Subject: Ratification of Emergency Purchase Order M111484, Emergency Long Lake Pump Station Force Main Rehabilitation

ACTION REQUESTED:

Ratification of Emergency Purchase Order M111484, Emergency Long Lake Pump Station Force Main Rehabilitation, with Murphy Pipeline Contractors LLC, in the amount of \$1,095,143.85.

PROCUREMENT:

The purchase order provides for the emergency repair the 48-inch diameter pipeline of the Long Lake pump station which is currently leaking affecting Beggs Road, to protect property and public safety.

FUNDING:

Funding is available in account number 1023-072-2753-6330.

APPROVALS:

The Stormwater Division concurs with this recommendation.

REMARKS:

The Stormwater Division has identified that the Long Lake pump station is leaking into Beggs Road when the pumps are running. This procurement was handled as an emergency, due to the critical need to repair the leak timely, to mitigate against the pump station not being operational to relieve high lake elevations during a hurricane event, which will cause flooding to the properties and roadways near Long Lake.

Murphy Pipeline Contractors LLC, has experience working with these conditions and performing the necessary work in a timely manner to prevent further damages. Price reasonableness has been determined based on comparison to the Murphy Pipeline Contractors LLC, contract with the City of Pompano Beach RFP E-15-22 and the engineer's estimate.
