### **5. REQUESTED ACTION:**

Approval subject to the following conditions:

1. Development shall conform to the Alafaya Trail Property Planned Development; Orange County Board of County Commissioners (BCC) approvals; The Shoppes at Alafaya Trail Phase I & II Preliminary Subdivision Plan; BCC approvals; Chase Bank Development Plan dated "Received June 25, 2020" and to the conditions of approval listed below. Development based upon this approval shall comply with all applicable federal, state, and county laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent any applicable county laws, ordinances, or regulations are expressly waived or modified by these conditions, or by action approved by the BCC, or by action of the BCC.
2. This project shall comply with, adhere to, and not deviate from or otherwise conflict with any verbal or written promise or representation made by the applicant (or authorized agent) to the Board of County Commissioners ("Board") at the public hearing where this development received final approval, where such promise or representation, whether oral or written, was relied upon by the Board in approving the development, could have reasonably been expected to have been relied upon by the Board in approving the development, or could have reasonably induced or otherwise influenced the Board to approve the development. In the event any such promise or representation is not complied with or adhered to, or the project

deviates from or otherwise conflicts with such promise or representation, the County may withhold (or postpone issuance of) development permits and / or postpone the recording of (or refuse to record) the plat for the project. For purposes of this condition, a "promise" or "representation" shall be deemed to have been made to the Board by the applicant (or authorized agent) if it was expressly made to the Board at a public hearing where the development was considered and approved.

3. Pursuant to Section 125.022, Florida Statutes, issuance of this development permit by the County does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the County for issuance of the permit, or any other development order, if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. Pursuant to Section 125.022, the applicant shall obtain all other applicable state or federal permits before commencement of development.
4. Developer / Applicant has a continuing obligation and responsibility from the date of approval of this development plan to promptly disclose to the County any changes in ownership, encumbrances, or other matters of record affecting the property that is subject to the plan, and to resolve any issues that may be identified by the County as a result of any such changes. Developer / Applicant acknowledges and understands that any such changes are solely the Developer's / Applicant's obligation and responsibility to disclose and resolve, and that the Developer's / Applicant's failure to disclose and resolve any such changes to the satisfaction of the County may result in the County not issuing (or delaying issuance of) development permits, not recording (or delaying recording of) a plat for the property, or both.
5. Property that is required to be dedicated or otherwise conveyed to Orange County (by plat or other means) shall be free and clear of all encumbrances, except as may be acceptable to County and consistent with the anticipated use. Owner / Developer shall provide, at no cost to County, any and all easements required for approval of a project or necessary for relocation of existing easements, including any existing facilities, and shall be responsible for the full costs of any such relocation prior to Orange County's acceptance of the conveyance. Any encumbrances that are discovered after approval of a PD Land Use Plan shall be the responsibility of Owner / Developer to release and relocate, at no cost to County, prior to County's acceptance of conveyance. As part of the review process for construction plan approval(s), any required off-site easements identified by County must be conveyed to County prior to any such approval, or at a later date as determined by County. Any failure to comply with this condition may result in the withholding of development permits and plat approval(s).

