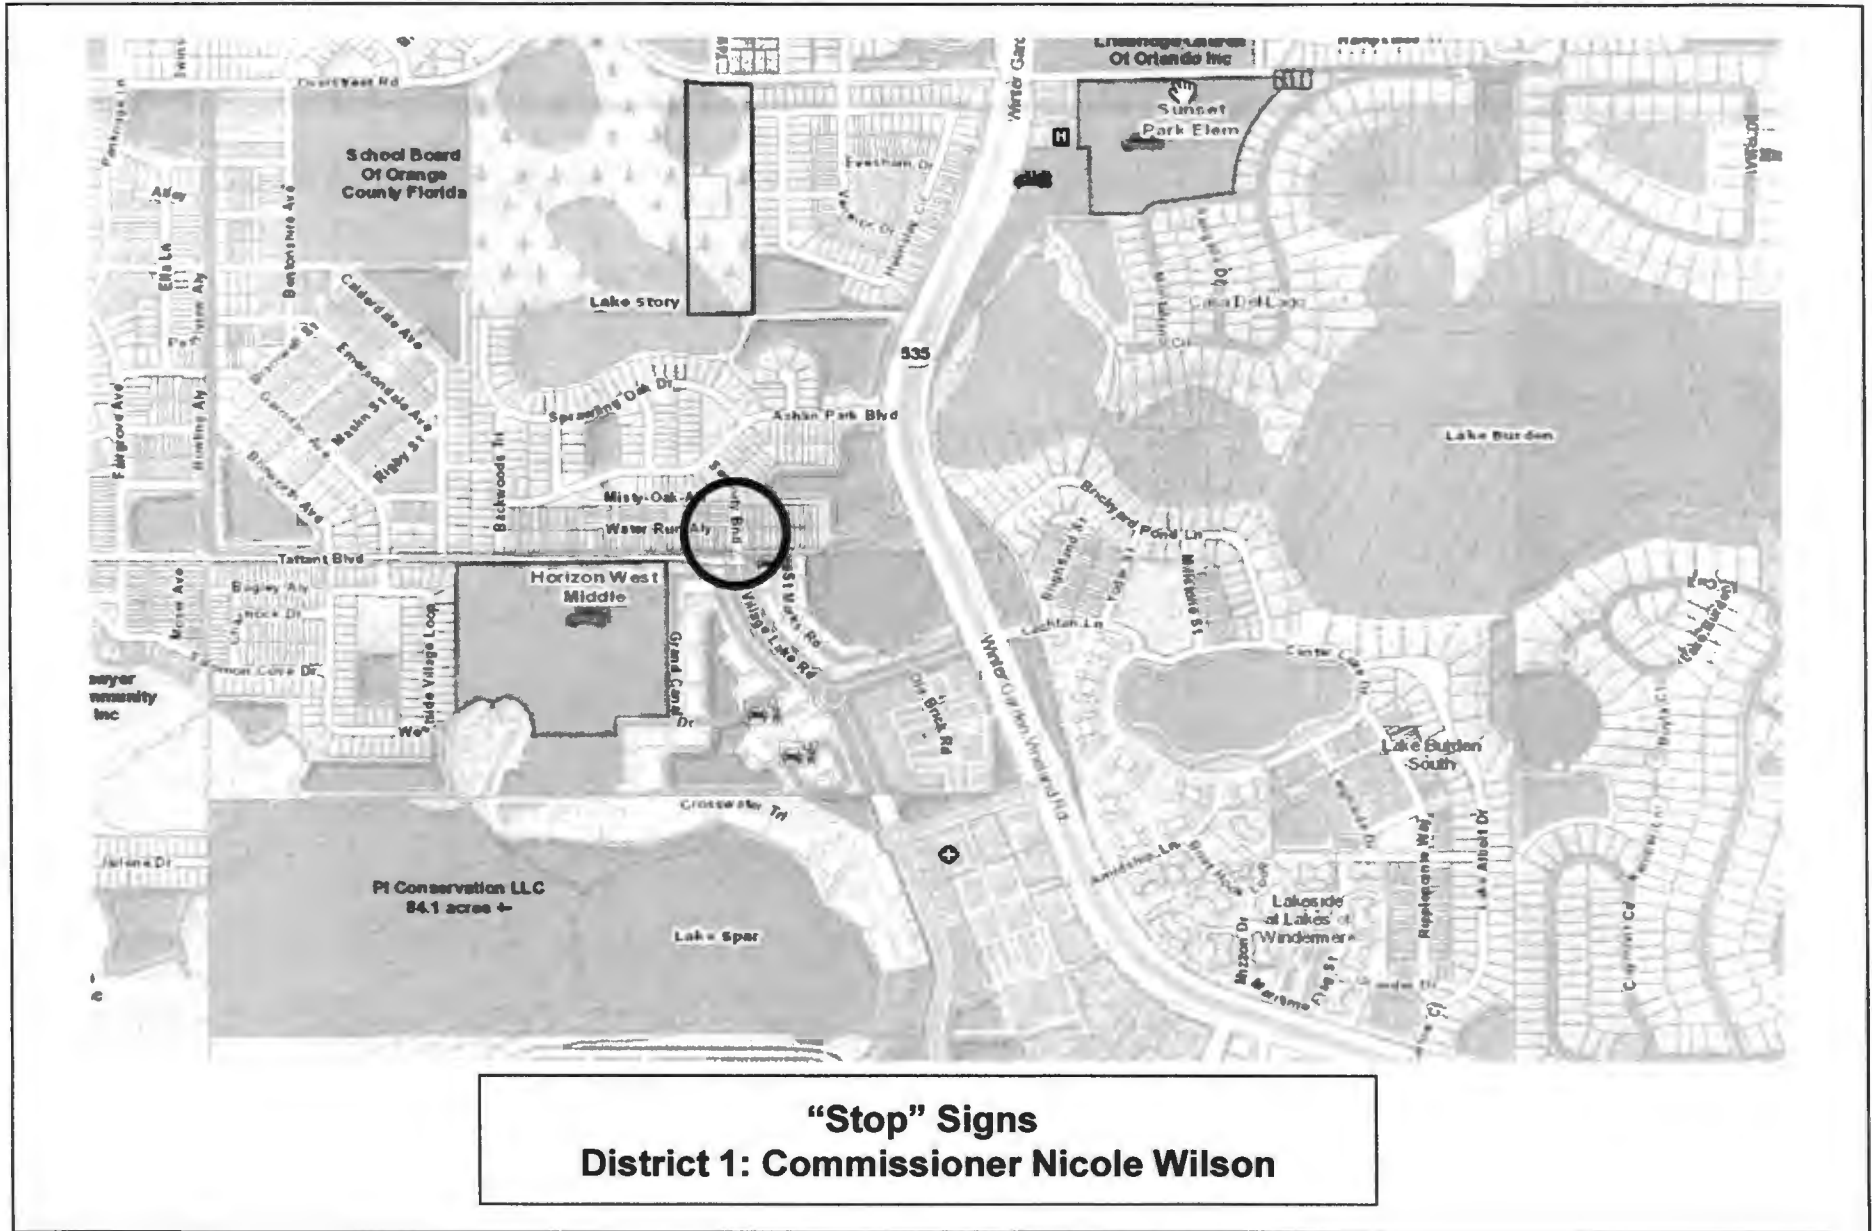

**Action Requested: Approval of multi-way stop installation at Tattant Boulevard at Serenity Bend and Village Lake Road. District 1.**
