# **INTRODUCTORY SECTION**

March 28, 2022

To the Honorable Mayor, Members of the City  
Commission, and the Citizens of the  
City of Winter Garden, Florida:

The Annual Comprehensive Financial Report (ACFR) of the City of Winter Garden, Florida (the “City”) for the fiscal year ended September 30, 2021 is hereby submitted. This report consists of management’s representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City’s assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City’s financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the City’s comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City’s financial statements have been audited by Binney Accounting & Assurance Services, PLLC. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent certified public accountant concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City’s financial statements for the fiscal year ended September 30, 2021, are fairly presented in all material respects in conformity with GAAP. The Independent Auditor’s Report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City’s MD&A can be found immediately following the Independent Auditor’s Report.

## ***Profile of the City***

The City, incorporated in 1903, is located in Central Florida in West Orange County. The City experienced significant growth from 1999 to 2007, which slowed considerably for several years, but has now begun to pick up again. The City currently occupies a land area of approximately seventeen square miles and serves a population of 47,475. The City is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the City Commission (the “Commission”).

The City operates under the commission-manager form of government. Policy-making and legislative authority are vested in the Commission consisting of the Mayor and four commissioners. The Commission is responsible, among other things, for passing ordinances and resolutions, adopting the budget, authorizing indebtedness, appointing advisory boards, and hiring the City Manager, City Clerk, Attorney, and Auditor. The City Manager is responsible for carrying out the policies and ordinances of the Commission, for overseeing the day-to-day operations of the City, and for appointing the heads of various departments. The Commission is elected on a non-partisan basis. Commission members serve three-year staggered terms, with the Mayor and one Commissioner elected every three years and the other three Commissioners elected the following year. Effective 2023, the Commission members will serve four-year staggered terms. The Commissioners are elected by district, and the Mayor is elected at large.

The City provides a full range of services, including police and fire protection; the construction and maintenance of streets, sidewalks, and other infrastructure; planning, community, and economic development; cemetery management and maintenance; code enforcement and building inspections; parks maintenance; and recreational activities and cultural events. In addition, the City operates four enterprises: water and sewer service, solid waste collection service, stormwater service, and management of the City owned mobile home park.

The Commission is required to adopt a final budget by no later than the close of the fiscal year. This annual budget serves as the foundation for the City’s financial planning and control. The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Department heads may transfer resources within the same fund with approval of the City Manager. Fund revenue and expenditure amounts may be increased or decreased by formal action of the City Commission following proper public notice.

## ***Local economy***

The City’s economic environment is heavily influenced by the economy of Orlando and the Central Florida area. The unemployment rate for Orange County was 4.5 percent in 2021 which is down from 9.8 percent in 2020. The unemployment rate has fluctuated quite a bit since the spring of 2020 due to the economic crisis caused by the Coronavirus-2019 pandemic. Orange County is a community that relies heavily on the tourism and hospitality industries. It is projected that the state’s tourism and hospitality industries, from restaurants and resorts to theme parks and cruise ships, are expected to see a lag as people try to become more comfortable

interacting in social settings under new health requirements. We are expecting unemployment to decrease as the economy recovers and opens back up.

While many residents commute to jobs in Orlando and the major tourist attractions, the City maintains a diverse economy within its boundaries. In addition to an industrial component in the City's northeast area, the City has three main commercial districts:

- The downtown historical district is situated along a stretch of the 19 mile West Orange Trail, which attracts bicyclists, roller-bladers, walkers, and joggers year-round. Its brick-lined streets, decorative fountain, and clock tower give this area a quaint, small town feel. The district boasts a number of specialty shops, restaurants, museums, offices, an historic hotel, and an historic theatre.
- The State Road 50 corridor is the major thoroughfare through the City and home to a number of major and specialty retail stores, offices, fast-food and full-service restaurants, and financial institutions.
- Winter Garden Village at Fowler Groves (the "Mall") is a 1.15 million square foot regional open-air shopping center on 175 acres in the City's southern area, the largest of its kind in Central Florida. It draws shoppers from all of West Orange County in addition to providing convenient shopping for local residents, and contains a mix of big-box, specialty shops, financial institutions, and more than 20 eateries.

### ***Long-term financial planning***

Unassigned fund balance in the General Fund as a percentage of total expenditures was 39% percent as of September 30, 2021, which is a healthy balance just above management's target level of 30%. While the City has undertaken several major capital projects in recent years using General Fund dollars, other funding sources will need to be utilized for large capital projects in future years. In order to keep fund balance in line with the target level, difficult decisions will need to be made regarding the allocation of available dollars among the various services the City provides to its citizens.

### ***Relevant financial policies***

Given the expectation of rising interest rates in the near future, durations of investments were held fairly constant during the fiscal year. Effective durations at the beginning of the fiscal year were 1.81 years for the governmental fund portfolio and 1.86 years for the enterprise fund portfolio, and 1.84 years and 1.82 years at the end of the fiscal year, respectively.

The City provides postemployment healthcare benefits in the form of an implied rate subsidy for group health insurance for retirees and their dependents. In addition, the City pays a portion of the health premium for retirees meeting certain criteria. As of the end of the current fiscal year there were 18 retired employees receiving these benefits, of which the City was paying a portion of the premiums for 14. These benefits are financed on a pay-as-you-go basis. The Governmental Accounting Standards Board (GASB) Statement Number 75 requires governments to report a liability in the financial statements in connection with the obligation to

provide these benefits. The liability reported by the City in 2021 for these benefits is \$14,795,937.

### ***Major initiatives***

The following projects are being funded primarily from the General Fund.

The City has been working on the development of the City-owned Tucker Ranch, a 209-acre property on the west side of Avalon Road, boasting an impressive oak hammock. The ranch will be developed into a regional park with trails, camping, a 15-acre wellness park and access to John's Lake for canoeing.

The City has also been working on the Dillard Street Redesign which includes state-of-the-art complete street practices spanning from Plant Street to Colonial Drive (SR50). This one-mile corridor is an important gateway into historic downtown Winter Garden. The project design removes two lanes from the current five-lane section to incorporate three roundabouts, a bike trail and onstreet parking. The City has finished the design and engineering phase of the project in FY2020 and the actual construction of the project is budgeted to commence in FY2022.

### ***Awards and Acknowledgements***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2020. This was the thirteenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized Annual Comprehensive Financial Report that satisfied both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. We would like to express our appreciation to all members of the Department who assisted and contributed to the preparation of this report. Credit must also be given to the Mayor and Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of the City's finances.

Respectfully submitted,

## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of  
the City Commission and City Manager  
Winter Garden, Florida

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Winter Garden, Florida (the "City"), as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents.

### Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2021, and the respective changes in financial position, and where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, other supplementary information section, and statistical section, as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in accordance with the City's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the City of Winter Garden (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 7-10 of this report.

### Financial Highlights

- The assets and deferred outflows of resources for the City exceeded the liabilities and deferred inflows of resources on September 30, 2021 by \$309,000,435. The unrestricted net position on this date was \$79,342,284. These funds are available to meet the ongoing obligations of the City.
- The net position of governmental activities on September 30, 2021 equaled \$178,973,257. Of this amount, \$58,160,650 was unrestricted. The net position of business-type activities equaled \$130,027,178. Of this amount \$21,181,634 was unrestricted.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$92,667,475. Of this amount, \$4,418,946 is available for spending at the City's discretion (unassigned fund balance).
- Unassigned fund balance in the General Fund was \$4,418,946 at the end of the fiscal year, or 11 percent of total expenditures.
- Net position in the Pension Trust Fund for General Employees increased \$5,639,869. Net position restricted in the Pension Trust Fund for Firefighters and Police Officers increased \$10,541,983 for a total fiduciary funds increase of \$16,181,852.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as

the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, physical environment, transportation, economic environment, public assistance, and culture and recreation. The business-type activities of the City include water and sewer services, solid waste collection, stormwater services, and management of the City owned mobile home park.

The government-wide financial statements can be found on pages 34-36 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds.** These funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Community Redevelopment Agency Fund, the Impact Fee Fund, and the Capital Projects Fund all of which are considered to be major funds. Data from the other six funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements and schedules have been provided for these funds to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 37-45 of this report.

