

Interoffice Memorandum

February 9, 2021

TO: Mayor Jerry L. Demings  
-AND-  
County Commissioners (BCC)

FROM: Alberto A. Vargas, MArch., Manager, Planning Division *A.V.*

THROUGH: Jon V. Weiss, P.E., Director  
Planning, Environmental, and Development Services Department

SUBJECT: 2021-1 Regular Cycle Comprehensive Plan Amendments 2021-1-A-4-1,  
2021-1-B-FLUE-4, and 2021-1-B-FLUE-5 (Bennett Place)  
Board of County Commissioners (BCC) Transmittal Public Hearing

2021-1 Regular Cycle Comprehensive Plan Amendments 2021-1-A-4-1, 2021-1-B-FLUE-4, and 2021-1-B-FLUE-5 are scheduled for a BCC transmittal public hearing on February 9, 2021. These amendments were heard by the Planning and Zoning Commission (PZC)/Local Planning Agency (LPA) at a transmittal public hearing on January 21, 2021.

The report is also available under the Amendment Cycle section of the County's Comprehensive Planning webpage. See:

<http://www.orangecountyfl.net/PlanningDevelopment/ComprehensivePlanning.aspx>.

The above-referenced 2021-1 Regular Cycle Amendments scheduled for consideration on February 9 include a privately-initiated Future Land Use Map Amendment located in District 4 and two associated staff-initiated text amendments. The privately-initiated map amendment involves a change to the Future Land Use Map (FLUM) for a property over 10 acres in size. The staff-initiated amendments include proposed changes to the Goals, Objectives, and/or Policies of the Comprehensive Plan.

Following the BCC transmittal public hearing, the proposed amendments will be transmitted to the Florida Department of Economic Opportunity (DEO) and other State agencies for review and comment. Staff expects to receive comments from DEO and/or the other State agencies in March 2021. Pursuant to 163.3184, Florida Statutes, the proposed amendments must be adopted within 180 days of receipt of the comment letter. The adoption hearings are tentatively scheduled before the LPA on April 15, 2021, and before the BCC on May 11, 2021.

# **2021 FIRST REGULAR CYCLE AMENDMENTS TO THE 2010-2030 COMPREHENSIVE PLAN TRANSMITTAL PUBLIC HEARING**

## **INTRODUCTION**

This is the Board of County Commissioners (BCC) transmittal staff report for the First Regular Cycle Amendments 2021-1-A-4-1, 2021-1-B-FLUE-4, and 2021-1-B-FLUE-5 to the Future Land Use Map (FLUM) and Comprehensive Plan (CP). These amendments were heard by the Local Planning Agency (LPA) during a transmittal public hearing held on January 21, 2021, and will go to the Board of County Commissioners (BCC) for a transmittal public hearing on February 9, 2021.

The above-referenced 2021-1 Regular Cycle Amendments include a privately-initiated map amendment located in District 4 and two staff-initiated text amendments. Since this is the transmittal stage for these amendments, there will be a second round of public hearings for adoption after the Florida Department of Economic Opportunity (DEO) and other State agencies complete their review of the proposed amendments and provide comments, expected in March 2021. Adoption public hearings are tentatively scheduled before the LPA on April 15, 2021 and the BCC on May 11, 2021.

Once the Regular Cycle amendments have been adopted by the BCC, they will become effective 31 days after DEO notifies the County that the plan amendment package is complete. These amendments are expected to become effective in June 2021, provided no challenges are brought forth for any of the amendments.

Any questions concerning this document should be directed to Alberto A. Vargas, MArch., Manager, Planning Division, at (407) 836-5802 or [Alberto.Vargas@ocfl.net](mailto:Alberto.Vargas@ocfl.net), or Gregory Gologowski, AICP, Chief Planner, Comprehensive Planning Section, at (407) 836-5624 or [Gregory.Gologowski@ocfl.net](mailto:Gregory.Gologowski@ocfl.net).

## Staff Recommendation

1. **Future Land Use Map Amendment 2021-1-A-4-1:** Make a finding that the information contained in the application for the proposed amendment is sufficiently complete; that the proposed amendment has the potential to be found “in compliance,” as defined by Section 163.3184(1)(b), Florida Statutes; and recommend to the Local Planning Agency that the amendment, 2021-1-A-4-1, be **TRANSMITTED** to the state reviewing agencies.
2. **FUTURE LAND USE TEXT AMENDMENT 2021-1-B-FLUE-4:** Make a finding the proposed amendment has the potential to be found “in compliance,” as defined by Section 163.3184(1)(b), Florida Statutes; and recommend to the Local Planning Agency that the Amendment 2021-1-B-FLUE-4, to include the development program for Amendment 2021-1-A-4-1 in Future Land Use Element Policy FLU8.1.4, be **TRANSMITTED** to the state reviewing agencies.
3. **FUTURE LAND USE TEXT AMENDMENT 2021-1-B-FLUE-5:** Make a finding the proposed amendment has the potential to be found “in compliance,” as defined by Section 163.3184(1)(b), Florida Statutes; and recommend to the Local Planning Agency that the Amendment 2021-1-B-FLUE-5, to include in the Urban Service Area (USA) the subject property of Amendment 2021-1-A-4-1, expanding the USA boundary by 22.66 acres, be **TRANSMITTED** to the state reviewing agencies .

