**Cc:** [verena@ayahuascachurches.org](mailto:verena@ayahuascachurches.org)  
**Subject:** Preventing the development 1333 Hancock Lone Palm Rd.

To the community leaders in Orange County:

This email is concerning case number: PSP-20-06-154; the proposed development of 1333 Hancock Lone Palm Rd. and the incurable negative effect it would have on the healing ceremonies that occur at 1371 Hancock Lone Palm Rd, the location of Soul Quest Ayahuasca Church of Mother Earth.

Having spent time at Soul Quest Ayahuasca Church of Mother Earth, I am writing this letter to bring attention to the jewel that needs preserving in your community.

Ceremonies are performed there—immediately adjacent to where the proposed development would be—where people heal from depression, US soldiers fully heal from PTSD, drug addicts make full recoveries, and more. It is no overstatement to tell you that Soul Quest saves lives. It is utterly unique and unlike any other church, healing center, or treatment facility in the world.

Please do not allow for the development of 1333 Hancock Lone Palm Rd. as it would devastate the church's ability to perform sacred healing rituals that must be performed outdoors. Allowing the development would create an incurable hindrance for Soul Quest—which is sought out yearly by thousands of people for the unique healing work they perform on their sacred grounds. It is worth protecting!

Moreover, the proposed development would have a significant, negative environmental impact for the turtles that are native to the land.

I implore you to preserve the church's work by preventing the development 1333 Hancock Lone Palm Rd.

Please feel free to contact me at any time for additional information. I can be reached on my cell at 617.412.0307 or via email at [AndrewWChilders@gmail.com](mailto:AndrewWChilders@gmail.com).

With sincere appreciation and concern,

Andrew Childers

**From:** Ashley Buckus <Abuckus1384@outlook.com>  
**Sent:** Thursday, March 4, 2021 10:36 AM  
**To:** Public Comment  
**Subject:** Case # PSP-20-06-154

To whom it may concern,

My name is Ashley Buckus. I am reaching out in hopes that this email will help preserve a beautiful piece of land in Orlando Florida. I ask that you keep an open mind when reading this email and please find it in your heart to take what I say seriously.

I regularly attend and volunteer at Soul Quest Ayahuasca Church of Mother Earth (1371 Hancock Lone Palm Rd.) I understand that a developer wants to purchase the land next door (1333 Hancock Lone Palm Rd) and I think this will be a huge loss for many people. I was first introduced to Soul Quest in May of 2020 when I was in a very dark place, and it has changed my life in more ways than I could possibly explain. I was able to let go of 35 years of built up pain, trauma and grief during my first weekend there. I absolutely fell in love with Soul Quest and the people involved. So much so that I have been consistently traveling from my home in Charlotte NC to Florida monthly, to volunteer. Every weekend when I am there, I see so many lives being transformed in such a major way. The love and support that comes from Soul Quest is immeasurable and I can't imagine the thought of that being interrupted due to the purchase of the land next door. There is a beautiful daytime ceremony area with gorgeous trees that will have to be cut down if this happens. It will also completely disrupt the peaceful energy that takes place, forcing us to shut down the daytime ceremony in that space. That particular area for me, and so many others is one of the best parts of the weekend. The energy and beauty that surrounds us in that space must be preserved. I feel that mother nature should win this battle, as it has lost so many to

I am asking that you please reconsider allowing the purchase of the land next door. I know that some may see Soul Quest as a strange concept, or that it is not worth making adjustments for. But I can say with 100% confidence that what takes place there is well worth preserving. It has become a second home for so many people and I can't imagine this piece of the property being compromised.

Thank you for your time and have a great day!

Best Wishes,  
Ashley Buckus

Re: Case # PSP-20-60-154

I'm writing to you today in strong support of Soul Quest Ayahuasca Church of Mother Earth, located at 1371 Hancock Lone Palm Rd in Orlando, FL. Soul Quest's property is an oasis of natural beauty in the midst of a large metropolis. At this location, thousands of people have experienced true healing, specifically in the daytime ceremony location known as the Oak Grove.

The Oak Grove is an enchanting, beautiful space, created by the trees that define the property lines between Soul Quest and the land in question. Developing on that land would mean destroying the trees that hold this sacred space.

The option of the outdoor daytime ceremony at Soul Quest has given so many people the chance to connect with nature and heal themselves from within. In my experience, the daytime ceremony was absolutely priceless. I experienced immense healing and gratitude during my ceremony under these trees. It's devastating to hear that other people might not be able to experience the outdoor ceremony as it is currently.

If a development does take place, I hope that the developer can come to some compromise and understanding to preserve these trees, given the immense importance this area of the Soul Quest land has for both current and future church members.

Perhaps the city can grant an easement for Soul Quest's continued use of these trees, should the development be approved.

The destruction of these trees would deeply hurt the Soul Quest Community and I strongly urge you to oppose this development.

Thank you for taking the time to read this letter.

**Sent:** Tuesday, March 2, 2021 3:04 PM  
**To:** Planning Internet Mail; Public Comment  
**Subject:** PLEASE stop building on land next to Soul Quest- do not destroy the trees!

Hello,

Soul Quest is a church and is dedicated to healing and transforming the world one soul and life at a time. As a member of this church, I can personally attest to this! The trees and the land you are planning to build on have completely changed my life.

Please take this as a plea. The land and trees you will be building next to and destroying is sacred! These trees have been a huge part in the miraculous healing of so many individuals from around the world, but especially right here in the US. These people have gone on to spread love and peace, both things we all know we need more of in this world. Continuing to build and destroy the trees will prevent this from continuing to occur. This will be tragic. Please consider this before making your decision.