***Proprietary Funds.*** These Funds, also known as Enterprise Funds, are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer utility, solid waste collection operation, stormwater utility, and the City owned mobile home park.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer utility, solid waste collection operation, stormwater utility, and the City owned mobile home park. The water and sewer utility fund, the solid waste collection fund, and the Stormwater fund are considered major funds of the City.

The basic proprietary fund financial statements can be found on pages 46-48 of this report.

***Fiduciary Funds.*** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 49-50 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 51-90 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension and other postemployment benefits to its employees. Required supplementary information can be found on pages 81-98 of this report.

The other supplementary information referred to earlier in connection with the capital projects fund, and nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 99-109 of this report.

## **Government-wide Financial Analysis**

The government-wide financial statements provide long-term and short-term information about the City's overall financial condition. This analysis addresses the financial statements of the

City as a whole. The following table reflects a summary of the Statement of Net Position compared to prior year.

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

*Net Results of Activities* – which will impact (increase/decrease) current assets and unrestricted net position.

*Borrowing for Capital* – which will increase current assets (i.e., cash) and long-term debt.

*Spending Borrowed Proceeds on New Capital* – which will reduce current assets and increase capital assets. There is a second impact; the spend down of borrowed proceeds increases related debt which has an offsetting effect on the increase in capital assets, and will not change the net investment in capital assets.

*Spending of Non-borrowed Current Assets on New Capital* – which will (a) reduce current assets and increase capital assets, and (b) reduce unrestricted net position and increase net investment in capital assets.

*Principal Payment on Debt* – which will (a) reduce current assets and reduce long-term debt, and (b) reduce unrestricted net position and increase net investment in capital assets.

*Reduction of Capital Assets through Depreciation* – which will reduce capital assets and net investment in capital assets

## **Current Year Impacts - Government Wide Statement of Net Position**

### **Governmental Activities:**

In the Governmental Activities columns, the total assets increased by \$41.1 million. The largest part of the total assets increase is due to the current and other assets increased by \$34.7 million, primarily from the increase of \$30.2 million in cash and investments. This increase is largely due to the unspent debt proceeds from the 2021 sales tax revenue bond of \$16.1 million and the receipt of the first payment of the American Rescue Plan Act funding of \$11.6 million that has not been spent yet.

Deferred outflows of resources increased \$2.5 million due to an increase of \$2.4 million in pension related deferred outflows based on actuary reports, and an increase of \$100 thousand in OPEB related deferred outflows based on actuarial reports.

Current and other liabilities, which include accounts payable, accrued interest and wages payable, deposits and unearned revenue increased by \$10.9 million which is largely due to the receipt of the American Rescue Plan Act funds that are recorded as unearned revenue.

Noncurrent liabilities, which include the City's long-term debt outstanding, net pension and total Other Post Employment Benefits (OPEB) liabilities and long-term compensated absences, increased by \$14.8 million primarily from the increase of \$15.2 million in revenue bonds due to the new 2021 revenue bond for the transportation and recreation related project in the amount of \$16.1 million.

Deferred inflows of resources increased \$6.4 million due to an increase of \$128 thousand in OPEB related deferred inflows based on actuary reports, and an increase of \$6.2 million in pension related deferred inflows based on actuary reports.

### **Business-type Activities:**

In the Business-type activities columns, the total assets increased by \$3.5 million. The current and other assets increased by \$2.2 million, primarily from the net cash provided by operating activities less net cash used by capital and related financing activities. The capital assets increased by \$1.3 million, this increase is primarily as a result to the increase in the business-type activity infrastructure.

Deferred outflows of resources increased \$267 thousand primarily due to an increase of \$239 thousand in pension related deferred outflows based on actuary reports.

Total liabilities decreased by (\$947) thousand due to the decrease of (\$1.3) million in long-term liabilities largely due to the reduction of (\$849) thousand in notes from direct borrowings payment of principal and the reduction of (\$625) thousand in net pension liability.

Deferred inflows of resources increased \$794 thousand largely due to the increase of \$762 thousand in pension related deferred inflows based on actuary reports.

### **Net Position:**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$309,000,435 at the close of fiscal year 2021. The City's increase in net position for fiscal year 2021 amounts to \$15,453,702.

The largest portion of the City's net position reflects its net investment in capital assets, (e.g., land, buildings, improvements, and equipment), less any debt used to acquire those assets that is still outstanding. The net investment in capital assets make up \$220,865,662 or 71 percent of total net position. The City use these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The table below summarizes the statement of activities and the changes in net position for the current and previous year.

## Normal Impacts

There are six basic (normal) impacts on revenues and expenses as reflected below.

### Revenues:

*Economic Condition* – which can reflect a declining, stable or growing economic environment and has a substantial impact on property, sales, gas or other tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

*Increase/Decrease in Council approved rates* – while certain tax rates are set by statute, the City Commission has significant authority to impose and periodically increase/decrease rates (water, reclaimed water, sewer, permitting, impact fees, etc.)

*Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring)* – certain recurring revenues (state revenue sharing) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year to year comparisons.

### Expenses:

*Increase/Decrease in Authorized Personnel* – changes in service demand may cause the City Commission to increase/decrease authorized staffing. Staffing costs (salary and related benefits) were approximately \$29.7 million in FY 2021 and \$28.5 million in FY 2020.

*Salary Increases (cost of living, merit and market adjustment)* – the ability to attract and retain human and intellectual resources requires the City to strive to approach a competitive salary range position in the marketplace.

*Inflation* – while overall inflation appears to be reasonably modest, the City is a consumer of certain commodities such as chemicals and supplies, fuels, and parts. Some functions may experience unusual commodity specific increases.

## Current Year Impacts - Government Wide Statement of Activities and Changes in Net Position

### Governmental activities.

Governmental activities increased the City's net position by \$11,536,550. The pie chart below highlights the sources of governmental activities revenue for fiscal year 2021.

