Personal History: When I immigrated to the United States when I eight, I always dreamed of becoming civically involved in the greatest democracy in the world. Moving to Orlando as a kid, I grew to love this city. After graduating college in New England, I missed the Florida sunshine and my hometown. I moved back to the heart of the city and realized that my hometown city had a chance of becoming a leader in our country. I understand that I am young, but so are most of the residents of downtown. As a resident of downtown, I believe I could bring a new perspective that emphasizes the concerns of my generation, including combatting homeless and poverty, nurturing an environment of entrepreneurialism, and providing social alternatives for millennials and generation-Z. It would be an honor to join the board and I am excited to hear back from you.

Explain Prior Relationship: When I immigrated to the United States when I was eight, I always dreamed of becoming civically involved in the greatest country in the world. Moving to Orlando as a kid, I grew to love this city. After graduating college in New England, I missed the Florida sunshine and my hometown. I moved back to the heart of the city and realized that my hometown city had a chance of becoming a leader in our country. I understand that I am young, but so are most of the residents of Orange County, where the median age is 35.9 years. As a resident of Orange County, I believe I could bring a new perspective that emphasizes the concerns of my generation, including combating homelessness and poverty, nurturing an environment of entrepreneurialism, and providing social alternatives for millennials and generation-Z. As the Chief Strategy Officer of Young Innovators Academy, my job focuses on helping us grow and build more schools. We have several locations across Central Florida and are hoping to expand. Our preschools provide a ground-breaking STEM-based curriculum and an empowering environment for our teachers. We are a school that allows our directors to become equity-partners in our schools, allowing early childhood educators an opportunity for ownership. Before joining YIA, I worked in tech as an enterprise sales executive for start-ups like DemandJump and Insightly, helping these companies close strategically significant deals with PandaDoc, Sumo Logic, and Vonage. Due to my involvement with the Tech community, I was a founding member of the Shrimp Society, a Miami-based startup incubator and community that I hope to expand to downtown Orlando

with the support of the board. My main issues of interest are education and homelessness. I am the Philanthropy Director for Young Innovators Foundation for Early Learning. I am also involved in the Coalition for the Homeless of Central Florida. I also am a Dickey Center for International Understanding Fellow.