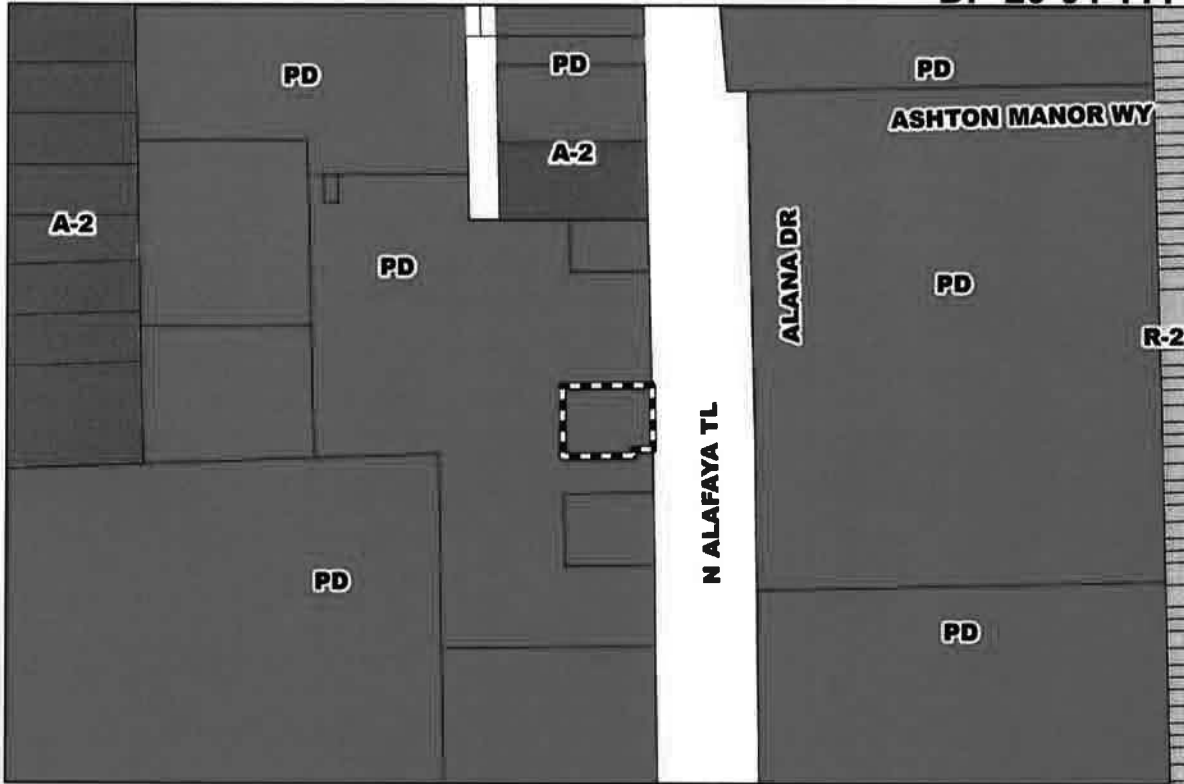

6. Development plan (DP) approval by the DRC (or BCC, as applicable), shall automatically expire if construction plans are required and have not been submitted and approved within two (2) years from DP approval; if construction plans are not required, such DP shall expire two (2) years from approval unless a building permit has been obtained within such two-year period. The foregoing notwithstanding, the DRC may, upon good cause shown, grant successive one (1) year extensions to the expiration date of a DP if the developer makes written request to the DRC chair prior to the expiration date.

Prior to commencement of any earth work or construction, if one acre or more of land will be disturbed, the developer shall provide a copy of the completed National Pollutant Discharge Elimination System (NPDES) Notice of Intent (NOI) form for stormwater discharge from construction activities to the Orange County Environmental Protection Division, NPDES Administrator. The original NOI form shall be sent to the Florida Department of Environmental Protection by the developer.
8. Unless the property is otherwise vested or exempt, the applicant must apply for and obtain a capacity encumbrance letter prior to construction plan submittal and must apply for and obtain a capacity reservation certificate prior to issuance of the initial certificate of occupancy. Nothing in this condition and nothing in the decision to approve this development plan shall be construed as a guarantee that the applicant will be able to satisfy the requirements for obtaining a capacity encumbrance letter or a capacity reservation certificate.
9. Prior to construction plan approval, hydraulic calculations, including hydraulically dependent development, shall be submitted to Orange County Utilities demonstrating that proposed and existing water and wastewater systems have been designed to support all development within the DP.
10. Approval of the Development Plan shall void the previously approved Alafaya Care Now DP.
11. Outside sales, storage, and display shall be prohibited.
12. Pole signs and billboards shall be prohibited. All other signage shall comply with Chapter 31.5 of the Orange County Code.
13. Prior to construction plan approval, documentation must be provided certifying that this project has the legal right to tie into the master drainage system.
14. Prior to construction plan approval, documentation with supporting calculations shall be submitted which certifies that the existing drainage system and pond have the capacity to accommodate this development and

that this project is consistent with the approved master drainage plan (MDP) for this PD.

15. Prior to the issuance of the next vertical building permit within this PD, the applicant shall obtain both a Right-of-Way Utilization Permit and a Building Permit for a connection along the northern PD boundary adjacent to Indianhead Trail. Such connection shall be completed prior to issuance of the initial Certificate of Occupancy for the next vertical building permit within this PD.