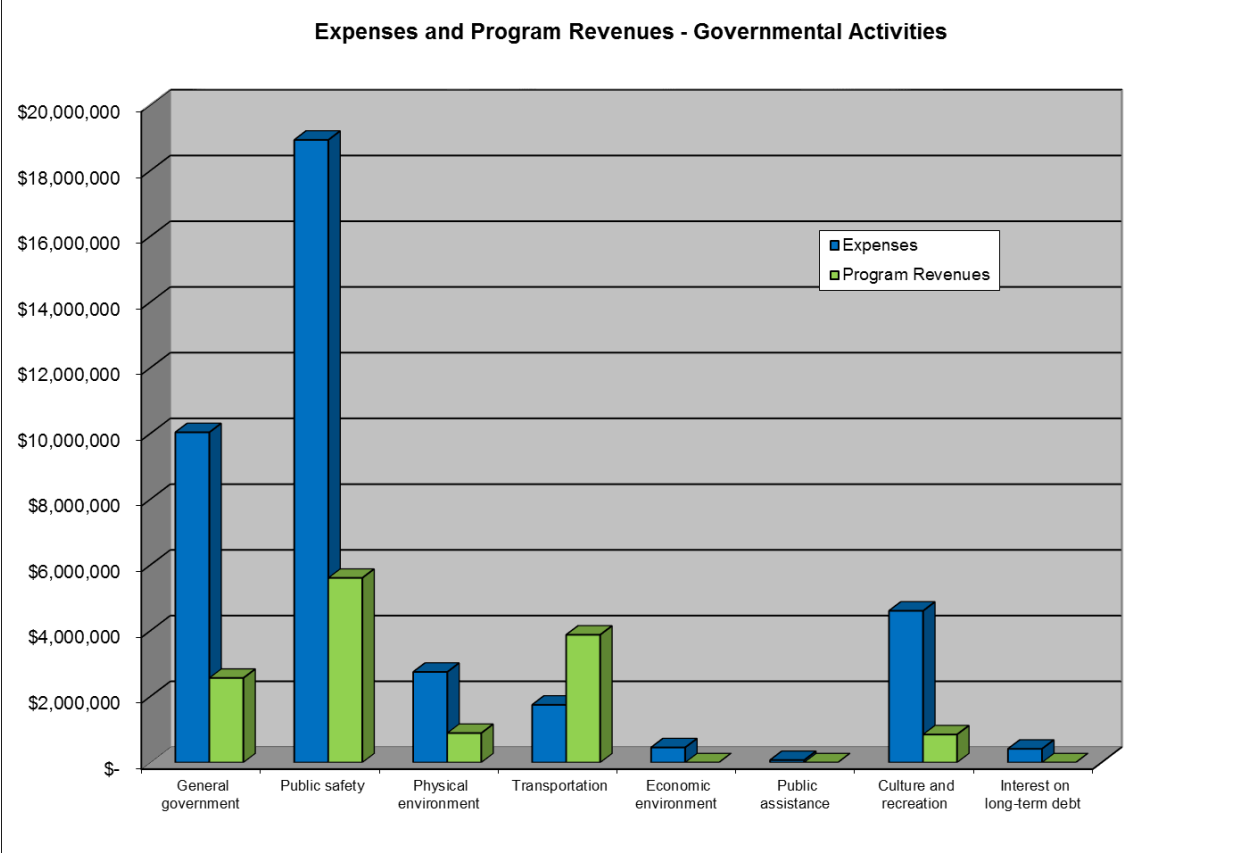

Property taxes increased by \$1.6 million or 9.7% as a result of an increase in the City-wide assessed property values from \$3.7 billion to \$4.1 billion or 9.7%. Utility service taxes increased \$171 thousand or 3.5%.

Unrestricted intergovernmental increased by \$1.1 million primarily due to the increase in revenues received by the half cent sales tax.

Charges for services increased by \$773 thousand while operating grants and contributions increased by \$36 thousand primarily due to the economy opening back up and services resuming back to normal after COVID-19 pandemic.

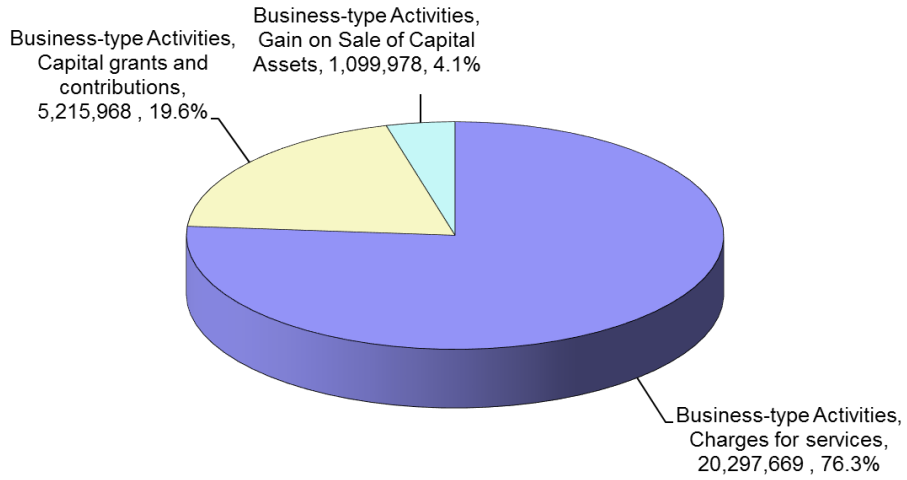

Governmental activities expenses increased \$2 million, 5.4%, primarily due to an increase in personnel related expenses for cost of living increase and benefit related expense increases for health care costs, pension and OPEB.

**Business-type activities.** Business-type activities increased the City’s net position by \$3,917,152. The City experienced new construction during the current fiscal year, resulting in the collection of \$1,205,320 for water and sewer impact fees, plus \$4,088,822 for developer contributed subdivision assets. While these funds are used for major capital purchased, the related assets are depreciated over many years.

Expenses of the business-type activities increased by \$328 thousand or 1.5%. During FY 2021, the direction from the City Manager and the City Commission was to keep expenses in the enterprise funds as flat as possible during the pandemic as we were uncertain how the pandemic would affect revenues.

## Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The City's governmental funds reported combined ending fund balances of \$92,667,475 at September 30, 2021, which consisted of \$257,848 in nonspendable, \$7,174,068 in restricted, \$51,535,936 in committed, \$29,280,678 in assigned and \$4,418,946 in unassigned fund balance. The fund balance experienced a net increase of \$19,473,065 from the reported fund balance of \$73,194,410 in the prior year. This increase is due in large part to the \$14,281,966 increase in the Capital Projects Fund fund balance and the \$2,364,692 increase in the Impact Fee fund discussed in more detail below.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$4,418,946, while total fund balance was \$42,250,151. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 11 percent of General Fund expenditures, while total fund balance represents 102 percent of the same amount. The key factor for the significant fund balance is due to the timing of planned capital projects, causing expenditures to be \$30,147,459 lower than the budgeted allocation.

The fund balance of the City's General Fund increased by \$1,711,246 during the current fiscal year. There are two main reasons for the increase in the fund balance. The first is that total General Fund revenues of \$44,449,930 exceeded General Fund expenditures of \$41,301,798 by \$3,148,132 due to the timing of capital projects that were budgeted but not spent during the fiscal year. The second reason for increase is the increase in Ad Valorem taxes, they were up \$1,567,765 from FY2020 due to an increase in value of taxable property.

The Community Redevelopment Agency Fund is used to account for receipts of tax increment revenues from Orange County and the City and to account for expenditures for the redevelopment of the community redevelopment area. Fund balance increased \$871,692 in this fund. The key factor in this increase was due to timing of planned capital projects which caused expenditures to be \$644,686 lower than the budgeted amount.

The Impact Fee Fund is used to account for the receipt of police, fire, road, and recreation impact fees. The purpose of an impact fee is to assign, to the extent practical, growth-related capital costs to those new residents and businesses responsible for such costs. These fees are segregated by function (police, fire, road, and recreation) and are required to be used for capital projects and equipment purchases related to growth within each function. Fund balance increased \$2,364,692

in this fund largely due to impact fee revenues from Fire and Police impact fees of \$412,810 and \$304,669 respectively and Recreation impact fees of \$358,224 from increased development. The road impact fee revenues totaled \$1,897,619 for the fiscal year 2021.

Capital Projects Fund fund balance increased \$14,281,966 in fiscal year 2021 due to the debt proceeds of \$16,087,000 for new transportation and recreation projects to be determined by Commission approval.

**Proprietary funds.** The City’s proprietary funds provide the same type of information found in the government-wide financial statements, but in greater detail.

The Water and Sewer Utility Fund had an unrestricted net position of \$16,027,944 at the end of the fiscal year. Total growth in net position for this fund was \$2,450,957 which is a 2% increase. Factors concerning this increase have already been addressed in the discussion of the City’s business-type activities.

The Solid Waste Fund had an unrestricted net position of \$141,856 at the end of the fiscal year. This is a decrease in net position of (\$598,263) largely due to the net operating loss of (\$595,021) due to the increase in personnel costs and contractual services.

The Stormwater Fund had an unrestricted net position of \$5,011,096 at the end of the fiscal year. Total growth in net position for this fund was \$2,026,874 which is a 13% increase. This increase is due to the Stormwater rate increase included in Ordinance 20-46 approved by the City Commission on October 22, 2020. The ordinance amends section 78-203 & 78-205 concerning Stormwater management fees, operations, maintenance, repairs and capital improvements. The ordinance provides for an adjustment to the Stormwater management fee for fiscal years 2021-2025 as follows:

<b>Stormwater Rate increase</b>	<u>2021</u>	<u>2022</u>	<u>2023</u>	<u>2024</u>	<u>2025</u>
Beginning stormwater fee per EDU	\$6.00	\$8.00	\$8.25	\$8.50	\$8.75
Rate Increase per EDU	\$2.00	\$0.25	\$0.25	\$0.25	\$0.25
Stormwater management fee	\$8.00	\$8.25	\$8.50	\$8.75	\$9.00

The rates become effective with bills rendered on and after January 1, 2021, and each October 1st thereafter

**General Fund Budgetary Highlights**

Total General Fund expenditures budget was increased by \$31,870,545, from \$39,578,712 to \$71,449,257, largely due to the carryforward budget to carry forward prior year appropriations for projects, machinery and equipment and other items budgeted but not purchased and projects budgeted but not completed by fiscal year ended FY 2020. These increases can be summarized as follows:

- \$17,013,690 increase in transportation activities. This was primarily due to the carryforward budget requests. The Dillard Street improvement project from DR 50 to

Plant Street for \$13,347,418 was approved to carryforward as well as the \$1,718,218 budget for the West Orange Trail enhancement.