## Analysis

### 1. Background Development Program

The applicant, Matthew Gillespie, P.E., representing Shirley I Bennett, Trustee of the Bennett Family Revocable Trust, submitted an application requesting to change the Future Land Use Map (FLUM) designation and to expand the Urban Service Area Boundary for a 22.66 acre site located at 14727 and 14831 Boggy Creek Road and is part of the Orlando-Kissimmee Farms subdivision created in 1926. The existing Future Land Use Map (FLUM) designation is Rural/Agricultural (R). The requested FLUM designation is Planned Development-Commercial/ Medium Density Residential (PD-C/MDR) with an Urban Service Area (USA) expansion.

Future Land Use Map amendments requesting the Planned Development future land use designation must include maximum densities and intensities for the development scenario that is adopted as part of the Comprehensive Plan under Future Land Use Element **FLU8.1.4**, which is addressed in amendment **2021-1-B-FLUE-4**. If approved, the development program would allow up to 350 multi-family residential units, 25,000 sq. ft. of commercial retail uses, 25,000 sq. ft. of medical office uses, 250 room hotel, and 150 bed hospital.

The subject property is developed with four-single-family residences, three barns, and open pastureland. The petitioned site is located within the Rural Service Area (RSA) and has a future land use designation of Rural/Agricultural (R). As per **Future Land Use Element FLU6.1.3** this designation permits a density of one (1) dwelling unit per ten (10) acres. The site has a zoning designation of A-2 (Farmland Rural District). The applicant intends to submit a rezoning application after the transmittal stage of the application process. The table below provides a comparison of the existing and proposed development of the petitioned site.

*Table 1 Existing and Proposed Development*

	Existing	Proposed
Service Area	Rural Service Area (RSA)	Urban Service Area (USA)
Future Land Use	Rural/Agricultural	Planned Development- Commercial/Medium Density Residential (PD-C.MDR)
Zoning	A-2 (Farmland Rural District)	Planned Development
Density	1 dwelling unit per acre	Up to 20 dwelling units per acre 350 units on 17.5 acres
Intensity	Not applicable	1.5 FAR 229,996 sq. ft on 3.52 acres

The subject property is located on the east side of Boggy Creek Road, adjacent to the Osceola County line. Boggy Creek Road is proposed to be widened from the existing two-lanes to four-lanes with the construction proposed to begin in 2021 and anticipated to be completed by 2025.

Development in the area is rural in character but is transitioning to suburban. Properties to the north, south and east of the petitioned site have a future land use designation of Rural/Agricultural (R). These sites are typically improved with single-family residences on lots that range from 4.2 to 13 acres in size. The site to the north of the petitioned property is a nursery. Uses to the west of the petitioned site are approved with Planned Development Future Land Use Designation and each site has an approved development program. These uses include single-family residences, townhomes, multi-family, office, commercial, and an assisted living facility. These uses are separated from the subject site by Boggy Creek Road. About 2 miles north of the petitioned site is the edge of Orlando International Airport and northeast is Lake Nona's Medical City.

The county is divided into two major service areas, the *Urban Service Area (USA)* and the *Rural Service Area (RSA)*. The Urban Service Area (USA) boundary is used to identify the area where Orange County has the primary responsibility for providing infrastructure and services to support urban development. The original Urban Service Area (USA) boundary was established in 1980; it included 113,976 acres with planned services until the year 2000. The Rural Service Area is that area which is excluded from the Urban Service Area and contains agricultural and rural residential developments which do not require urban levels of service. **Future Land Use Element Policy FLU6.1.1** establishes the future land use for the Rural Service Area as Rural/Agricultural (R).

A virtual community meeting was held Wednesday, October 28, 2020. There were approximately fifteen (15) residents in attendance. The primary concern of those in attendance was the increase in traffic along Boggy Creek Road, concern with additional development in the area, and the potential for suburban style development to further encroach into Kissimmee Farms Subdivision.

***Boggy Creek Area Amendment History and Proposed Development***

The petitioned site is located in an area known as the Boggy Creek Area. In 2005 an application was submitted with a request to amend the Comprehensive Plan and the Future Land Use Map to create the 1,272 acre Boggy Creek Enclave. However, the eastern 622 acres was proposed to remain a large lot single-family community while the western portion was of a different character with relatively large land holdings. The western portion was considered compatible for urban development. The application request included expanding the Urban Service Area boundary to

include the entire enclave, changing the Future Land Use designation from Rural to Boggy Creek Neighborhood District with policies in the Comprehensive Plan. Along with the policies a conceptual master plan identifying land uses, densities, roadways, and parks was proposed. The overall goal of this was to ensure consistent development and interior pedestrian and vehicular circulation. It was noted that the eastern portion of the Boggy Creek Enclave was to remain in its current development framework and “limit future attempts at urban scale development applications in the eastern portion of the BCE.” This proposal was not adopted. Since that time development has occurred piecemeal as individual applications for future land use map amendments and Urban Service Area Boundary Expansions have been submitted.