**Subject:** Case # PSP-20-06-154

To whom it may concern:

Dear Sir or Madam,

Please consider not allowing cutting down the trees next to Soul Quest Church located at 1371 Hancock Lone Palm Rd, Orlando, Florida

The area where the trees are located is a sacred place for all of us churchgoers, and we would love to have them there to enjoy for years to come.

Cutting down the trees also has an environmental impact on the turtles in the area and all other animals and birds.

The property address of my church is 1371 Hancock Lone Palm RD

This is Regarding the property next door  
1333 Hancock Lone Palm Rd

Case # PSP-20-06-154

Thank you,

Sincerely,  
Miroslava Angelova

**From:** Michael Malloy <yaboymalloymail@gmail.com>  
**Sent:** Tuesday, March 2, 2021 5:11 PM  
**To:** Public Comment  
**Subject:** Case # PSP-20-06-154 Transformation Testimony PLEASE SEE PICTURE ATTACHED  
**Attachments:** IMG\_20210302\_133036.jpg

District 4  
Soul Quest Church of Mother Earth  
1333 Hancock Lone Palm Rd, Orlando 32828

To whom it may concern,

My name is Michael Malloy. Doctors told me 10 years ago, as I spent 4 months overcoming a spinal injury in the hospital, that I would need pain medications the rest of my life.

2.5 years ago, I became homeless and helpless on the streets of Atlanta, GA and was arrested for shoplifting and drug possession 448 days ago.

Today, I spent time with my brother, sister, and 2 nieces, and I am able to be at peace and be present...drug free.

My transformation has been in large part, attributed to Soul Quest, it's community, it's property, and Mother Nature who inhibits it.

My MAGICAL life transformation, along with many others, have taken place on this property, and as I have begun to share my story with the masses, I plan to guide many others to have the same life-saving experience I have had, and to take anything away from us as we continue to grow and help change the world for the better, would not only be cruel, but I believe it would be unwise on your part.

With the vast powers of mother nature that I have witnessed in action, along with the positive shifts that Soul Quest plays a large part creating on this earth...the karmic debt you would be creating by taking away from this community as it grows would not be anywhere near any profit you may be facing in your ventures.

I thank you for taking the time to read my letter. I wish you the best in the future, and I hope you take a moment to rethink your development plans.

God Bless,

Michael Shane Malloy

In Regards: Orange County Public Hearing  
Case # PSP-20-06-154  
1333 Hancock Lone Palm Rd  
1371 Hancock Lone Palm Rd

To whom it may concern,

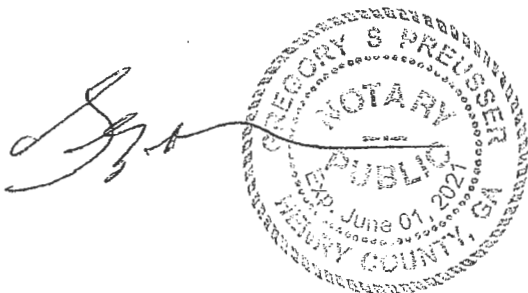

I have been a member of Soul Quest Ayahuasca Church located at 1371 Hancock Lone Palm Rd for six months. My life has drastically changed for the better since attending the church. I have overcome anxiety, low self-esteem, and fear just to name a few of the spiritual and emotional conditions that have plagued me throughout my life, and I have heard the same or similar testimony from many other church members.

The most transformative part of my visits to the church have taken place during our daytime ceremonies which are held outside in a space right on the edge of the 1333 Hancock Lone Palm Rd property. The allowance of the construction of homes at this address would undoubtedly cause major disruption, thus making it impossible to continue holding our outdoor ceremonies.

I pray that you would consider my concerns so that we can continue to hold sacred outdoor ceremonies and church services for the continued healing and wellness of the existing church members and members to come.

Thank you for your time and consideration.

Angela Perkins-Davis

<b>Comment:</b> It is time to remove the county wide mask mandate. People should have the right to choose whether they wear a mask or not. I know people who have medical conditions such as severe anxiety and cannot wear a mask. Every single time they go out in public they are harassed and made to feel anxious because of this mandate. The Mayor said the mandate would be lifted when the vaccine arrived and the vaccine is here. National data now shows that cases were higher in areas with mask mandates versus those without. It's time to let people breathe freely. Personal responsibility is the answer, not government mandates. Those who exchange liberty for perceived security, will eventually lose both. End the mask mandate now.

CDC states, "We're still learning how vaccines will affect the spread of COVID-19. After you've been fully vaccinated against COVID-19, you should keep taking precautions in public places like wearing a mask, staying 6 feet apart from others, and avoiding crowds and poorly ventilated spaces until we know more."

<b>Comment:</b> I would like to request that the mask mandate be removed. Let the individual citizen and businesses govern themselves and determine what is best for them. If they feel they should wear a mask let them. If you are comfortable without one so be it. I should be able to determine what is best for myself as should all citizens. Let's allow our law enforcement officers to focus on real issues that need policing.

<b>Comment:</b>  As a resident of Orange County I recognize that our county affects all others in Florida due to its size and pull on the economy. We the people of Florida demand that you end the mask mandates. Stop intimidating businesses with threats and fines. Let everyone choose for themselves what medical equipment they will use to best protect themselves. Take a stand for those who cannot mask and end this. It is like being a second class citizen being refused entry into grocery stores or other places of business. Churches won't even allow for medical exemption right now because of your indefinite mandate. It must end. I pray that you are able to have the wisdom and courage to end this. Thank you for your time.