- \$2,332,278 increase in general government activities. The change in budget is largely due to the interim budget approval for the purchase of the Stoneybrook West Golf property for \$2,000,000. The City commission agreed to purchase the property with the agreement that the Stoneybrook West community would pay back the City via special assessment.
- \$11,381,838 increase in culture and recreation activities. This was largely due to the \$4,300,000 grant that was approved during the FY2021 from the West Orange Health District for the Tucker Ranch Wellness Park. The rest of the increase was largely due to the carry forward of budgeted projects that were not complete including improvements to the Tucker Ranch park and farm for \$2,549,235, the purchase of athletic fields for \$2,400,000, the construction of new ball fields for \$603,265, and the 9<sup>th</sup> Street Community Farm and Pavilion for \$225,000.

Total General Fund actual expenditures totaled \$41,301,798 which is \$30,147,459 less than the final Budget of \$71,449,257. This variance is largely due to projects budgeted but not completed by FY 2021. The variances can be summarized as follows:

- \$16,333,859 difference in final budget to actual expenditures in transportation activities. This was primarily due to the timing of the Dillard Street renovation project, \$13,347,418 was budgeted for this project in FY2021. The construction was not started in FY 2021, the budget has been carried forward to FY2022 and is projected to commence in the summer of 2022.
- \$11,260,051 difference in final budget to actual expenditures in culture and recreation activities. This is largely due to the FY2021 carry forward of \$6,849,235 for the Tucker Ranch park, farm and wellness park, the funds were not spent in FY2021 and were carried forward into FY2022. Plans are still being reviewed on this project and are projected to commence in the summer of 2022. The other large capital projects that were budgeted for and not spent in FY2021 are the purchase and design of new recreation fields. There was \$3,050,000 budgeted for the purchase and design of new recreation fields, these designs are still in progress and the budgeted funds have been carried forward to FY2022. The commencement date is still unknown.

### **Capital Asset and Debt Administration**

**Capital assets.** The City's investment in capital assets for its governmental and business-type activities as of September 30, 2021 amounts to \$237,422,707 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure, and construction work in progress. The total increase in the City's investment in capital assets for the current fiscal year was 3.4 percent (a 5.3 percent increase for governmental activities and a 1.2 percent increase for business-type activities).

**CITY OF WINTER GARDEN'S Capital Assets**

	<b>Governmental Activities</b>	<b>Business-type Activities</b>	<b>Total</b>
Land	\$30,583,897	\$961,612	\$31,545,509

Net capital assets	<u>\$127,500,120</u>	<u>\$109,922,587</u>	<u>\$237,422,707</u>

Major capital asset events during the fiscal year included the following:

Governmental Activities:

- Land increased by \$3,867,823 in fiscal year 2021. The large majority of this is from the purchase of the Stonybrook West golf course for \$2 million. The City made an agreement with the Stonybrook West Home Owners Association that the City would purchase the Stonybrook West golf course property out of foreclosure and the Stonybrook West community would pay back the City \$2 million via a special assessment over the course of 20 years.
- \$2,111,806 was spent on the Streets & Sidewalk Resurfacing project. This project provides for capital repairs and replacement as needed throughout the City. In FY2021, the \$2.1 million was allocated to resurfacing improvements to Division Street (Dillard to Hennis), E. Crown Point (Plant to Crown Point Cross), E. Bay Street (Dillard to Ninth), First Street (Maple to Smith), Daniels Road (Turnpike to SB Pkwy), Courtlea Oaks, Daniels Crossing Phase II (Fifth, Dharma and Karma), Orange Cove and Horizon Oaks.

Business-type Activities:

- \$769,068 for the Marsh Road Potable / Reuse Tanks.
- \$413,993 for the State Road 50 Manhole rehabilitation project.
- \$1,345,844 on stormwater improvement projects to Bradford Park, Regal Point, Temple Grove, and Lulu Creek.

Additional information on the City's capital assets can be found in note *IV.C*.

**Long-term debt.** At the end of the current fiscal year, the City had total debt outstanding of \$34,491,464. The debt represents debt secured solely by specified revenue sources.

### **CITY OF WINTER GARDEN'S Outstanding Debt, at year end**

Governmental:	
Parking Garage and other Downtown Projects	\$8,004,000
Refinance City Hall Loan	7,705,000
Transportation & Parks Revenue Bonds	16,087,000
Sub-total	<u>31,796,000</u>

2003 SRF Loan	2,094,844
2001 SRF Loan	388,028
Sub-total	<u>2,695,464</u>
Total	<u><u>\$34,491,464</u></u>

The City's total debt increased by \$14,382,982, 72 percent, during the current fiscal year due to the payment of the principal due on the revenue bonds and notes offset by issuance of new \$16M debt.

There are no limitations placed upon the amount of debt the City may issue either by the City's Charter, Code of Ordinances, or Florida Statutes. The City's Charter requires a voter referendum for general obligation bonds.

Additional information on the City's long-term liabilities can be found in Note *IV.F* in the notes to the financial statements.

### **Economic Factors and Next Year's Budgets and Rates**

The City has experienced moderate growth over the past several years, thus the costs of providing governmental services have likewise been increasing. For fiscal year 2021, the City maintained its millage rate of 4.5000. During the budget process for fiscal year 2021, department heads focused on controlling costs and were successful in doing so. The City Commission voted to maintain the millage rate of 4.5000 for the fiscal year 2022 with a continued effort to focus on controlling costs as well.

### **Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, Fiscal Management Division, 300 West Plant Street, Winter Garden, Florida, 34787.

**Reconciliation of the Statement of Revenues,**  
**Expenditures, and Changes in Fund Balances of Governmental Funds**  
**to the Statement of Activities**  
**For the Year Ended September 30, 2021**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances—total governmental funds	\$ 19,473,065
Governmental funds report revenues earned during the period but not yet available as a deferred inflow. However, in the statement of activities revenues are reported when earned.	98,541
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	6,445,746
The pension assets resulting from contributions in excess of the annual required contribution in previous years are not financial resources and therefore are not reported in the funds.	
Net change in pension assets	4,225,549
In the statement of activities, only the gain on the sale or scrap of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold.	(16,561)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.	
Issuance of long-term debt	(16,087,000)
Repayment of principal of long-term debt	855,000
Deferred outflows and inflows of resources related to pension and other postemployment benefits are applicable to future periods and, are not reported in governmental funds	
Net change in deferred outflows	2,506,921
Net change in deferred inflows	(6,362,959)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds such as compensated absences and other postemployment benefits. Governmental funds also report City pension contributions as expenditures. In the Statement of Activities, the cost of pension benefits earned net of contributions is reported as pension expense.	392,028
In the governmental funds, purchases of inventories are reported as expenditures, whereas in the Statement of Activities, only the change in the balance of inventories is expensed.	<u>6,220</u>
Change in net position of governmental activities	<u>\$ 11,536,550</u>

# **NOTES TO THE FINANCIAL STATEMENTS**

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

**I. Summary of significant accounting policies**

The accounting policies of the City of Winter Garden (the “City”) conform to accounting principles generally accepted in the United States as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting board for establishing governmental accounting and financial reporting principles. The more significant of these accounting policies are summarized below.

**A. Reporting entity**

The City was incorporated November 10, 1908 in the “Miscellaneous Record” Orange County volume 37, page 444, and reincorporated May 31, 1913 by the “Laws of Florida” chapter 6798. The City is a municipal corporation governed by a five-member City Commission comprised of the Mayor (elected at large) and four district Commissioners. The accompanying financial statements present the City and one component unit, an entity for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City’s operations, and their financial transactions are included as though they are part of the City.