Figure 1 Boggy Creek Enclave. Source: Canin Associates Justification Statement, 2005

The map and table below depict recent Future Land Use Map Amendments within Orange County along with proposed annexations into the City of Orlando and development in the City of Orlando near the subject site. As shown on the map, development is occurring in the area surrounding the site changing the landscape of the area from rural to suburban. Until recently, proposed development was along the west side of Boggy Creek Road. Two annexation requests are pending with the City of Orlando for two properties along Boggy Creek Road and New Hope Road. Additionally, the Poitras development was approved in 2008 for an approximately 1,807 acre site.

Table 1 Previous and Proposed Amendments in the Boggy Creek Area

Map Letter	Name	Proposed	Development Program
A	Nona West	Planned Development-Commercial/Office/Medium Density Residential/Conservation (PD-C/O/MDR/CONS)	150,000 sq. ft. of retail commercial uses, 150,000 sq. ft. of office uses, 762 multi-family residential units, 188 townhome units, 29-unit (58-bed) ALF, and 22.8 acres of conservation land
B	Bonnemaison	Planned Development-Commercial/Office/Medium- Density Residential (PD-C/O/MDR)	50,000 sq. ft. of retail commercial, 100,000 sq. ft. office space, and 170 multi-family residences
C	Tyson Ranch	Planned Development-Industrial/Commercial/ Office/Medium Density Residential (PD-IND/C/O/MDR)	100,000 sq. ft. commercial; 275,000 sq. ft. of office 250 hotel rooms; 450 multi-family dwelling units; 300 single-family dwelling units 310 multi-family dwelling units
D	Boggy Creek Crossing	Planned Development-Medium Density Residential (PD-MDR)	
E	Boggy Creek Properties	Proposed Annexation Urban Village Land Use	Not provided
F	Beth Road Annexation	Proposed Annexation Urban Village Land Use	78,700 sq. ft. non-residential uses 380 multi-family units 92 townhomes
G	Postras City of Orlando (entire site not shown on map)	Urban Village Conservation	2,400,000 sq. ft. non-residential uses 4,192 residential units Fire station Airport support district including a Vertiport

## 2. Amendment Analysis

The following Comprehensive Plan goals, objectives, and policies appear to be most pertinent to the review of this amendment and are specifically discussed in the paragraphs below.

In considering the current request staff finds, **Future Land Use Element Goal FLU1, OBJ FLU1.1, and Policies FLU1.1.1, FLU1.1.2(A), FLU1.1.2(B), FLU1.1.4(A), and FLU1.1.4(B)** describe Orange County's urban planning framework, including the requirement that urban land uses shall be concentrated within the Urban Service Area. The **Medium Density Residential (MDR)** future land use designation is intended for urban-style multi-family residential densities within the Urban Service Area with a density of up to twenty (20) dwelling units per acre. The **Commercial (C)** future land use designation includes neighborhood and commercial scale commercial and office development that serves neighborhood or community needs with a 1.50 FAR. The Planned Development (PD) future land use designation promotes adjacent land use compatibility and physical integration and design. The proposal to amend the existing Planned Development designation keeps with the intent of the Planned Development designation which allows for a mix of uses, by including a residential component on the petitioned site.

Staff finds the proposed amendment consistent with **Future Land Use Element Policies FLU8.1.2, FLU8.1.3, and FLU8.1.4**, which address Planned Developments (PDs). Planned Developments (PDs) are intended to incorporate a broad mixture of uses under specific design standards, provided that the PD land uses are consistent with the cumulative densities or intensities identified on the Future Land Use Map. Additionally, these policies require showing the designation on the Future Land Use Map and adopting the site-specific development plan in policy FLU8.1.4.

**Future Land Use Objective FLU1.4 and Polices FLU1.4.1 and FLU1.4.2** contain location and development criteria that must be used to guide the distribution, extent, and location of urban land uses, and encourage the compatibility with existing neighborhoods. Policy **FLU1.4.1** states that Orange County shall promote a range of living environments and employment opportunities to achieve a stable and diversified population and community. **FLU1.4.2** ensures that land use changes are compatible with and serve existing neighborhoods. The existing development program, which incorporates residential and commercial development, meets the aforementioned policies by promoting a range of "living environment and employment opportunities". The proposal provides a balance of residential units to support the office and commercial uses that are a part of the overall development program.