<b>Comment:</b>  Hello! Please remove the mask mandate that logically does not make sense. Entering a food establishment wearing a mask, then removing it to eat, is the same air. Students in school mix and mingle and eat meals for 25 minutes unmasked. Please allow parents who want their children to be unmasked, to allow this. Let's open Florida and show the country we as a state actually respect freedom. Those who feel unsafe should stay home. Those willing to live a free life, with this removed, will be able to go out maskless.

<b>Comment:</b>  Please lift the mask mandate. The masks aren't effective and doesn't make any sense. When going to a restaurant walking in wearing it and then magically taking it off while eating logically makes no sense. Please let us have our freedoms back especially the freedoms of our children to attend school normally and see smiles and breath air that is good for their brains. If people feel unsafe they can stay home but let us continue to show the world that life is going on and people are thriving and surviving. Thank you for your time and consideration.

<b>Comment:</b> <p>Good afternoon, Mayor Demings. I am a resident of Seminole County who works, frequently does business and enjoys the theme parks of Orange County. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation and fines. Me and my family have been the subject of discrimination and have been humiliated on numerous occasions due to mask mandates. These mandates are unjust, unconstitutional and have caused many hardships, financial, social, and emotional for myself, my family, friends and many members of the community. The healthy people of the community deserve to breathe freely and not suffer discrimination based on religious and medical exemptions. People shouldn't have to endure harassment just for a trip to the store or restaurant. We shouldn't have to experience anxiety just going about our day-to-day business when previously this was not an issue. These unjust and unconstitutional mandates have caused unnecessary conflict between members of the community and it needs to stop now. Please, consider the fact that 100% of viruses go right through the mask. Consider the fact that these masks are nothing but warm petri dishes that are spreading bacteria and viruses - not preventing them. Healthy people do not need to wear masks and are not a threat to everyday citizens. We urge you to look to the real research on the matter and not the media rhetoric. Consider the numerous doctors and medical professionals who have publicly stated that masks are detrimental to healthy citizens and do not prevent the spread of viruses. Consider also, that the many people who frequently wear masks are also the ones getting sick due to decreased immune function from the lack of oxygen. For the mental, physical, and financial health of the community, please remove these unjust and discriminatory mask mandates immediately. Thank you for your time and consideration in this most urgent matter.</p> <p>Christina Sanchez</p>

<b>Comment:</b> <p>My daughter7 year old daughter has been homeschooling since Covid started she has been healthy so far since the start of this pandemic. I have been working from home however my job is requiring me to come in some days during the week into the office which has made it hard for me to continue to have my daughter from school because now I need to go back to work. I emailed principal Dr. Andrew Rollins at Stone Lake elementary school where my daughter goes to school and I asked them if my daughter will be required to wear a mask if I sent her back in person, the principal told me that yes my daughter would have to sit at her desk in the classroom and where a mask . He also stated that unfortunately this is the new normal. This really upset me because this should not be the new normal for our children my daughter should not have to be forced to wear a mask over her face while she is sitting at her desk desk away from other children. I cannot imagine for young children how uncomfortable it must be to try to sit and learn All day in the classroom while being deprived of oxygen. My employer requires masks in the office but they let us take it off once we are at our desk. So I cannot in good conscious be OK with my daughter my seven-year-old daughter at that having to have her face covered at school all day, and me as an adult at being able to take off my mask and breathe while I'm at work . This is ridiculous and it has gotten out of hand we need to be able to trust at some point that things are going to be OK ,and take the mask off! If the schools are moving the desk at a safe distance or at least trying to, then I think the kids should have the mask off while they are sitting at their desk. As a single mother this has put me in a very hard situation. What do I do if I don't go back to work I could potentially lose my job. If I do go back to work then that means my daughter has to go back to face-to-face learning which means she will be forced to wear a mask . My daughter has a right to an education in the school system does not have a right to say what's best for my daughters body and health .Only we as parents have the right to see what's best for our children's health and what she go on your body .</p>

<b>Comment:</b>  As a previous resident of Orange County for many years, since moving to Brevard, I used to drive over there to shop and visit friends, but this is no longer the case due to Mayor Demmings mask mandate. Now friends from Orange County drive to Brevard and other neighboring counties to do their business because of this unconstitutional mask mandate for a virus that affects most people so minimally they have to be tested to even know they have it. Please do not renew it any longer and help your economy to recover. There are many people hurting financially and emotionally in your city from this and you ought to be concerned about their business and well being.

<b>Comment:</b> I am respectfully asking Mayor Demings to end the mask mandate for Orange County. It is the role of the government to protect the people's rights, and forcing citizens to wear masks is going against our right for medical choice and freedom. Please end the mask mandate as soon as possible, and allow people the right to choose. Thank you.