**Blended component unit.** The Community Redevelopment Agency (CRA) was created by the City Commission pursuant to the requirements of Chapter 163, Part III of the Florida Statutes through Ordinance Number 92-48, adopted on June 25, 1992 with the consent of the Orange County Board of County Commissioners. The Community Redevelopment Agency serves to renew economic interest and improve the commercial diversity and viability of a redevelopment area in and around the City’s downtown. The governing body of the Agency is made up of the City Commission, a sixth member appointed by the Orange County Board of County Commissioners, and a seventh member appointed by the City Commission. The City approves the budget, provides funding and performs all accounting functions for the CRA. The CRA’s services are provided exclusively to the City. The Agency is presented as a special revenue fund, the CRA’s audited financial statements can be obtained by going to the City’s website in the Community Redevelopment Agency tab.

**Fiduciary component units.** The City has included the Pension Plan for General Employees and Pension Plan for Firefighters and Police Officers as fiduciary component units of the City. They are included in the financial statements as pension trust funds.

**B. Government-wide and fund financial statements**

Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City and its component unit. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

The statement of activities presents a comparison between direct expenses and program revenues for each function or segment of the City's governmental activities. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement focus, basis of accounting, and financial statement presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Community Redevelopment Agency Fund* accounts for the activities of the Community Redevelopment Agency, which is an incremental tax district established pursuant to Florida Statutes and accounted for as a special revenue fund. The fund accounts for the incremental increase in ad valorem tax revenue collected within the designated community redevelopment area. Revenues must be utilized and expended in accordance with the Community Redevelopment Plan.

The *Impact Fee Fund* accounts for revenue received from impact fees and legal expenditures of these funds.

The *Capital Projects Fund* is used to account for the accumulation of resources that are restricted, committed, or assigned to expenditure for capital outlays. The City is using this fund to account for expenditures related to transportation and recreation related projects funded by the sales tax revenue bonds.

The City reports the following major proprietary funds:

The *Water and Sewer Utility Fund* accounts for the activities of the City's water treatment plants, the water distribution system, the sewage pumping stations and collection systems, and the sewage treatment plant.

The *Solid Waste Fund* accounts for the activities of the City's residential and commercial collection system and the costs of disposal fees charged at the County landfill.

The *Stormwater Fund* accounts for activities of the City's Stormwater related activities.

Additionally, the government reports the following fund type:

The *Pension Trust Funds* account for the activities of the Pension Plan for General Employees and the Pension Plan for Firefighters and Police Officers, which accumulate resources for pension benefit payments to qualified employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this general rule is charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned and as such are not eliminated in the process of consolidation.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The Water and Sewer Utility Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States requires management to make use of estimates that affect reported amounts in the basic financial statements. Actual results could differ from those estimates.

**D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position or fund balance**

**1. *Deposits and investments***

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The City maintains a cash and investment pool that is utilized by all funds except those that require separate accounts. Each pooled cash fund is allocated interest on ending monthly cash balances held by the fund throughout the year.

State statutes authorize the City to invest in the State Board of Administration's (SBA) Local Government Surplus Funds Trust Fund (Florida PRIME), United States government securities, United States government agencies, federal instrumentalities, non-negotiable interest bearing time certificates of deposit, repurchase agreements, bankers' acceptances, commercial paper, state and local government taxable and tax-exempt debt, registered investment companies, and intergovernmental investment pools.

The City's investments are reported at fair value. Investments in Florida PRIME are reported at amortized cost. The Office of the Auditor General of the State of Florida performs the operational audit of the activities and investments of Florida PRIME.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

**2. *Receivables and payables***

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Balances of advances between funds, as reported in the fund financial statements, are considered non-spendable fund balances of the respective funds since these balances are not available for appropriation.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 90 days and half of those between 60 and 90 days comprise the trade accounts receivable allowance for uncollectibles. Property taxes receivable in excess of 21 months and half of those between nine months and 21 months comprise the property taxes receivable allowance for uncollectibles.

**3. *Inventories and prepaid items***

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These payments are recorded as expenditures when consumed rather than when purchased.

**4. *Restricted assets***

Certain resources of the Water and Sewer Utility Fund are classified as restricted assets on the statement of net position because their use is limited to the repayment of customer deposits, to capital projects to expand the capacity of the system, and to fund asset renewals and replacements. Certain proceeds of the Water and Sewer Utility Fund’s loan agreements, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable loan agreement covenants. These resources are set aside to subsidize potential deficiencies from the Fund’s operation that could adversely affect debt service payments and to segregate resources accumulated for debt service payments over the next six months.

CITY OF WINTER GARDEN, FLORIDA  
 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

**5. Capital assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the City are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building improvements	15-25
Public domain infrastructure	25-50
System infrastructure	15-25
Vehicles	5-10
Office and Computer equipment	5

**6. Compensated absences**

It is the City’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Sick leave is accrued in the government-wide and proprietary fund financial statements for employees who are expected to become eligible for payment at termination since the City’s policy is to only pay these amounts when employees separate from service with the City due to retirement. Vacation pay is accrued when incurred for employees who have met their probationary period in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**7. Long-term obligations**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

**8. *Net Pension Liability/Asset***

In the government-wide and proprietary statements, net pension liability and/or asset represents the present value of projected benefit payments to be provided through the single employer defined benefit pension plans to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the pension plan's fiduciary net position. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension plans, pension expense, information about the fiduciary net position, and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The City allocated the net pension liability/asset, deferred outflows for pensions, deferred inflows for pensions, and pension expense to funds and functions/activities based on their respective contributions made to the pension plans during the measurement year.

**9. *Other Postemployment Benefits Liability***

It is the City's policy to allow retirees to participate in its employee health, hospitalization and prescription insurance programs. The City accrues total other postemployment benefit liabilities for the cost of providing those benefits in the government-wide and proprietary fund financial statements based on actuarial measurement annually in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The City allocated the total OPEB liability, deferred outflows for OPEB, deferred inflows for OPEB, and OPEB expense to funds and functions/activities based on the headcounts.

**10. *Deferred Outflows of Resources/Deferred Inflows of Resources***

In addition to assets and liabilities, the City reports the financial statement elements of deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expenditure or expense) until that applicable time. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that applicable time.

The City reports one item that qualifies as deferred outflows of resources on its government-wide and proprietary statements of net position, deferred outflows for pensions. The deferred outflows for pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

outflows for pensions will be recognized as pension expense or a reduction of the net pension liability in future reporting years.

The City reports two items that qualify as deferred inflows of resources on its government-wide and proprietary statements of net position – deferred inflows related to OPEB and deferred inflows related to pensions. The deferred inflows for pensions is an aggregate of items related to pensions and the deferred inflows for OPEB is an aggregate of items related to OPEB. The deferred inflows related to pensions and OPEB will be recognized as reductions to expense in future reporting years. Details on the composition of the deferred inflows related to pensions and OPEB are further discussed in Notes *V.E.*

The City also reports deferred inflows of resources on applicable governmental fund statements that represent revenues which are measurable but not available in accordance with the modified accrual basis of accounting. These deferred inflows will be recognized as revenue in the fiscal year they are earned and become available. The majority of these deferred inflows of resources represent intergovernmental receipts and reimbursements.

## **11. Fund balances**

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.

***Restricted*** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

***Committed*** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance) of the City Commission. Those committed amounts cannot be used for any other purpose unless the City Commission removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the City Commission, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**Assigned** Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the City Commission and carryforward fund balance needed for the subsequent year's budget. The City has not adopted a formal policy to delegate this authority.

**Unassigned** Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, or committed.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### **E. Property taxes**

For property taxes budgeted for the fiscal year ended September 30, 2021, all property was assessed according to its fair market value on January 1, 2020, and a lien was placed on the property for taxes at that time. The tax levy of the City was established by the City Commission on September 17, 2020. Tax bills were rendered November 1, 2020, and unpaid taxes became delinquent on April 1, 2021. On or prior to June 1, 2021, tax certificates were sold for all delinquent taxes on real property.

