New Condition

12. The applicant, and any successor(s) in interest, for CDR-24-05-130 agrees that the concurrency vested rights certificate that applies to Parcel 12-24-28-9655-00-010 (CVRC #93-000142) has expired. However, in recognition of applicant's expenditure of funds in reliance on the prior vested rights , any new development on Parcel 12-24-28-9655-00-010 by applicant or any successor(s) in interest shall be subject to the concurrency management system, unless otherwise exempt. All other development within Westwood shall be limited to 22,096 average daily trips; any trips in excess of that number shall be subject to the concurrency management system, unless otherwise vested or exempt. Unless required at a different time (by agreement, condition of approval, etc.), residential properties must obtain concurrency prior to approval of the plat; non-residential properties that are required to plat must obtain concurrency for any lot with an assigned use prior to approval of the plat (lots without an assigned use shall be labeled as "future development") and non-residential properties that are not required to plat must obtain concurrency prior to obtaining the first building permit. Concurrency may be obtained earlier than plat or building permit, but it is ultimately the responsibility of the applicant to obtain concurrency, including any proportionate share agreement, as applicable, in a timely fashion. Should an applicant wait to obtain concurrency until later in the development process, the County will not be responsible for any delays caused by the applicant's failure to obtain concurrency in a timely fashion.

Action Requested

Make a finding of consistency with the Comprehensive Plan and **APPROVE** the amendment to the Orangewood N-1 Planned Development (PD) (CDR-24-05-130) dated “Received January 22, 2025”, subject to the conditions listed under the DRC Recommendation in the Staff Report with New Condition #12 and the following conditions renumbered accordingly.
