SUBJECT: May 23, 2023 – Discussion Item
Orange County Sustainability & Resilience Update

The Orange County Sustainability Advisory Board provides oversight and direction of County sustainability and resilience initiatives to ensure continuous improvement of community-wide priorities and County operational goals and plans. The nine-member board brings value through a diverse set of backgrounds ranging from energy and high-performance buildings, housing and community development, and natural resources.

On January 12, 2021, the Board unanimously accepted the Orange County Sustainable Operations & Resilience Action Plan which contains 17 performance-based goals in six focus areas that span across County operations and services.

The Past-Chair of the Sustainability Advisory Board and the Chief Sustainability and Resilience Officer will provide a presentation to the Board highlighting community-wide accomplishments over the past year, grants, Sustainable Operations & Resilience Action Plan progress, and next steps.

This item is for informational purposes only; no action is required.