**Future Land Use Element Policy FLU8.2.1** states that land use changes shall be required to be compatible with the existing development and development trends in the area. The development trend in this area is showing a change from rural uses to urban uses as reflected in the previously approved Future Land Use Map amendments along the west side of Boggy Creek Road, as proposed by the Boggy Creek Enclave study, which failed to be adopted by Orange County. The recent proposed annexations into the City of Orlando along the east side of Boggy Creek Road, along with the Poitras development approved by Orlando in 2008 suggest increased development pressure from Orlando in the Kissimmee Farms subdivision.

In a larger context, the property is near the south access to Orlando International Airport (OIA) and approximately 2 miles from Lake Nona/Medical City. Lake Nona/Medical City has created a significant employment center for this area of the County, home to Nemours Children Hospital, Veterans Administration Hospital, UCF Medical School, and other medical related businesses. Boggy Creek Road itself serves as a functional extension of SR 436 through OIA and provides direct access to the Kissimmee/St Cloud area of Osceola County, giving it the potential to become an important urban corridor.

**Future Land Use Element Policy FLU8.2.10** ensures land use compatibility with residential zoned areas and protection of the residential character of those areas through performance standards. These standards may be incorporated as conditions of approval as part the Planned Development zoning Change Determination Request.

Finally, **Future Land Use Element Policy FLU8.2.11** states that compatibility may not necessarily be determined to be a land use that is identical to those uses that surround it. Other factors may be considered, such as the design attributes of the project, its urban form, the physical integration of a project and its function in the broader community. The subject site is located in an area that is transitioning from rural to suburban character. The request would provide housing and commercial uses in an area with development that is primarily rural single-family residential.

**Future Land Use Element Policies FLU1.3.1 and FLU1.3.2** ensure the efficient provision of infrastructure, protection of the environment, land use compatibility with adjacent land development, consistency with the Comprehensive Plan and compliance with procedural steps and additional criteria for the expansion of the Urban Service Area boundary, which is provided in greater detail below.

**Policy FLU2.3.7** states that access management controls, including joint driveways, frontage roads and cross-access agreements shall be applied to all development proposals. The applicant states he will work with the County to establish cross access agreements and required roadway improvements along Boggy Creek Road.

In summary, the proposed amendment allows for the transition of a rural land use to suburban land uses consistent with previous amendments in the surrounding area.

**Future Land Use Element Objective OBJ FLU1.3** and its associated policies outline the process by which proposed expansions of the Urban Service Area shall be evaluated. **Future Land Use Element Policy FLU1.3.1** calls for a comprehensive review to ensure that proposed amendments would allow for the efficient provision of infrastructure, protection of the environment, and land use compatibility with adjacent land development. **Future Land Use Element Policy FLU1.3.2** provides additional procedural steps and criteria required for consideration of proposed Urban Service Area expansions.

Consistent with **FLU1.3.1** and **FLU1.3.2** the subject property abuts, and at least 25% of the property is contiguous to, the existing USA boundary, and does not protrude in a ribbon like manner into the Rural Service Area (RSA). As previously discussed, the development trend for the immediate area within the current Urban Service Area boundary is characterized by suburban style development. As such, adoption of this proposed amendment would allow for an expansion of the existing development trend.

Additionally, the sprawl indicators outlined in **FLU1.3.1(A)** include criteria to determine whether efficient use, availability, and cost of providing infrastructure and services. Staff has determined that the location and proposed intensity of development coincide with the availability of infrastructure and services and do not constitute an inefficient extension.

**Future Land Use Element Policy FLU1.3.1(C)** requires the County to consider additional factors when evaluating development proposals for inclusion within the Urban Service Area. Consistent with the components of this policy, staff has previously discussed how the proposed development program would contribute to the urban goals and strategies of the Comprehensive Plan.

**2021-1-B-FLUE-4 (Policy 8.1.4 Amendment)**

Future Land Use Element Policy FLU8.1.4 lists the development program for Planned Development (PD) Future Land Use Map designations adopted since January 1, 2007. The development program for this requested amendment is proposed for incorporation into Policy FLU8.1.4 via a staff-initiated text amendment (Amendment 2021-1-B-FLUE-4). The maximum development program for Amendment 2021-1-A-4-1, if adopted, would be up to 350 multi-family residential units, 25,000 sq. ft. of commercial retail uses, 25,000 sq. ft. of medical office uses, 250 room hotel, and 150 bed hospital.

Amendment Number	Adopted FLUM Designation	Maximum Density/ Intensity	Ordinance Number
<u>2021-1-A-4-1 (Bennett Place)</u>	<u>Planned Development-Commercial/Medium Density Residential (PD-C/MDR)</u>	<u>up to 350 multi-family residential units, 25,000 sq. ft. of commercial retail uses, 25,000 sq. ft. of medical office uses, 250 room hotel, and 150 bed hospital</u>	<u>2021-</u>

**2021-1-B-FLUE-5 (Urban Service Area Expansion)**

Section 163.3177(6)(a).9, Florida Statutes, requires that the future land use element shall discourage the proliferation of urban sprawl. This section contains indicators to evaluate a request for the expansion of an Urban Service Area, contained in Section 163.3177(6)(a).9.a(I)-(XIII). These requirements are reflected in Future Land Use Element Objective FLU1.3. It is stated that no new expansions to the Urban Service Area boundary shall be permitted unless supported by data and analysis demonstrating consistency with the Objectives FLU1.2 and FLU1.3 and associated policies.

