SUBJECT: May 11, 2021 – Consent Item
Solar United Neighbors, Inc. FY2021 Grant Agreement

Since 2015, Orange County Government, the City of Orlando, and the City of Winter Park have collaborated to enhance resident education about clean energy, streamline permitting requirements, and increase the amount of installed, customer-owned solar energy. In 2020, Orange County was ranked first for residential solar growth in the state. Implementing community-wide energy-saving and clean energy programs for all is a top priority on the long and necessary path to 100% clean, renewable energy.

Throughout the five years of this program, Solar United Neighbors, Inc. (SUN) has helped more than 360 Orange County homeowners install 3,638 kilowatts of residential solar. This has generated more than \$8.3 million in economic development to local contractors and has offset 56,240 metric tons of carbon. The co-op process is engaging and collaborative and has successfully educated thousands of residents and consumers about solar energy basics through engaging virtual and in-person classes. Orange County Government funded the first solar co-op in 2016 and a second solar co-op in 2018. The City of Orlando funded solar co-ops in 2019 and 2020.

The FY21 budget approved by the Board included \$15,000 for the Environmental Protection Division to fund the 2021 Orange County Solar Co-op. In the FY21 funding agreement, SUN provides management services to assist with resident outreach, conduct educational seminars, and facilitate a contractor selection committee process for co-op members. Solar installer oversight and customer service are also provided by SUN. The goal for 2021 is to educate 250 residents about solar energy options and assist 50 homeowners to install 500 kilowatts of new distributed solar energy.

ACTION REQUESTED: Approval and execution of Orange County, Florida and Solar United Neighbors FY2021 Grant Agreement in the amount of \$15,000. All Districts.
