**Personal History:** My desire to serve on the Commission on Aging, the Disability Advisory Board, and the Community Development Advisory Board is grounded in my life experiences, personal history, and long-standing commitment to improving the well-being of individuals and families within the community. Over the years, I have learned that strong communities are built when people have access to resources, clear information, and responsive systems that support them through different stages of life. These lessons have shaped my values and motivated me to seek opportunities for public service. Throughout my life, I have been closely connected to individuals who rely on public programs, community services, and advocacy to maintain stability and independence. I have personally experienced how challenging it can be to navigate systems related to healthcare, housing, education, and social services. These experiences have given me practical insight into the gaps that exist within these systems and the importance of clear communication, accountability, and thoughtful planning when developing policies and programs. My interest in aging-related issues developed through relationships with older family members. Neighbors, Customers and community involvement. I have observed how aging often brings increased medical needs, limited mobility, and concerns about remaining in one's home. I have also seen how social isolation and limited transportation can affect mental and emotional well-being. These experiences have taught me that programs serving older adults must focus on safety, independence, and access to reliable services. Serving on the Commission on Aging would allow me to support policies that help older adults remain active, informed, and supported within their communities. My connection to disability-related issues is deeply personal and has significantly influenced my understanding of public systems. I have spent considerable time supporting individuals with disabilities and their families.

**Personal History:** Previously, I lived in the Tampa Bay area and was quite involved over the last few years. I was a board member of the Hillsborough County Jewish Democratic Caucus and the Vice President of the Democratic Progressive Caucus of Tampa Bay. As a member of each, I convened meetings and activist actions that were both valuable to our membership base and the community at large. Whether that was free tail light repair clinics or spearheading candidate trainings, I found ways to make a meaningful impact in Hillsborough County. I am also a proud member of the Washington-Baltimore News Guild, Local No. 32035 where I serve as a shop steward and previously a member of the executive committee. In my union, I strive to always employ active listening, respect, and leadership by consensus. These are the same qualities I'm excited to bring to my participation in an Orange County Advisory Board. But more important than my memberships is the kinship I have with the disability community my top choice for an Orange County advisory board. Not only am I a member of the disability community, but my nephew Teddy was born in 2021 with a chromosomal abnormality (Mosaic Trisomy 9) that has led to a severe disability. At nearly five years old, Teddy is unable to walk, talk, crawl, or consume any food through his mouth. Despite his challenges, however, he is deeply loved and deserves every opportunity for success that his family and community are able to provide. I've seen his challenges, but I've also witnessed the support provided for him, and how that enables Teddy to experience joy and growth. And these support systems also allow my sister and her husband to survive the rigors of raising a child with a disability. With that in mind, I'd be honored to bring that perspective to the Orange County Disability Advisory Committee. Thank you for your consideration.