## **II. Reconciliation of government-wide and fund financial statements**

### **A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position**

The governmental fund balance sheet includes a reconciliation between *fund balance—total governmental funds* and *net position—governmental activities* as reported in the government-

CITY OF WINTER GARDEN, FLORIDA  
 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$(46,234,162) difference are as follows:

Bonds and notes payable	\$(31,796,000)
Compensated absences	(1,496,573)
Net pension liability	(1,106,280)
Other postemployment benefits	<u>(11,835,309)</u>
 Net adjustment to reduce <i>fund balance—total governmental funds</i> to arrive at <i>net position—governmental activities</i>	 <u><u>\$(46,234,162)</u></u>

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances—total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$6,445,746 difference are as follows:

Capital outlay	\$13,008,327
Depreciation expense	<u>(6,562,581)</u>
 Net adjustment to decrease <i>net changes in fund balances—total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	 <u><u>\$6,445,746</u></u>

Deferred outflows and inflows of resources related to pension and other postemployment benefits are applicable to future periods and are not reported in the governmental funds. The details of this \$(3,856,038) difference are as follows:

Deferred outflows for pensions	\$2,395,734
Deferred outflows for other post employment benefits	111,187
Deferred inflows for other post employment benefits	(128,177)
Deferred inflows for pensions	<u>(6,234,782)</u>
 Net adjustment to increase <i>net changes in fund balances—total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	 <u><u>\$(3,856,038)</u></u>

CITY OF WINTER GARDEN, FLORIDA  
 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

Another element of that reconciliation states that “some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.” The details of this \$392,028 difference are as follows:

Compensated absences	\$195,322
Other postemployment benefits	(1,125,034)
Net pension liability	<u>1,321,740</u>
Net adjustment to decrease <i>net changes in fund balances—total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	<u>\$392,028</u>

**III. Budgetary compliance and accountability**

**A. Budgetary information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

On or before July 31st of each year, all departments of the City submit requests for appropriations to the City Manager so that a budget may be prepared. Before August 31st, the proposed budget is presented to the City Commission for review. The Commission holds public hearings and a final budget must be prepared and adopted no later than September 30th.

The appropriated budget is prepared by fund, function, and department. The City Manager may make transfers of appropriations within a fund. Any revisions that alter the total expenditures of any fund must be approved by the City Commission. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as committed fund balance and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

**IV. Detailed notes on all funds**

**A. Deposits and investments**

As of September 30, 2021, the City had the following investments:

FL PRIME 167,250

The SBA administers the Florida PRIME Fund, formerly known as the Local Government Surplus Funds Trust Fund (LGIP), which is governed by Chapter 19-7 of the Florida Administrative Code and Chapters 218 and 215 of the Florida Statutes. These rules provide guidance and establish the policies and general operating procedures for the administration of the Florida PRIME, the WAM for FL PRIME was 49 days.

The City's investments in the FL PRIME are similar to money market funds in which units are owned in the fund rather than the underlying investments. These investments are reported at amortized cost and meet the requirements of GASB Statement No. 31, as amended by GASB Statement No. 79, Certain External Investment Pools and Pool Participants, which establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from the FL PRIME; although in the occurrence of an event that has a material impact on liquidity or operations of the trust fund, the fund's executive director may limit contributions to or withdrawals from the trust fund for a period of 48 hours.

The City categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. GASB Statement No. 72, Fair Value Measurement and Application, provides guidance for determining fair value of investments for financial reporting purposes and includes the fair value hierarchy, which has three levels based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. GASB 72 allows for the use of quoted prices provided by third parties. The City uses quoted prices provided by its third-party custodian, US Bank, and its pension funds' investment management providers. Quoted prices are categorized using a fair value evaluation matrix providing asset type, pricing method,

*Interest rate risk, credit risk, and concentration of credit risk.* In accordance with its investment policy, the City manages its exposure to (1) interest rate risk, and thus declines in fair values, by limiting the maximum length to maturity of investments; (2) credit risk by limiting the minimum credit quality of investments, as rated by nationally recognized statistical rating organizations (NRSROs); and (3) concentration of credit risk by limiting the maximum percentage that may be invested with a single issuer. These limitations are as follows:

policy for custodial credit risk. As of September 30, 2021, the City's bank balances were \$27,706,896 and book balance of \$26,863,131. Of the bank balances, \$250,000 was covered by federal depository insurance and \$27,456,896 was covered by the State of Florida Collateral Pool. Florida Statutes authorize, and the State administers, a collateral pool that ensures no loss of public funds.

*Custodial credit risk - investments.* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of September 30, 2021, the City's investments were not exposed to custodial credit risk because all securities were held by the City's agent in the City's name.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

**V. Other information**

**A. Risk management**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the City is a member of the Public Risk Management of Florida (PRMF), a local government risk management pool as defined by Florida Statutes 163.01(3)(h). In the event of a loss, the City pays up to the deductible amount on the policy. All additional risk of loss has been transferred to PRMF up to the policy limits. Settlements have not exceeded coverages for each of the past three fiscal years. PRMF absorbs losses up to a specified amount annually and purchases excess and other specific coverages from third-party carriers. PRMF assesses each member its pro rata share of the estimated amount required to meet current year losses and operating expenses. If total member assessments do not produce sufficient funds to meet its current obligations, PRMF can make additional assessments.

**B. Contingency**

The American Rescue Plan Act (ARPA) was signed into law by President Biden on March 11, 2021. The Coronavirus State and Local Fiscal Recovery Funds (SLFRF), a part of the American Rescue Plan, delivers \$350 billion to state, local, and Tribal governments across the country to support their response to and recovery from the COVID-19 public health emergency. The program ensures that governments have resources to:

- Fight the pandemic and support families and businesses struggling with its public health and economic impacts,
- Maintain vital public services, even amid declines in revenue, and
- Build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity.

The SLFRF program provides substantial flexibility for each jurisdiction to meet local needs within the four separate eligible use categories. Recipients may use SLFRF funds to:

- Replace lost public sector revenue, using the funding to provide government services up to the amount of revenue loss due to the pandemic.
- Support the COVID-19 public health and economic response by addressing COVID-19 and its impact on public health as well as addressing economic harms to households, small businesses, nonprofits, impacted industries, and the public sector.
- Provide premium pay for eligible workers performing essential work, offering additional support to those who have and will bear the greatest health risk because of their service in critical sectors.

for the year ended September 30, 2021

- Invest in water, sewer, and broadband infrastructure, making necessary investments to improve access to clean drinking water, to support vital wastewater and Stormwater infrastructure, and to expand affordable access to broadband internet.

The City of Winter Garden was allocated a total of \$23,064,706 in ARPA funds which are broken out in two payment installments. The first installment of \$11,532,405 was received in September 2021, the second installment of \$11,532,405 is scheduled to be received in September 2022. The City must obligate the funds by 12/31/2024 and spend the funds by 12/31/2026. The City has taken informal steps to prepare for these funds by assessing government operations and community needs to develop a plan for recovery.

### **C. Contingent liabilities**

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City’s counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

### **D. Joint ventures**

Lake Apopka Natural Gas (District) was created by the 1959 Legislature of Florida for the purpose of establishing and operating a gas transmission and distribution system for the use and benefit of its member municipalities and the public. The City is one of three member municipalities and appoints two members of the District’s five member governing board. The District is not a financial burden to the City and net revenues derived from the system which are not otherwise covenanted, are paid over to the member municipalities in a proportion determined by the board. The separate financial statements can be obtained from the District.

### **E. Other postemployment benefits**

The City implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, for its other postemployment healthcare and life insurance benefits provided by the City.

#### ***1. Plan Description, Benefit Terms and Contribution Requirements***

The Other Postemployment Benefit Plan (“OPEB Plan”) is a single-employer defined benefit plan administered by the City. Retirees and their dependents are permitted to remain covered under the City’s respective health, hospitalization, life and prescription drug plans as long as they pay all or a portion of the premium applicable to coverage elected. This conforms to the minimum required of Florida governmental employers per Ch. 112.08, F.S.

