BCC Conditions of Approval July 8, 2003

- Development shall conform to the LUP, dated "Received April 18, 2003," and to the following conditions of approval. Development based upon this approval shall comply with all other applicable federal, state and county laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent the applicable laws, ordinances, and regulations are expressly waived or modified by these conditions, or by action approved by the Board of County Commissioners (BCC), or by action of the BCC.
- The uses, densities, and intensities, and all of the conditions of approval of the PD/LUP have been negotiated and agreed to by both the applicant and the County. The PD/LUP constitutes an agreement between the parties. The applicant and the applicant's successors in interest have the contract right to develop the PD with the uses, densities, and intensities approved by the County, subject to the restrictions and requirements in the conditions of approval, and neither the applicant nor the County shall have the right to increase or decrease the property, or otherwise alter the uses, densities, and intensities, or to delete, waive, or amend any condition of approval except through an amendment to the PD/LUP that is negotiated by both parties.
- The developer shall obtain wastewater and water services from Orange County subject to County rate resolutions and ordinances.
- Prior to construction plan approval, master stormwater management, water, and wastewater plans, including preliminary calculations, shall be approved prior to approval of construction plans.
- At the time of approval of a plat for a single-family residential unit project, the developer shall have prepared and submitted for review a document containing Covenants, Conditions, and Restrictions (CC&Rs) for the property being platted. The CC&Rs, which shall be recorded simultaneously with the recording of the plat, shall include a provision incorporating, verbatim, the following requirements:
 - The same front facade for single-family residential units may not be repeated more than 5 times within 1/4 mile length for both sides of any street, and shall be separated by at least 2 units with different facades.
 - House front facades shall be varied and articulated to provide visual interest to pedestrians along the street frontage. The front facade of the main body of the house shall not exceed 40 feet in length, except for wings or "L"s, which are setback from the facade. In no case shall more than 50 percent of the front facade of a house consist of an unobstructed block wall or garage door.
 - At least 50 percent of all single-family residential units shall have a front porch. A front porch shall be a minimum of 7 feet in depth and cover a minimum 10 feet in width or 1/3 of the front facade, whichever is greater.
 - Flat roofs shall be prohibited.
 - Unless otherwise prohibited by the CC&Rs, fencing in the front yard shall be located within 3 feet of the sidewalk to define the separation of public and private spaces. Such fences shall be no higher than 3 feet 6 inches and limited to decorative wrought iron or wood picket style.

The provision of the CC&Rs incorporating the above referenced requirements shall not be amended, removed, or superseded without the prior approval of the BCC, which approval may be withheld in the Board's sole discretion, and the CC&Rs shall contain a statement to that effect.