<b>Comment:</b> <p>I am a small business owner in Orange County. The mask mandate has caused me health issues and wearing a mask to work has harmed my health greatly. I do not know how much longer I can be forced to wear a mask to provide for my family, I get dizzy, light headed, heart racing and massive constant migraines. Remove the mask mandate and allow for mask choice. It is harming our health, our businesses and our children. 95 % of the clients I work with want mask choice. You said once when the vaccine rolls out, you will remove the mandate. We need choice, we need to be able to self govern. This mandate will need to be lifted eventually and we request it is now. I've researched and read all the science and literature on masks, they are not improving our immune function or our physiological and emotional well being. Stop politicizing this virus. Enough is enough</p>

<b>Comment:</b> <p>Hello. I am a resident of Putnam county. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. I visit the county often and my children and grandchildren do also. We have not had any visit since you instituted the mask mandate since we do not wear masks as a free people in a free country. Mayor Demings, we the free people of Florida expect that you will rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Cities, counties and states around the nation are waking up to the damage this is doing to our country.</p>

Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately. It has taken away freedoms, identity, and wellbeing of so many. I personally have suffered for countless headaches due to wearing of the masks because I felt as if threatened that if did not wear it I would be arrested. It has been proven time and time again they do not work to prevent people from getting this China virus. We are wanting to be free from this tyranny. We have been under it long enough with our numbers just now descending. "Physicians" stated that just 2-6 weeks of mask wearing would greatly help. It's been A LOT longer than that. Lift the mandate free your people!!</p>

<b>Comment:</b> <p>With a 7th grader attending OCPS, I come before you pleading to remove your mask orders that go against Governor DeSantis make mandate. Florida continues to lead by example with studies showing the ineffectiveness of masks, the continued decline of covid cases, and I believe we deserve the right to choose if we want to wear a mask or not. Independent studies are also showing that people who ended up with Covid, were adamant mask users, leaving us to conclude they are not properly wearing them or bringing more germs to their face with their hands by the need to adjust the mask. We are leaving this responsibility to kids, who just before last year, were walking germs, now we are making them wear masks that causes them to frequently touch face? Please think of our children, end the mask orders, be the hero this city deserves, leave the party politics and do the right thing for our kids and humanity.</p>

<b>Comment:</b>  I am a resident of Orange County, FL. As a concerned citizen, I am asking that Orange County rescind the mask mandate. This mandate has been in effect for an extended period of time and the time has come for it to end. The livelihood of my own family and many others depends on it. We the people of Orange County demand that you rescind the mask mandate immediately and stop intimidating local businesses. Thank you for your prompt attention to this matter.

<b>Comment:</b>  I would like to raise my awareness in favor of ending mask mandates in Orange County. Some cities in Florida that have not mandated masks have had a lower cases than cities that have mandated masks. Based on the scenario that we currently have mandating masks seems not to be a rational outcome, not to mention the people with health conditions that have been refused business because they cannot - by medical reasons, wear a mask.

<b>Comment:</b> <p>I would like to write on behalf of lifting the mask mandates. The science behind the value of mask wearing is negligible at best, and it is time for Central FL residents to be able to decide for themselves what is the best course of action to protect their families and themselves. The harm done to all, especially children, not to be able to read facial expressions, far outweighs the questionable benefits of mask wearing. Our state has lifted the mask mandate, it is time for our county to follow suit and let individuals decide for themselves what is the best course of action. Thank you.</p>

<b>Comment:</b> <p>I am a lifetime resident of Orange County, FL and have become increasingly concerned about the state of our county, our home. The mask mandates in Orange County have done more damage than good and it's past time to do away with them. Mayor Demings, as a tax payer and voter I demand that you rescind your unlawful mask mandates immediately. Stop intimidating and coercing local businesses to enforce your mandate. We The People of Orange County demand action immediately. It is harming our children, our livelihoods, our hometown. Allow individuals along with their medical practitioners to decide what is in their best interest. You are not a doctor, Mr Demings. I demand that you stop making decisions in regards to my health.</p>

<b>Comment:</b> <p>I shop frequently in Orange County. My most recent experience was on Friday at the Apple Store at the Florida Mall. While speaking with the gentleman at the Genius Bar regarding an issue with my laptop, a security guard approach me and demanded I pull my mask higher on my face to completely cover my nose( I had it covering my mouth and just the bottom tip of my nose). I shook my head and explained to him that I couldn't. Covering both nose and mouth triggers migraines. I was doing my best to be respectful to their mask signs. But also couldn't afford to lose the rest of my day to a migraine. He would not allow me to stay and I was told to leave the store. These blanket mask mandates need to stop. The bullying of free citizens has to stop. Time to allow the citiizens and business owners to choose for themselves. I'll cover 3 main reasons. First, let's look to statistics. if we do a comparison between Orange County and other counties with no mask mandates yet similar populations, you'll find little to no evidence of higher covid cases in the non-mask mandates counties. In fact, you will find that per capita, the rates are lower in non mask counties. Other studies that try to show a decrease in cases due to masks do not take into account the increased sanitation, hand washing, and social distancing that impacts the case numbers and sullies the purity of any claim that masks are what decrease numbers. Second, are we really so naive that we expect a simple cloth face covering to stop a virus that's fractionally smaller than the gaps in a HEPA filter?! There's a reason why 70% of covid cases reported that they worse masks "all the time". They don't work. They make us sicker. If at best the keep spittle from coughs off of surfaces. But COVID is an aerosolized virus that does not pass from body fluid alone. These masks mandates need to stop. Third, by forcing citizens to wear masks you are denying them due process. These blanket mandates immediately convict every citizen and visitor of this county of being guilty of contracting and spreading the covid virus. With so much conflicting science within the public and private medical society. Isn't it time to leave the decision to the people?</p>

<b>Comment:</b> <p>I work in Orange County and ask that mask mandates be removed. Fellow business owners are going out of business because of unreasonable requirements that were never proven to work. I have many friends and family who can no longer participate in activities in Orange County (such as shopping, recreation, business) because of mask mandates. I also know people who can't even do basic things like get groceries because of this mandate. Imagine how depressed they feel. There are different studies that show mask wearing does not work. Let's follow the science that actually works and get back to being more physically, emotionally, and financially healthy. This "flatten the curve" has been the longest "two weeks" ever! Thank you.</p>

<b>Comment:</b>  Mayor, I am asking for the restoration of my ability to govern myself...to make informed medical decisions.....just plain freedom. Lifting the mandate doesn't restrict anyone from choosing to mask but leaves the decision in the able hands of the self-governed citizens of Orange County. It also frees law enforcement from being distracted by "mask enforcement" issues to focus on much more vital policing. Stop the power play. You are doing more harm than good.

