

**To: The Clerk of the Board of County Commissioners
Orange County, Florida**

Petition in Opposition of

FLUM Amendment 2019-1-A-3-2 “Alta Underhill, 38 Acres”

The 840 signatures in this document, compiled over the course of only 12 days, represent citizens in emphatic opposition to the above action.

There are many serious concerns relative to this proposed development including but not limited to: Public Safety, Traffic, Environmental, Property Values and Schools. There are also concerns about the Comprehensive Land Use Plan sections which would allow this type of development in the midst of a mature, well established community of single family homes.

These concerns will be communicated in the Public Comments section of this agenda item.

Respectfully Submitted by the Citizens of Orange County, Florida

February 12, 2019

To: The Mayor of Orange County, Florida

The Board of County Commissioners, Orange County Florida

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

Granting this change to Medium Density Residential status would allow development of the subject parcel in a manner completely inconsistent with the surrounding properties.

This change would severely and negatively impact the existing landowners in the following ways:

- Reducing mobility by increasing overuse of already failing roadways
- Increasing public safety response times
- Modification of wetland areas
- Increasing school populations.

It would also damage the community aesthetic that has been developed over the many decades the surrounding communities have matured.

Property Name: Lake Underhill 38 Acres LLC.

Physical Street Address: 8247 Lake Underhill Road

Present Land Use Designation: Low Density Residential with 0-4 dwelling units per acre

Present Zoning: R-1A (single-family dwelling)

Proposed Land Use: Medium Density Residential (Multi-Family Dwelling) with 0-20 dwelling units per acre

Proposed Zoning: Planned Development

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

Granting this change to Medium Density Residential status would allow development of the subject parcel in a manner completely inconsistent with the surrounding properties.

This change would severely and negatively impact the existing landowners in the following ways:

- Reducing mobility by increasing overuse of already failing roadways
- Increasing public safety response times
- Modification of wetland areas
- Increasing school populations.

It would also damage the community aesthetic that has been developed over the many decades the surrounding communities have matured.

Property Name: Lake Underhill 38 Acres LLC.

Physical Street Address: 8247 Lake Underhill Road

Present Land Use Designation: Low Density Residential with 0-4 dwelling units per acre

Present Zoning: R-1A (single-family dwelling)

Proposed Land Use: Medium Density Residential (Multi-Family Dwelling) with 0-20 dwelling units per acre

Proposed Zoning: Planned Development

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

Granting this change to Medium Density Residential status would allow development of the subject parcel in a manner completely inconsistent with the surrounding properties.

This change would severely and negatively impact the existing landowners in the following ways:

- Reducing mobility by increasing overuse of already failing roadways
- Increasing public safety response times
- Modification of wetland areas
- Increasing school populations.

It would also damage the community aesthetic that has been developed over the many decades the surrounding communities have matured.

Property Name: Lake Underhill 38 Acres LLC.

Physical Street Address: 8247 Lake Underhill Road

Present Land Use Designation: Low Density Residential with 0-4 dwelling units per acre

Present Zoning: R-1A (single-family dwelling)

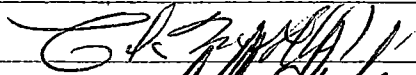

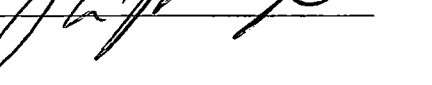

Proposed Land Use: Medium Density Residential (Multi-Family Dwelling) with 0-20 dwelling units per acre

Proposed Zoning: Planned Development

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

Granting this change to Medium Density Residential status would allow development of the subject parcel in a manner completely inconsistent with the surrounding properties.

This change would severely and negatively impact the existing landowners in the following ways:

- Reducing mobility by increasing overuse of already failing roadways
- Increasing public safety response times
- Modification of wetland areas
- Increasing school populations.

It would also damage the community aesthetic that has been developed over the many decades the surrounding communities have matured.

Property Name: Lake Underhill 38 Acres LLC.

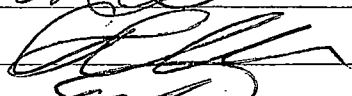

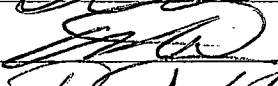

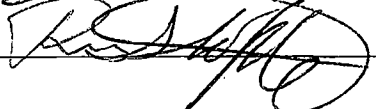

Physical Street Address: 8247 Lake Underhill Road

Present Land Use Designation: Low Density Residential with 0-4 dwelling units per acre

Present Zoning: R-1A (single-family dwelling)

Proposed Land Use: Medium Density Residential (Multi-Family Dwelling) with 0-20 dwelling units per acre

Proposed Zoning: Planned Development

To: The Mayor of Orange County, Florida

The Board of County Commissioners, Orange County Florida

PETITION

We the undersigned Citizens of District 3 emphatically OPPOSE Amendment 2019-1-A-3-2 to the Future Land Use Plan of Orange County, Florida This item was forwarded to the Orange County Board of County Commission by the Orange County Planning Commission on January 17, 2019 for transmittal to the State of Florida for comment.

This amendment is to change the Future Land Use Plan of the subject property from Low Density Residential (up to 4 units per acre) to Medium Density Residential (up to 20 units per acre). The rezoning concurrent with this amendment would change the subject property from the current R-1A zoning to Planned Development zoning.

Granting this change to Medium Density Residential status would allow development of the subject parcel in a manner completely inconsistent with the surrounding properties.

This change would severely and negatively impact the existing landowners in the following ways:

- Reducing mobility by increasing overuse of already failing roadways
- Increasing public safety response times
- Modification of wetland areas
- Increasing school populations.

It would also damage the community aesthetic that has been developed over the many decades the surrounding communities have matured.

Property Name: Lake Underhill 38 Acres LLC.

Physical Street Address: 8247 Lake Underhill Road

Present Land Use Designation: Low Density Residential with 0-4 dwelling units per acre

Present Zoning: R-1A (single-family dwelling)

Proposed Land Use: Medium Density Residential (Multi-Family Dwelling) with 0-20 dwelling units per acre

Proposed Zoning: Planned Development