The Urban Service Area (USA) expansion request for Parcels 34-24-30-6368-00-560; 34-24-30-6368-00-561; and 34-24-6368-00-570 appears to be consistent with the applicable Goals, Objectives, and Policies of the Comprehensive Plan.

FLU1.2.4 The County will continue to monitor the Urban Service Area allocation. Through this process, the following applicants have satisfied these requirements and are recognized as expansions to the Urban Service Area.

Amendment Number	Name	Acreage	Ordinance
***			
<u>2021-1-A-4-1</u>	<u>Bennett Place</u>	<u>22.66</u>	<u>2021-</u>

***Compatibility***

The petitioned site is part of what is currently a rural enclave surrounded by development. As detailed above, previous Future Land Use Map Amendments and Planned Development have been approved for a variety of urban uses to the west of the site. The development trend within the USA portion of the area and that portion of the area controlled by the City of Orlando is to allow for a transition from rural to suburban land uses., This current proposal is consistent with this trend.

The proposed amendment would allow land uses that are compatible with the allowed uses along the west side of Boggy Creek. The proposal is to construct up to 350 multi-family residential units, 25,000 sq. ft. of commercial retail uses, 25,000 sq. ft. of medical office uses, 250 room hotel, and 150 bed hospital and reflects the current trend along the west side of Boggy Creek Road and reflects the development in a larger context of Lake Nona and Poitras in the City of Orlando.

However, the proposal is part of the existing rural character that continues to the east of the petitioned site and east of Happy Lane where the development is single-family homes on larger parcels of approximately five (5) acres in size with commercial uses limited to a landscaping business/nursery.

The development pattern question that was the subject of the Boggy Creek Enclave Study in 2005 – should this area be included within the Urban Service Area – is again being raised; this time with the added influence of 15 years of area development activity.

---

***Division Comments: Environmental, Public Facilities, and Services***

**Environmental:**

**EPD Comments: CAD in progress (following the report from EPD the CAD was complete). The applicant intends to submit a Conservation Area Impact (CAI) Permit**

Wetlands and surface waters are located onsite that extend offsite and are hydrologically connected to Boggy Creek. Conservation Area Determination CAD-20-08-141 application was submitted for these properties and it is in progress. Prior to approval of this amendment request, the CAD needs to be completed with a certified wetland boundary survey approved by the Environmental Protection Division (EPD), in accordance with Orange County Code Chapter 15, Article X Wetland Conservation Areas.

Until wetland permitting is complete, the net developable acreage is an approximation. The net developable acreage is the gross acreage less the wetlands and surface waters acreage. The buildable area is the net developable acreage less protective buffer areas required to prevent adverse secondary impacts. The applicant is advised not to make financial decisions based upon development within the wetland or the upland protective buffer areas. Any plan showing development in such areas without Orange County and other jurisdictional governmental agency wetland permits is speculative and may not be approved.

Density and Floor Area Ratio (FAR) calculations are determined by dividing the total number of units and the square footage by the net developable area. In order to include Class I, II and III conservation areas in the density and FAR calculations, the parcels shall have an approved Conservation Area Determination (CAD) and an approved Conservation Area Impact (CAI) permit from the Orange County EPD. Reference Comprehensive Plan Policy FLU1.1.2 C. Approval of this request does not authorize any direct or indirect impacts to conservation areas or protective buffers.

The removal, alteration or encroachment within a Class I conservation area shall only be allowed in cases where: no other feasible or practical alternatives exist, impacts are unavoidable to allow a reasonable use of the land, or where there is an overriding public benefit, as determined before the Orange County Board of County Commissioners (BCC).

Development of the subject property shall comply with all state and federal regulations regarding wildlife and plants listed as imperiled (endangered, threatened, or species of special concern.) The applicant is responsible to determine the presence of imperiled species and obtain any required habitat permits from the U.S. Fish and Wildlife Service (USFWS) and the Florida Fish and Wildlife Conservation Commission (FWC). Bald eagle nest OR078 is located north of this site within the 660 feet protection zone.

This project site has a prior agricultural land use (grazing) that may have resulted in soil and/or groundwater contamination due to spillage of petroleum products, fertilizer, pesticide or herbicide. Prior to the earlier of platting, demolition, site clearing, grading, grubbing, review of mass grading or construction plans, the applicant shall provide documentation to assure compliance with the Florida Department of Environmental Protection (FDEP) regulation 62-777 Contaminant Cleanup Target Levels, and any other contaminant cleanup target levels found to apply during further investigations, to the

Orange County Environmental Protection and Development Engineering Divisions. An environmental site assessment (ESA) to address potential contamination is not required at this time, but if an ESA has been completed for this site, please submit a copy with the application.