Per the requirements of a local ordinance, for employees who retired between October 11, 1990 and June 22, 1994, the City pays 100 percent of the premiums of health coverage for the life of employees who retired with twenty years of full-time service during this time period. The

CITY OF WINTER GARDEN, FLORIDA  
 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

City also provides certain health benefits, as a matter of policy, for certain retirees who retired after May 14, 1998. The City pays \$250 per month of the premiums for health coverage for ten years or until the attainment of age 65, whichever comes first, for those employees who retired under their respective pension plan and who agree to pay the remaining premium. Retirees also receive \$10,000 of life insurance coverage at no cost. In addition to this, the City subsidizes the premium rates paid by retirees by allowing them to participate in the plans at reduced or blended group (implicit subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees.

The City Commission has the authority to amend the benefits of the OPEB Plan. The OPEB Plan does not issue a stand-alone report. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

At measurement date September 30, 2021, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	91
Active employees	306
Total	397

Contributions (benefit payment reductions) to the OPEB Plan are shared by the retiree and the City. OPEB Plan participants must reimburse the City for the City’s average blended cost. Contribution requirements of the City are established and may be amended through action by the City Commission.

**2. Total OPEB Liability and Changes in Total OPEB Liability**

The measurement date for the City’s total/net OPEB liability was September 30, 2021. The measurement period for OPEB cost was October 1, 2020 to September 30, 2021. The components of the City’s net OPEB liability reported at September 30, 2021 are as follows:

Total OPEB liability	\$14,795,937
OPEB Expense	1,575,347
Covered Employee Payroll (Projected)	19,858,529
City’s Total OPEB Liability as a percentage of Covered Employee Payroll	74.51%

The components of the changes in the total OPEB liability are as follows:

**F. Employee retirement systems and pension plans**

**Defined Benefit Plans**

**1. Plan Description, Membership and Plan Benefits, and Contribution Requirements**

*Plan Description*

The City contributes to two single-employer, defined benefit pension plans: Pension Plan for General Employees (GEP) and Pension Plan for Firefighters and Police Officers (FPP). All full-time general employees of the City who have not otherwise opted out participate in the GEP. All full-time firefighters and police officers of the City participate in the FPP. Plan provisions may be established or amended by the City Commission. The plans do not issue stand-alone financial reports, and are reported as pension trust funds in the City's financial statements using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions has been made.

The GEP is administered by a five-member Board of Trustees. Two trustees are City Commission appointees, two are members of the GEP elected by the membership, and a fifth trustee is elected by a majority of the other four Board members. The FPP is administered by a five-member Board of Trustees. Two trustees are legal residents of the City appointed by the City Commission, two trustees are members of the FPP (one from the police department and one from the fire department) elected by the FPP membership, and a fifth trustee is elected by a majority of the other four Board members.

*Membership and Plan Benefits – GEP*

As of October 1, 2020, there were 160 active members in the GEP, 123 inactive members entitled to benefits but not receiving yet, and 85 inactive plan members or beneficiaries receiving benefits. The GEP provides retirement, termination, disability and death benefits.

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

The normal retirement benefit is 2.5% of average final compensation times credited service. Normal retirement is calculated as the earlier of age 62 with five years of credited service, completion of 30 years of credited service regardless of age, or attainment of age 70 regardless of credited service. The early retirement benefit is the member's accrued benefit reduced 5% per year that the benefit commencement date precedes age 62. Early retirement eligibility is age 60 with five years of credited service. Member vesting reaches 100% after five years of credited service. The member will receive the vested portion of their accrued benefit payable at the early or normal retirement date.

Disability benefit is 2% of average final compensation for the first 20 years of credited service, plus 1% of average final compensation for credited service in excess of 20 years. The minimum benefit is the greater of \$100 or 40% of average final compensation. Disability eligibility requires 10 years of credited service.

Death benefit is the monthly accrued benefit payable to their designated beneficiary for 10 years at otherwise early or normal retirement date. Members are eligible for death benefit after 5 years of credited service.

*Membership and Plan Benefits – FPP*

As of October 1, 2020, there were 248 active members in the FPP, 68 inactive members entitled to benefits but not receiving yet, and 46 inactive plan members or beneficiaries receiving benefits. The FPP provides retirement, termination, disability and death benefits. The FPP was established and operates within the parameters of Florida Statutes 175 and 185, which govern police and fire pension plans in the State of Florida.

The normal retirement benefit 3% of average final compensation for each year of credited service. The maximum benefit is 95% of average final compensation. Normal retirement is calculated as the earlier of age 55 with six years of credited service or 25 years of credited service regardless of age. The early retirement benefit is the member's accrued benefit reduced 3% per year that the benefit commencement date precedes age 55. Early retirement eligibility requires six years of credited service by age 50. Member vesting reaches 100% after six years of credited service. The member will receive the vested portion of their accrued benefit payable at the early or normal retirement date.

Disability benefit is accrued to the date of the disability but not less than 42% of average final compensation (25% for non-service incurred). The maximum benefit is 95% of average final compensation. For service incurred disability, the member is covered from the date of employment. For non-service incurred disability, the member is covered after 10 years of credited service.

Death benefits for members with less than 10 years of credited service is a refund of the member contributions. Benefits for members with 10 or more years of credited service, the

beneficiary receives the monthly accrued benefit payable at otherwise early or normal retirement date.

*Contribution Requirements*

The City Commission has the authority to establish or amend the contribution rates for the GEP and the FPP. For the GEP and FPP, the required contribution is the amount required in order to pay current costs and amortize the unfunded past service cost, if any, as provided for in Chapter 112, Florida Statutes. For the GEP, the current required contribution rate is 13.95% of annual covered payroll and the City contributed \$1,342,093 for the year ended September 30, 2021. For the FPP, the current required contribution rate is 11.29% of annual covered payroll and the City contributed \$1,129,088 for the year ended September 30, 2021.

Florida Statutes, Chapters 175 and 185, require FPP members to contribute not less than .5% of their annual salary. The FPP, as approved by the City Commission, requires members to contribute 3.5% of their annual salary. The City is required to contribute to the FPP at an actuarially determined rate, which includes the State's premium tax proceeds. Employer contributions for firefighters and police officers include on-behalf payments from the State of Florida related to state excise taxes collected on homeowner's insurance policies. The on-behalf payment amounts are recorded as revenue in the City's Police and Fire Premium Tax Trust Fund, and as an operating expenditure for the amounts contributed to the pension funds. These revenues, are then allocated to be used to offset the City's annual contribution requirement, a portion is allocated to the Share Plan and a portion is allocated to be used as a credit to the UAAL. The allocation of the State's premium tax proceeds were agreed upon between the City and Membership under Chapter 2015-39, Laws of Florida (per Collective Bargaining Agreements signed July 11, 2019 for both the IAFF and FOP). Under both agreements, forty percent, 40%, of the applicable premium tax revenues in excess of \$46,101 will be allocated to the Share Plan and sixty percent, 60%, will be used as a credit to the Unfunded Actuarial Accrued Liability (UAAL).

**2. Pension Plan Investments**

The GEP and FPP follow investment policies adopted by their respective Boards of Trustees, which have the authority for establishing and amending Plan investment policy decisions for the GEP and FPP. The policies outline suitable authorized investments along with asset allocations. The following table presents the adopted asset allocation policies as of September 30, 2021.

The GEP and FPP's investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price at current exchange rates. Securities without an established market are reported at estimated fair value. Independent investments managers and an independent custodian handle all pension investments and disbursements for each plan. The GEP and FPP did not hold investments in any one organization that represent 5% or more of the fiduciary net position.

For the year ended September 30, 2021, the annual money-weighted rate of return on the GEP's investments, net of pension investment expense, was 19.15%. For the year ended September 30, 2021, the annual money-weighted rate of return on the FPP's investments, net of pension investment expense, was 20.10%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**3. *Deferred Retirement Option Program***

The City Commission approved the establishment of a Deferred Retirement Option Plan (“DROP”) option satisfaction of Normal Retirement eligibility for both the GEP and the FPP. The GEP participation is not to exceed 36 months, but may not participate past the age of 68. The FPP participation is up to 36 months, but not beyond age 58. The rate of return is the actual net rate of investment return credited to each Plan/Fiscal quarter, but not less than zero percent (0.0%). The GEP DROP balance as of September 30, 2021 was \$120,925.31. The FPP DROP balance as of September 30, 2021 was \$84,755.89.