<b>Comment:</b>  The mask mandates need to end. Where there is risk there must be choice. Mask mandates are killing small businesses and destroying the education of our children with the questionable at home launch Ed. Schools all over Florida have successfully continued on with no masks, no issues. Why, after the vaccine rollout, are you still forcing masks? When you said you would not.

<b>Comment:</b>  Hello. I am a resident of Lee county. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demmings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Thank you for immediate action.

<b>Comment:</b> <p>Hello, My name is Brandi and I'm a resident of Seminole county. I live near the border of our two counties and do most of my shopping and spend most of my free time in Orange county. Mr Mayor I implore you to end this mask mandate, effective immediately. The latest CDC numbers show our covid numbers have improved just as other states and counties without such strict mandates, which only really proves that heard immunity has started to work against this virus and it is time to free the people that you've been holding hostage. We should be free to make our own choices as to when and where it's appropriate for each of us to wear a mask and socially distance. At no point should the government of a free people step in and create /enforce rules that punish healthy, law abiding citizens based solely on an assumption that someone may not be well at an arbitrary point in the future. The state of Florida says there are no mask laws and your mandates only contribute to demonizing a large portion of the public that (either by choice or inability) do not wear mask. I ask, with all due respect that you end these mandates now!</p>

<b>Comment:</b> I'm asking for the restoration of my ability to govern myself....to make informed medical decisions.....just plain freedom. Lifting the mandate doesn't restrict anyone from choosing to mask but leaves the decision in the able hands of the self-governed citizens of Orange County. It also frees law enforcement from being distracted by "mask enforcement" issues to focus on much more vital policing.

<b>Comment:</b> <p>Hello Mayor Demmings I am a resident of DeBary in Volusia county I realize that Orange County effects ALL Floridians do to its size, location, tourism, employment and tax revenue. With the number of COVID19 cases dropping, and the availability of a vaccine, there is no justifiable reason to keep enforcing the mask mandate and fining businesses for non compliance, Especially since you do not follow your own rules. Masks do not stop the spread. The people of Orange County demand that you lift the unconstitutional mandate and allow businesses to operate at full capacity and as the owner wishes.</p>

<b>Comment:</b> <p>I am a resident of Orange County and have been for over 32 years. This county has been my home my whole life and this last year it has been turned upside down due to unlawful mask mandates. This county affects the whole state of FL due to its size, tourism, tax revenue, and size. We have been living for 9+ months with a mask mandate that affects all people and businesses. We are a free people and should not have anything forced on us when there is not only no substantial proof that it helps and works to protect us and infringes on our rights to make health decisions for ourselves. There are many people who cannot mask that have to in order to work and shop for basic needs. Our children are being masked in order to be able to attend school and suffering adversely from rashes, infections, restricted breathing, and anxiety to name a few. They are not able to breathe freely to do anything anymore and are suffering because of it. Our elderly are being bamboozled into thinking they cannot be around their loved ones and are depressed and dying alone. It is long overdue to end this tyrannical mask mandate and let us free people decide what is best for ourselves and our families.</p>

<b>Comment:</b>  I am a church attender in Orange County and also work with clients there. I would like for Mayor Demmings to lift the mask wearing mandate. Individuals should have the right to make the choice regarding wearing masks based on personal responsibility and informed medical information. Most citizens are respectful of others and responsible in decision making. Thank you for your consideration in this matter.

<b>Comment:</b>  In regard to the "indefinite mask mandate" I am respectfully requesting the order be reworded to allow for individual responsibility rather than government directives in the weaving of masks. Citizens need the opportunity to make a mask decision for themselves based on their on conscience and physical needs. Traveling to adjoining county to shop (where masks are not mandated) only hurts Orange County but is necessary for those with strong convictions about government over-reach. Thank you.

<b>Comment:</b> Mayor Demings and Commissioners, I urge you to lift the face covering mandate in Orange County. I believe our citizens are very capable of making informed medical decisions and have the ability to be self-governed. We deserve the freedom of choice to decide whether or not wearing a mask is best for our own health. Please restore our liberty by ending the mandate. Thank you.

