SUBJ: **Approval to Decrease the Speed Limit on Ficquette Road from South of Ingelnook Drive to South of Summerlake Park Boulevard from 45 mph to 40 mph**

Concerned citizens have requested Orange County to review the posted speed along Ficquette Road from South of Ingelnook Drive to South of Summerlake Park Boulevard. They expressed that the posted speed is too high and presents a safety risk.

Vehicular/pedestrian safety, accident statistics, current and future density, and the roadside development were the primary considerations for a speed reduction analysis along the Reams Road corridor. The Florida Department of Transportation uses a Context Sensitive Road classification when determining Target Speed. Target Speed is the highest speed at which vehicles should operate on a thoroughfare in a specific context, consistent with the level of multi-modal activity generated by adjacent land uses, providing both mobility and a supportive environment for vehicles, pedestrians, bicycles, and public transit users.

This corridor fits a C3R-Suburban Residential with allowable target speed range of 35 – 55 mph respectively. Additionally, observations of prevailing speeds indicate that the current 85<sup>th</sup> percentile speeds range from 44 mph to 50 mph. The prevailing speed method (including allowable adjustments) indicates that the speed limit should be set to 40 mph. Based on this review, it is recommended that the 45 mph posted speed limit on Ficquette Road from South of Ingelnook Drive to South of Summerlake Park Boulevard be reduced to 40 mph.

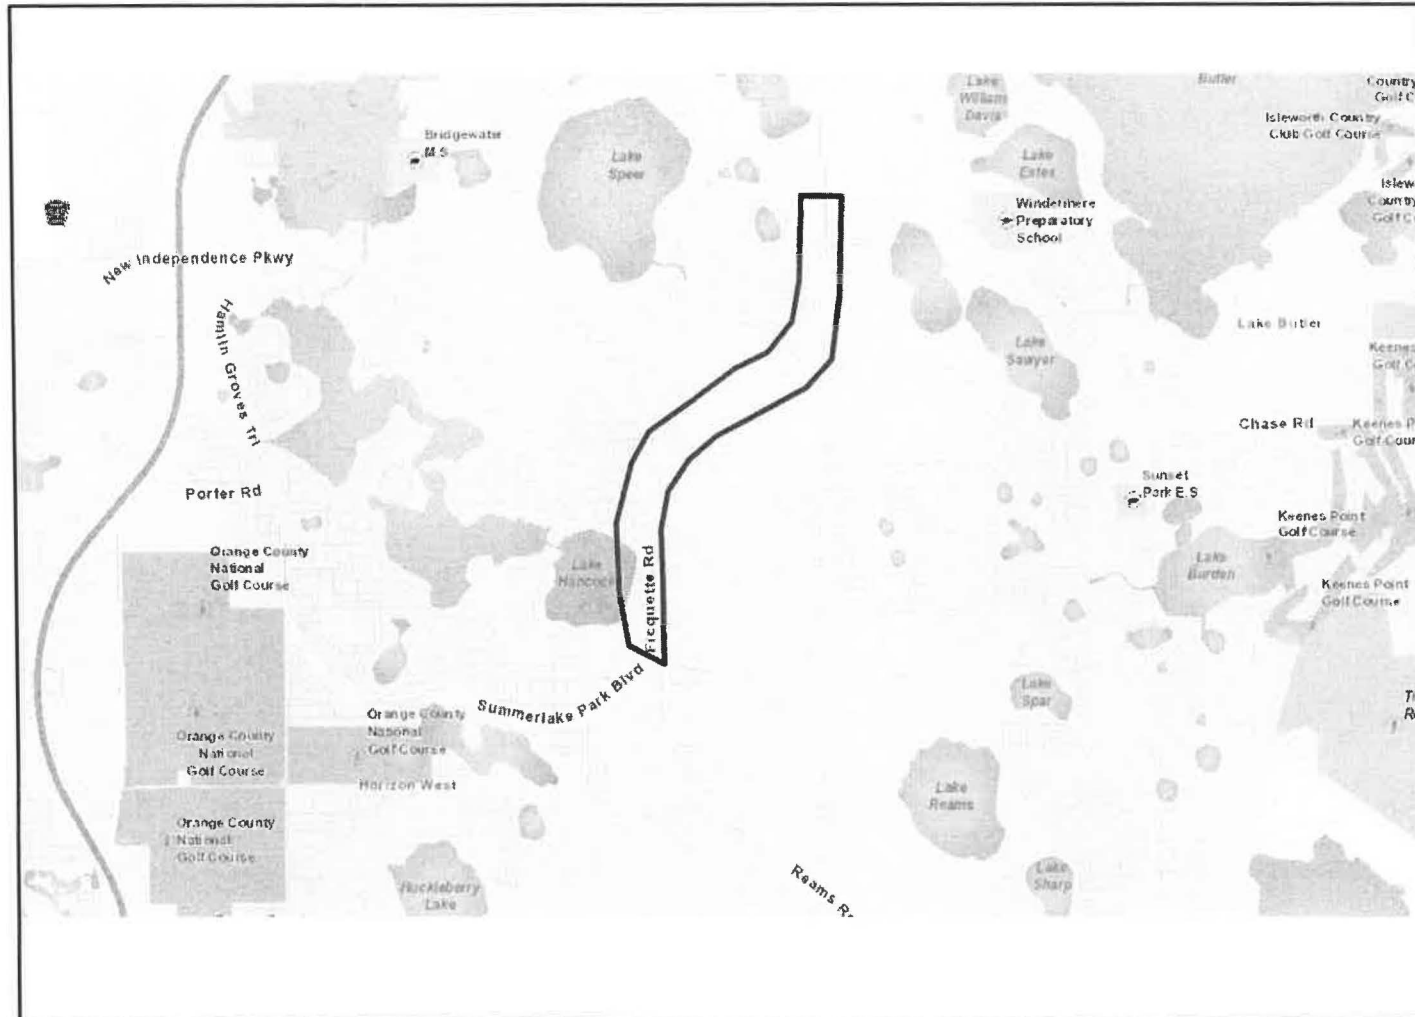

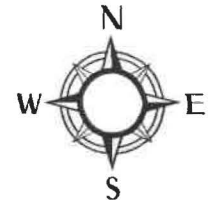

**Action Requested: Approval to decrease the speed limit on Ficquette Road from South of Ingelnook Drive to South of Summerlake Park Boulevard from 45 mph to 40 mph. District 1.**