**4. *Net Pension Liability, Significant Assumptions, and Discount Rate***

The components of the net pension liability of the City as of September 30, 2021 were as follows:

CITY OF WINTER GARDEN, FLORIDA  
NOTES TO THE FINANCIAL STATEMENTS  
for the year ended September 30, 2021

	GEP	FPP
Total Pension Liability	\$ 39,513,596	\$ 52,877,099

Plan Fiduciary Net Position as a % of Total Pension Liability	96.13%	112.60%

The total pension liability and asset were determined by actuarial valuations as of October 1, 2020 updated to September 30, 2021 using the following actuarial assumptions applied to all measurement periods for both the GEP and FPP.

Inflation	2.50%
Salary Increases	Service based
Discount Rate	7.00%
Investment Rate of Return	7.00%

For the GEP, mortality rates were based on the PubG.H-2010. For the FPP, mortality rates were based on the PubS.H-2010. Disabled lives are set for 80% PubG.H-2010 for disabled retirees / 20% PubS.H-2010 for disabled retirees.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the GEP and FPP's target asset allocations as of September 30, 2021 are summarized in the following table:

<u>Asset Class</u>	<u>Long Term Expected Real Rate of Return</u>	
	GEP	FPP
Domestic Equity	7.5%	7.5%
International Equity	8.5%	8.5%
Broad Market Fixed Income	2.5%	2.5%

Real Estate	4.5%	4.5%
GTAA	N/A	3.5%

CITY OF WINTER GARDEN, FLORIDA  
 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

The discount rate used to measure the total pension liability for the GEP was 7.00% and the FPP was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the GEP and FPP's fiduciary net positions were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the net pension liability.

The following table presents the sensitivity of the net pension liability (asset) to changes in the discount rate for each plan.

	1% Decrease to 6.00%	Current Discount Rate of 7.00%	1% Increase to 8.00%

***7. Defined Contribution Plan Description and Funding Requirements.***

The Florida Municipal Pension Trust Fund is a defined contribution pension plan established and administered by the Florida League of Cities, Inc. to provide retirement benefits for full-time general employees in certain designated positions who have elected to opt out of the Pension Plan for General Employees. At September 30, 2021, there was one plan member from the City. The City contributes 7.5 percent of the annual covered payroll of plan participants. Plan provisions and contribution requirements are established by ordinance and

 NOTES TO THE FINANCIAL STATEMENTS  
 for the year ended September 30, 2021

may be amended by the City Commission. For the year ended September 30, 2021, the City recognized pension expense \$7,051. Employer contributions and earnings on those contributions are vested to the following schedule: Nonvested City contributions are forfeited upon termination of employment. Such forfeitures are used to cover a portion of the Deferred Contribution Plan's administrative expenses. For the year ended September 30, 2021, forfeitures reduced the City's pension expense by \$0.

<sup>1</sup>A General Employee under the FMPTF earns 20% vesting starting with one year of credited service and another 20% for each successive year of credited service through the fifth year of credited service at which time the employee will be 100% vested.

**G. Net Investment in Capital Assets Calculation**

The elements for the calculation of this component of net position are as follows:

	Governmental Activities	Business-type Activities	Total
Capital Assets (Net)	\$127,500,120	\$109,922,587	\$237,422,707
Debt Related to Capital Assets	(31,796,000)	(2,695,464)	(34,491,464)

	<u>\$113,638,539</u>	<u>\$107,227,123</u>	<u>\$220,865,662</u>

**H. Expenditures in Excess of Appropriations**

The City overspent the final budgeted expenditures in the Downtown Parking District Special Revenue Fund and the Law Enforcement Grants Fund. These expenditures were offset by available fund balance.

**I. Tax Abatements**

GASB Statement No. 77, *Tax Abatement Disclosures* is effective for the financial statements of the City. This statement requires disclosure of tax abatement information about the City's tax abatement agreements and those entered by other governments that would reduce the City's

Valuation Date: 10/1/2020

Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Funding Method	Entry Age Normal Actuarial Cost Method			
Amortization Method	New UAAL amortization bases are amortized over the following amortization periods: Experience: 10 Years. Assumption/Method Changes: 20 Years Benefit Changes: 30 Years.			
Asset Valuation Method	The actuarial value of assets utilizes a five-year smoothing methodology. The annual difference between expected and actual investment earnings (fair value net of related expenses) is phased-in over a five-year period.

Sources: Assessed value data used to estimate applicable percentages provided by the County Property Appraiser. Debt outstanding data provided by the County.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Winter Garden. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

<sup>1</sup>The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the City's boundaries and dividing it by the County's total taxable assessed value.

# **COMPLIANCE AND INTERNAL CONTROL**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Members of the  
City Commission and City Manager  
Winter Garden, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Winter Garden, Florida (the "City"), as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise City's basic financial statements, and have issued our report thereon dated March 28, 2022.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Honorable Mayor and Members of the  
City Commission and City Manager  
Winter Garden, Florida

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA  
OFFICE OF THE AUDITOR GENERAL**

Honorable Mayor and Members of the  
City Commission and City Manager  
Winter Garden, Florida

**Report on Financial Statements**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Winter Garden, Florida (the "City") as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated March 28, 2022.

**Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and Chapter 10.550, *Rules of the Florida Auditor General*.

**Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Accountant's Examination Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Florida Auditor General*. Disclosures in those reports, which are dated March 28, 2022, should be considered in conjunction with this management letter.

**Prior Audit Findings**

Section 10.554(1)(i)1, *Rules of the Florida Auditor General*, require that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. There were no findings or recommendations made in the preceding audit report.

**Official Title and Legal Authority**

Section 10.554(1)(i)4, *Rules of the Florida Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority of the City and its blended component unit are disclosed in the notes to the financial statements.

**Financial Condition and Management**

Section 10.554(1)(i)5.a, and 10.556(7) *Rules of the Florida Auditor General*, require that we apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Honorable Mayor and Members of the  
City Commission and City Manager  
Winter Garden, Florida

**Financial Condition and Management - continued**

Pursuant to sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Florida Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Florida Auditor General*, require that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

**Special District Component Units**

Special District Component Units Section 10.554(1)(i)5.c., *Rules of the Florida Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

**Specific Special District Information – City of Winter Garden Community Redevelopment Agency**

The required reporting items in accordance with section 218.39(3)(c), Florida Statutes for the Community Redevelopment Agency, City of Winter Garden, Florida (the "CRA") have been reported in the separately issued financial statements of the CRA.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, *Rules of the Florida Auditor General*, the CRA reported the following information that is required but not subject to audit procedures:

- a. The total number of CRA employees compensated in the last pay period of the CRA's fiscal year as 0.
- b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of the CRA's fiscal year as 0.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency as \$0.
- d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as \$0.
- e. Each construction project with a total cost of at least \$65,000 approved by the CRA that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project as \$0.
- f. The board adopted the original budget in accordance under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year. The CRA subsequently amended the budget during the fiscal year to increase the original budget in the amount of \$651,572.

**Additional Matters**

Section 10.554(1)(i)3, *Rules of the Florida Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Mayor and City Commission and applicable management and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE  
WITH SECTION 218.415, FLORIDA STATUTES**

Honorable Mayor and Members of the  
City Commission and City Manager  
Winter Garden, Florida

We have examined the City of Winter Garden, Florida's (the "City") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the fiscal year ended September 30, 2021, as required by Section 10.556(10)(a), *Rules of the Auditor General*. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied with the requirements referenced above. An examination involves performing procedures to obtain evidence about the City's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of noncompliance, whether due to fraud or error. We believe that the evidence is sufficient to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2021.

This report is intended solely for the information and use of the Florida Auditor General, the Mayor and City Commission, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