Prior to demolition or construction activities associated with existing structures, provide a Notice of Asbestos Renovation or Demolition form to the Orange County EPD. For more information contact the EPD Air Quality Management staff at 407-836-1400.

All development is required to treat stormwater runoff for pollution abatement purposes. Discharge that flows directly into wetlands or surface waters without pretreatment is prohibited. Reference Orange County Code Sections 30-277 and 30-278.

**Schools:**

The applicant has been issued a formal capacity determination by Orange County Public Schools which expires February 24, 2021 and indicates that there is no capacity at the supporting elementary, middle, or high schools.

**Transportation.**

**PROJECT SPECIFICS**

Parcel ID: 34-24-30-6368-00-560; -561; and 571  
 Location: 14727 and 14831 Boggy Creek Road  
 Acreage: 22.66 acres/21.02 net acres  
 Request FLUM: From: Rural  
 To: Planned Development-Commercial/Medium Density Residential (PD-C/MDR)  
 Request Zoning: From: A-2 (Citrus Rural District)  
 To: P-D (Planned Development District)  
 Existing Development: Undeveloped  
 Development Permitted Under Current FLUM: Up to 2 single-family dwelling units or ag related activities (1 du/10 acres)  
 Proposed Density/Intensity: Up to: 350 multi-family units (17.5 acres), 229,996 sq. ft. commercial (3.52 acres), 25,000 sq. ft. commercial, 25,000 sq. ft. medical office, 200 hotel rooms and 150 hospital beds and 1.64 acres wetlands

**Trip Generation (ITE 10<sup>th</sup> Edition)**

Land Use Scenario	PM Pk. Hr. Trips	% New Trips	New PM Pk. Hr. Trips
Existing Use: Undeveloped	4	100%	4
Proposed Use: Up to: 350 multi-family units (17.5 acres), 229,996 sq. ft. commercial (3.52 acres), 25,000 sq. ft. commercial, 25,000 sq. ft. medical office, 200 hotel rooms and 150 hospital beds and 1.64 acres wetlands	765	76%	582
Net New Trips (Proposed Development less Allowable Development):			578

**Future Roadway Network**

Road Agreements: None  
 Planned and Programmed Roadway Improvements: Boggy Creek Rd – South, Boggy Creek Rd - Osceola County Line to SR 417, Boggy Creek Road South will be widened from a two-lane roadway to a four-lane roadway from

the Orange/Osceola County line to SR 417. The widening will include sidewalks, bicycle lanes, roadway lighting, and median landscaping. It is estimated to be approximately 39% complete. Construction is estimated to begin May 2021. This information is dated and may be subject to change.

Right of Way Requirements: None

### Summary

The applicant is requesting to change 22.66 acres from Rural to PD-C/MDR and request approval to develop 350 multi-family units (17.5 acres), 229,996 sq. ft. commercial (3.52 acres), 25,000 sq. ft. commercial, 25,000 sq. ft. medical office, 200 hotel rooms and 150 hospital beds and 1.64 acres wetlands. Analysis of the project trips from the currently approved under future land use versus the proposed use indicates that the proposed development will result in an **increase** in the number of pm peak trips and therefore impact the area roadways. However, based on the Concurrency Management System Database, several roadways within the project impact area do not operate at acceptable levels of service and capacity is not available to be encumbered.

- The subject property is not located within the County's Alternative Mobility Area.
- The subject property is not located along a backlogged/constrained facility or multimodal corridor.
- The allowable development based on the approved future land use will generate **4 pm peak hour trips**.
- **The proposed use will generate 582 pm peak hour trips resulting in a net increase of 578 pm peak hour trips.**
- The subject property is located adjacent to **Boggy Creek Road**, a 4-lane **divided** road. Based on the Concurrency Management System (CMS) database dated **08-12-2020**, this roadway currently operates at Level of Service **F** and capacity is **not** available to be encumbered. All other roadway segments within the project impact area operate at acceptable levels of service. This information is dated and is subject to change.
- **Based on the concurrency management system database dated 08-12-20, the following roadway segments are operating below the adopted level of service standard within the project impact area:**
  1. **Boggy Creek Road from Central Florida Greenway to Osceola County Line**

This information is dated and subject to change.