<b>Comment:</b> <p>As the Board has refused to meet with constituents for a year and Mayor Demings refuses to allow tax-paying Orange County Citizens in the building mask-free which violates the terms of his own executive order, I'm forced to comment here. Mayor, your unconstitutional, discriminatory facial covering order has been in effect for over nine months with no end in sight. You continue to intimidate small businesses with strike teams paid for by CARES ACT funds you could have directed toward Orange County's struggling economy. Instead, you choose to keep the mask mandate in effect while you gallivant around town maskless. I have photographs of you at dinners and reading to school children without a mask -- yet businesses are being intimidated and fined for honoring the exemptions of your own executive order. Why don't you feel the rules apply to you? How do you justify allowing Orange County's economy to crumble on your watch as you enjoy mask-free social events and drawing a salary courtesy of the citizens and businesses you are harming by refusing to rescind your facial covering order. In June, you stated that the order will remain in effect until a vaccine was developed and that you were just buying time until it was available. Was that another lie or will you honor your word? If masks were truly effective, there would be no need for a vaccine. If the vaccine is effective, there is no longer a need for a facial covering mandate. Which is it, Mayor? Do you have faith in the vaccine? You're spending Federal funds and tax-payer dollars rushing to vaccinate the elderly, vulnerable, and minority populations with a fast-tracked, liability-free product that the Federal Government has paid families over \$4 billion dollars in compensation for injuries and deaths, yet you don't even know if it's effective enough to rescind your facial covering order? That doesn't sound like a man who has any faith in the vaccine to me. So, Mayor. Does the vaccine work? Can the people of Orange County trust it? If so, why can't they remove their masks? If not, why are you dispensing a medical product that is ineffective? Rescind the mask mandate, Mayor. Anything less is an admittance that this vaccine does not work.</p>

<b>Comment:</b> <p>Hello. I am a resident of Florida. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Masks &amp; Temperature scans/checks are unlawful to require at ANY place of private business, that are open to the PUBLIC. 3 examples of legal private property. 1. Church, 2. home, 3. private paid memberships with specific requirements. *Citizens are able to file an injunction, &amp; cite others &amp; even officers of the law to appear in court for harassment of mask wearing. The 1964 civil rights act notices can be seen at TheHealthyAmerican.org/legal-info "The Civil Rights Act of 1964 is federal civil rights legislation that prohibits discrimination in numerous settings including: employment, education, voting, and public accommodations. "SEC. 201. (a) All persons shall be entitled to the full and equal enjoyment of the goods, services, facilities, and privileges, advantages, and accommodations of any place of public accommodation, as defined in this section, without discrimination or segregation on the ground of race, color, religion, or national origin. (b) Each of the following establishments which serves the public is a place of public accommodation within the meaning of this title if its operations affect commerce, or if discrimination or segregation by it is supported by State action." Be sure to Visit TheHealthAmerican.org for these discrimination laws &amp; legal documents.</p>

<b>Comment:</b>  Y'all done lost your mind! Clearly these masks don't work because we are in the same place we were a year ago. These need to be a personal choice not a mandate. If someone feels more comfortable in it by all means let them be but no one should be forced.

<b>Comment:</b> What we're asking for is the restoration of our ability to govern ourselves ....to make informed medical decisions.....just plain freedom. Lifting the mandate doesn't restrict anyone from choosing to mask but leaves the decision in the able hands of the self-governed citizens of Orange County. It also frees law enforcement from being distracted by "mask enforcement" issues to focus on much more vital policing.

<b>Comment:</b> <p>Dear Mayor Demings, Hi. I reside in Osceola county. I am close to Orlando. I ask that you finally rescind the everlasting and discriminatory mask mandates. Please do right for the people who put you in office, our families with hurting kids and businesses. This will be your legacy. Please put away the bad science. Please know that many have kept up with and know how to live our lives, as free adults, responsibly and according to scientific findings. There are several articles now explaining what the accepted definition of herd immunity is and we are over that and have been for some time. The cases and deaths are very low now, which is why this state is open and mask mandates are not needed. The curve was flattened in April. There are several video demonstrations and medical articles that clearly indicate that masks are not helpful. I can blow candles out easily with a surgical mask on. They don't work, they spread germs are full of chemicals, like Teflon or cloth has unknown finishers on them. These poor medical devices also cause many physical and mental, as well as social problems. Please know that the economy suffers and we want this to be a thriving and inclusive place that is a safe and healthy place for all families. These families with children who are facing many uncertain times and unhealthy regimes. Don't leave them behind, you are hopefully looking out for these very people you represent. I have faith you will do what you would want for your own offspring and family. That would make you go down with a great legacy that you and others will look back fondly on. Thanks for your thoughtful consideration on these matters. Judi.</p>

<b>Comment:</b>  Please stop the face coverings required in Orlando. It is ridiculous that children have to wear this all the time at school causing headaches due to the lack of oxygen and a lot of allergies and skin irritation. CDC new statistics shows that recovery rate is incredible high and even more important people should have the liberty to wear or not to wear a mask. Due to this arbitrary decision high cases of violence and intolerance have been recorded almost in every single public space making social interaction even more dangerous than the virus. Its been more than a year and the only thing that does not go away is the masks

<b>Comment:</b> <p>Hello my name is Adina and I am a resident of Orange County. Mayor Demings I and my entire family have been healthy this whole pandemic! Yet you want us to believe that we are secretly germ spreaders and a danger to society. When the schools were shut down my son still attended school for the last two weeks with out picking up a single symptom of this so called deadly virus &amp; he was maskless. Here is a Reality check you Cannot be with out symptoms and never go on to develop symptoms and some how still be contagious to every one! I refuse to allow my kids to live in fear and I refuse to be apart of this tyranny! We do not know what this will do to people psychologically, suicides are rising, people are scared to go to the grocery store, there's more abuse then ever before due to loss of income and stress, parents are instilling fear into their kids so that they can pressure them to comply. Our whole lives we were taught not to fear one another and now you want us to fear each other and keep our distance away from our loved ones. I am so grateful I have never once kept my kids away from their grandparents and I will never live in regret because they have an amazing bond that can't be broken. There is people dying ALONE because they can not be around their loved ones. It's been a year of this mask mandate. I was at the store and one of the only people not complying and a lady in a mask was telling me how she was soo over this! Even the people who are complying are over it! Stop using scare tactics to fine businesses there is many of us who will never comply and will continue to support the businesses who don't comply as well! You do not even follow your own executive order it can not be "Rules for thee but not for me." Rescind the Mask Mandate enough is enough!!</p>