- Background traffic was developed based on the 3% and 5% annual growth rate based on historical AADT within the project's impact area. Committed trips were used if they exceed background traffic volumes developed with annual growth rates to account for growth in the area.
- Analysis of short term 2025 (5 year) conditions indicate that all roadway segments within the project impact area will continue to operate at acceptable levels of service with the exception of the following roadway segment:
  - **Boggy Creek Road – from Central Florida Greenway to Osceola County Line (Daily and PM)**
- Analysis of long term analysis year (2040) indicated that the same deficiencies will continue on the current deficient roadway segments and the proposed project will impact the failing segments. Additionally, the following roadway segments are projected to operate below the adopted Level of Service standards:
  - **Boggy Creek Road – from S Access Road to Central Florida Greenway (Daily and PM)**
  - **Boggy Creek Road – from Central Florida Greenway to Osceola County Line (Daily and PM)**
  - **Central Florida Greenway – from Landstar Boulevard to Boggy Creek Road (Daily and PM)**
  - **Central Florida Greenway – from Boggy Creek Road to Narcoossee Road (PM)**
- The deficiencies on these roadway segments will occur with and without the addition of the proposed project trips due to **background** traffic. However, project traffic is significant on the failing roadways and will be subject to proportionate share contribution.
- Final permitting of any development on this site will be subject to review and approval under capacity constraints of the county's Transportation Concurrency Management System. Such approval will not

exclude the possibility of a proportionate share payment in order to mitigate any transportation deficiencies. Finally, to ensure that there are no revisions to the proposed development beyond the analyzed use, the land use will be noted on the County's Future Land Use Map or as a text amendment to the Comprehensive Policy Plan.

### 3. Policy References

**GOAL FLU1** URBAN FRAMEWORK. Orange County shall implement an urban planning framework that provides for long-term, cost-effective provision of public services and facilities and the desired future development pattern for Orange County

**OBJ FLU1.1** Orange County shall use urban densities and intensities and Smart Growth tools and strategies to direct development to the Urban Service Area and to facilitate such development (See FLU1.1.2.B and FLU1.1.4). The Urban Service Area shall be the area for which Orange County is responsible for providing infrastructure and services to support urban development.

**Policy FLU1.1.1** Urban uses shall be concentrated within the Urban Service Area, except as specified for the Horizon West Village and Innovation Way Overlay (Scenario 5), Growth Centers, and to a limited extent, Rural Settlements.

**Policy FLU1.1.2A.** The Future Land Use Map shall reflect the most appropriate maximum and minimum densities for residential development. Residential development in Activity Centers and Mixed Use Corridors, the Horizon West Village and Innovation Way Overlay (Scenario 5) and Growth Centers may include specific provisions for maximum and minimum densities. The densities in the International Drive Activity Center shall be those indicated in the adopted Strategic Development Plan.

**Policy FLU1.1.2B.** The following are the maximum residential densities permitted within the Urban Service Area for all new single use residential development or redevelopment. Future Land Use densities for the following categories shall be:

FLUM Designation	General Description	Density
<b>Urban Residential – Urban Service Area</b>		
Low Density Residential (LDR)	Intended for new residential projects within the USA where urban services such as water and wastewater facilities are present or planned. This category generally includes suburban single family to small lot single family development.	0 to 4 du/ac
Low-Medium Density Residential (LMDR)	Recognizes low- to medium-density residential development within the USA, including single family and multi-family residential development.	0 to 10 du/ac
Medium Density Residential (MDR)	Recognizes urban-style multifamily residential densities within the USA.	0 to 20 du/ac
High Density Residential (HDR)	Recognizes high-intensity urban-style development within the USA.	0 to 50 du/ac

**Policy FLU1.1.4** - In addition to FLU1.1.2(B), permitted densities and/or intensities for residential and non-residential development can be established through additional Future Land Use designations. Density and Floor Area Ratio (FAR) calculation shall be defined as the language specified in Future Land Use Element Policy FLU1.1.2(C). The Future Land Use and Zoning Correlation is found in FLU8.1.1.

**B. URBAN MIXED USE OPTIONS** – The following Future Land Use designations allow for a mix of uses. Per a settlement agreement with the State Department of Community Affairs, Orange County’s Planned Development Future Land Use designation now requires an adopted text amendment to specify the maximum intensity and density of a project. See Policy FLU8.1.4. Mixed-Use Corridors are a staff initiated option intended to complement the County’s Alternative Mobility Areas and Activity Center policies.

FLUM Designation	General Description	Density/ Intensity
<b>Urban Mixed Use– Urban Service Area</b>		
Planned Development (PD)	The PD designation ensures that adjacent land use compatibility and physical integration and design. Development program established at Future Land Use approval may be single or multiple use. See FLU8.1.4. Innovation Way is another large planning area similar in some respects to the planning process for Horizon West. Developments within the Innovation Way Overlay (Scenario 5) are processed as Planned Developments. Innovation Way is being implemented through the policies found in Chapter 4.	Must establish development program at Future Land Use amendment stage per FLU8.1.4.

**OBJ FLU1.2** URBAN SERVICE AREA (USA) CONCEPT; USA SIZE AND MONITORING. Orange County shall use the Urban Service Area concept as an effective fiscal and land use technique for managing growth. The Urban Service Area shall be used to identify the area where Orange County has the primary responsibility for providing infrastructure and services to support urban development.