<b>Comment:</b> <p>The mask mana date is purely political and not scientifically-based! Stop playing politics with people as your chess pieces. A virologist working with an airborne virus wears a secured, fully-enclosures shielded suit, attached to a air filtration system in a separate area of the building that draws air from the outside. That's what it takes to work with airborne viruses! Not a paper mask and hand sanitizer! Paper masks are making people sick for so many reasons- overused, improperly worn after storing in backpacks, pocketbooks.... or the car floor. The game is proving one thing- you are a party lining politician playing with innocent people because you think you can.</p>

<b>Comment:</b> Hello I am an Orange County resident and I do not agree with the Mask mandate. Mayor Demmings, We The Free People of Florida, demand that you rescind the Orange County Masks Mandate. The masks should be worn by those who are sick and not forced on those of us who are not I'll. It is against our constitutional rights to be forced to wear a mask. Thank you in advance for making a difference.

<b>Comment:</b>  Orange county resident here, in need of reminding whoever will listen that America is a nation of laws, not mandates. And to respectfully request Mayor Demings please end the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines - the resources of your office and other departments of Orange county Florida would be better spent helping those on need who have been damaged by the draconian COVID related mandates. If this mandate is truly about health, and not compliance, take it to legitimacy and make it a law. Otherwise, please put an end to all the tryannical COVID related mandates like you said you would "when there is a vaccine".

<b>Comment:</b>  I was planning to visit your County but will not do so until you remove your unconstitutional mask mandate. A large number of studies have demonstrated that masks as described in your mandate do nothing to stop viruses. They are harmful to the wearer, causing problems such as strep throat, eye infections, bacterial pneumonia, and even lung cancer. In addition, they discriminate against people like me who have hearing disorders, as I cannot hear masked people clearly. Please end the mask mandate now.

<b>Comment:</b>  Hello. I am a resident of lake county. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Our small business has lost over \$300k in revenue and our 8 employees, including my husband and I, have suffered great loss. We spent 15 years building our business and the Disney hotel shut downs have almost closed our business doors for good. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines.

<b>Comment:</b>  The unconstitutional mask order must end. Anyone that still wishes to wear a mask will and many businesses will require them, as is their right, but we must return to a bit of normalcy. The arena needs to open at at least half capacity. Businesses are losing out, and these laws are flying in the face of our governor that has done his damndest to keep Florida open. Lives and businesses depend on normalcy.

<b>Comment:</b>  Asking for the freedom to make my own informed medical decisions. Lift the mask Mandate IMMEDIATELY and allow the ability to self-govern in regards to our own medical needs. Lifting the mandate doesn't restrict anyone from choosing to mask but leaves the decision in the able hands of the self-governed citizens. It also frees law enforcement from being distracted by mask enforcement issues to focus on much more vital policing. The two weeks to stop the spread is over! It's been a year!!! Lift the mask Mandate!!! The crazy thing...people will still have the FREEDOM to choose to wear one!

<b>Comment:</b> <p>It is time to remove the county wide mask mandate. People should have the right to choose whether they wear a mask or not. I know people who have medical conditions such as severe anxiety and cannot wear a mask. Every single time they go out in public they are harassed and made to feel anxious because of this mandate. The Mayor said the mandate would be lifted when the vaccine arrived and the vaccine is here. National data now shows that cases were higher in areas with mask mandates versus those without. It's time to let people breathe freely. Personal responsibility is the answer, not government mandates. Those who exchange liberty for perceived security, will eventually lose both. End the mask mandate now.</p>

Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Mask mandates have not had any impact on lowering cases of COVID. If they have, please provide clear data, as it appears by the actual numbers in public records that cases continued to spike after mandates . Please also remove the mandates for children wearing masks in schools, as the 'scientific data' regarding children and masks does not indicate any benefit, yet there is significant evidence as to the potential harms of children forced to do so. Perhaps if you allowed for other sides to be represented in these discussions, you and the board members would be aware of this evidence...</p>

<b>Comment:</b>  Hello. I am a resident of Orange county. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Also the children need to be able to breathe freely!!! My children cannot wear a mask so are not able to be at school to learn i person and be with their friends. No government elected individual should be allowed to make medical decisions for my family. End the mask mandate today!

<b>Comment:</b> <p>Hello. I am a resident of Orange County. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. There are ZERO legitimate reasons to force masks upon healthy people, especially when asymptomatic transmission has been debunked over and over and over again. There is no definitive science surrounding mask use to prevent viruses, however there is abundant science demonstrating the health and psychological risks of prolonged mask use. Your tyrannical methods of attacking and punishing businesses through your "Strike Teams" is unconstitutional and reminiscent of other notorious governments. You are currently serving your own ego, not the residents of the county you were elected to serve.</p>

<b>Comment:</b>  Mayor Demings, please lift the Orange County mask mandate. According to research compiled by Rational Guard, Counties in Florida that have mask mandates have 23 cases of covid per 100,000. Florida Counties without mask mandates have 22 cases of covid per 100,000. When we look at the numbers by state, states without mask mandates averaged 17 cases per 100,000 per day. States with mask mandates faired much worse with 27 covid cases per 100,000 per day. We are a year into the Covid virus. With data and knowledge, we can do better. It's time to lift government enforced mandates that we now know are not effective.