**Policy FLU1.2.4** The County will continue to monitor the Urban Service Area allocation. Through this process, the following applicants have satisfied these requirements and are recognized as expansions to the Urban Service Area.

**OBJ FLU1.3** APPLICATION FOR URBAN SERVICE AREA EXPANSION. No new expansions to the Urban Service Area boundary, except for those planned for Horizon West and the Innovation Way Overlay (Scenario 5), shall be permitted unless supported by data and analysis demonstrating consistency with Objectives FLU1.2 and FLU1.3 and associated policies. Orange County shall use the following process to evaluate Urban Service Area expansions, and as a means for achieving its goals with respect to accommodating growth within the USA and implementing the Comprehensive Plan.

**Policy FLU1.3.1** All amendments to the Urban Service Area shall include a comprehensive review to ensure the efficient provision of infrastructure, protection of the environment, and land use compatibility with adjacent development.

**Policy FLU1.3.2** An application to expand the Urban Service Area shall be approved only when the application is found to be consistent with the Comprehensive Plan and complies with the following procedural steps and additional criteria, with the exception of those planned for Horizon West and the Innovation Way Overlay (Scenario 5).

**Policy FLU1.3.3** All applications must be accepted as complete by the County for the application to be processed pursuant to Objective FLU1.3. The determination of completeness shall include the use of data that meets generally acceptable professional standards as well as addressing all issues required by this process. An accepted application does not bind staff or the LPA to an affirmative recommendation, or the BCC in its final decision on the Future Land Use Amendment request. An application request can be denied based on inadequate or inconsistent data with respect to the County's commitment to the 2030 vision.

**OBJ FLU1.4** The following location and development criteria shall be used to guide the distribution, extent, and location of urban land uses, and encourage compatibility with existing neighborhoods as well as further the goals of the 2030 CP.

**Policy FLU1.4.1** Orange County shall promote a range of living environments and employment opportunities in order to achieve a stable and diversified population and community.

**Policy FLU1.4.2** Orange County shall ensure that land use changes are compatible with and serve existing neighborhoods.

**Policy FLU2.3.7** Access management controls, including but not limited to joint driveways, frontage roads and cross-access agreements along collector and arterial roadways, shall be applied to all development and redevelopment proposals consistent with the Land Development code.

**Policy FLU6.1.3** Residential uses in areas designated Rural shall be limited to a maximum density of 1 DU/10 acres. Density shall refer to the total number of units divided by developable land area, excluding natural water bodies and conservation areas (wetlands areas). Agriculturally zoned areas that do not have active agricultural use may be the subject of amendments to the comprehensive plan in order that such areas may be rezoned to an appropriate residential category. Cluster zoning shall not be permitted in the Rural Service Area except where required for protection of significant environmental features, such as Wekiva Study Area, Class I conservation areas or rare upland habitat.

**Policy FLU6.1.5** Agriculturally zoned land shall be rezoned to an appropriate residential district prior to subdivision for residential purposes.

**Policy FLU8.1.1(a)** The following zoning and future land use correlation shall be used to determine consistency with the Future Land Use Map. Land use compatibility, the location,

availability and capacity of services and facilities; market demand and environmental features shall also be used in determining which specific zoning district is most appropriate. Density is restricted to the maximum and minimum allowed by the Future Land Use Map designation regardless of zoning. Density and Floor Area Ratio (FAR) calculation shall be defined as the language specified in Future Land Use Element Policy FLU1.1.2(C). Orange County's **Zoning and Future Land Use Correlation** is referenced herein as follows:

<b>Zoning and Future Land Use Correlation</b>		
<i>FLUM Designation</i>	<i>Density/Intensity</i>	<i>Zoning Districts</i>
<b>Urban Residential</b>		
Low Density Residential (LDR)	(0 to 4 du/ac)	R-CE* R-1, R-2**, R-1A, R-1AA, R-1AAA, R-1AAAA, R-T-1, R-T-2, R-L-D, PD, U-V * R-CE is not available as a rezoning request in USA.

**Policy FLU8.1.2** Planned Developments (PDs) intended to incorporate a broad mixture of uses under specific design standards shall be allowed, provided that the PD land uses are consistent with the cumulative densities or intensities identified on the Future Land Use Map. (Policy 3.1.19)

**Policy FLU8.1.4** The following table details the maximum densities and intensities for the Planned Development (PD) Future Land Use designations that have been adopted subsequent to January 1, 2007.

**Policy FLU8.2.1** – Land use changes shall be required to be compatible with the existing development and development trend in the area. Performance restrictions and/or conditions may be placed on property through the appropriate development order to ensure compatibility. No restrictions or conditions shall be placed on a Future Land Use Map change.

**Policy FLU8.8.2** Requests for Future Land Use Map amendments and text amendments to the Comprehensive Plan shall be considered only upon the submittal of an application meeting the County's requirements. Proposed map and text amendments must be reviewed prior to submittal as part of a pre-application meeting with staff. Staff shall have the authority to request additional information and documentation related to amendment applications.