<b>Comment:</b> <p>As a citizen of Orange County I am requesting that the county rescind their mask mandates and stop sending strike forces into businesses who are struggling to survive. This mask mandate was NEVER VOTED on by anyone. Mayor Demmings put it upon himself when he became the default head of emergency services to force the county to comply with unreasonable mask requirements. We were told it would remain in place until a vaccine became available. The vaccine is now available. Why do hasn't this mandate been rescinded? And why are you silencing your constituents by going against your very own order and not allowing those with medical exemptions into your meeting to have our voices heard? That's bad enough in and of itself but to then refuse to read public comments like this one at the meeting is just plain tyranny. Your behavior is appalling and will be remembered come election time as will Mayor Demming's hypocrisy witnessed in multiple photos of Mayor Demmings maskless and not social distancing at a number of events. Please honor your constituents who pay your income and stop silencing us! End mask mandates now!!!</p>

<b>Comment:</b> <p>Hello mayor Demmings Orange County effects all of Florida due to its size, location, and tourism, and tax revenue so as a resident of Volusia, it effects me too. COVID-19 cases are dropping and other states have lifted the mask mandate largely due to the availability of the vaccine, which you yourself said would be the reason to end the mask mandate. Extended mask wearing also puts the wearer at a greater risk of illness. There is no justifiable reason to keep up this mandate, especially with the vaccine rollout and the fact that you yourself don't follow your own mandate, so you know that the masking doesn't work. We the people demand that you lift the unconstitutional mandate for Orange County and allow optional masking</p>

<b>Comment:</b>  The mask mandates need to be lifted immediately. I find it quite disturbing in the supposedly free country of America that we are needing to fight for the right to decline medical interventions. How is killing a baby "my body, my choice," --- but breathing fresh air is not entitled to that same concept? There is open discrimination against those who cannot - those with anxiety, sensory disorders, the deaf, BABIES!!! This is madness and must stop! Let people take the measures they deem necessary. We are not a one size fits all on ANYTHING and shouldn't be treated as such.

<b>Comment:</b> <p>Mayor Demings, My family and I are residents of Orange County in Orlando, Florida and we understand that initially we needed masks during our first Co-vid scare but I also understand as an RN that only people that are immunocompromised that are protecting themselves from others should be the only ones masking and We the people should have our free right to wear it if we deem fit not Mandated. Businesses should not be threatened to enforce masking this should be optional per the individuals choice. People are masking and not washing their masks and/or can not afford new masks daily/weekly and therefore are harboring bacteria in their masks. We need to breathe freely in order to strengthen our lung capacity and it is a potential risk of infection having a mask worn over and over again and again. Please free our County. I voted you in and I believe you do hear the people of our County and their cry for Mask Freedom.</p>

<b>Comment:</b>  Hello. I am a resident of clay county. I recognize that Orange County affects ALL Floridians due to its size, location, major employers, tourism, and tax revenue. Mayor Demings, we the free people of Florida demand that you rescind the Orange County mandate immediately and stop intimidating business with threats, intimidation, and fines. Thank you, Heather Smith

<b>Comment:</b>  As a resident of Palm Beach County Florida, I am very concerned that your county is affecting all the other counties in Florida with your mask mandate that is overbearing, threatening to The operation of businesses, a threat to overall economic prosperity, and totally senseless since a cloth or medical mask doesn't stop any virus! Please stop the harassment of businesses with rats and fines. Please end the mask mandate immediately.

<b>Comment:</b> <p>Mr. Demmings and the Board, the time is way past due to cancel the mask mandate. It never should have been enforced to begin with, as there is no scientific evidence that masks are effective in preventing the spread of viral particles. In fact, we all know that surgical mask boxes carry this warning: "THIS PRODUCT WILL NOT PROVIDE ANY PROTECTION AGAINST COVID-19 (CORONAVIRUS) OR OTHER VIRUSES OR CONTAMINANTS." This would be due to the small size of viral particles vs. the weave of the mask, in comparison like trying to keep a mosquito from flying through a chain link fence! Masks decrease oxygen intake and thereby increase blood acidity, increase toxic inhalation because toxins we normally exhale get re-inhaled, and put the body under stress from increased carbon dioxide levels, which triggers cortisol release and hence the shutting down of the immune system. There simply are NO well-designed and executed studies proving the efficacy of mask-wearing. Also, health officials have been wish-washy about mask recommendations from the start. On the other hand, there is mounting evidence of the harm done by mask-wearing. New words like "mascne" and "maskitis" have come into being. Go to <a href="http://nomasksforkids.com">nomasksforkids.com</a> to read reports of real people whose children are suffering greatly because of mandatory mask wearing. Government officials need to stop promoting fear and express confidence in the people of the community to take care of their own health as they see fit and to end the unconstitutional usurpation of citizens' rights purportedly based on a "health emergency" that never materialized and that turns out to have a survival rate of over 99.6%.</p>

<b>Previous Contact with Orange County Staff (If Any) Regarding This Matter (Name/Department):</b> Ending Mask Mandate in Orange County	
<b>Submitted By:</b> Sydney Schreyer	
<b>Comment:</b> <p>Please end the mask mandate. The entire state has been open, people gather in restaurants and other events wearing a mask upon entry only to take them off once they sit at their table, and many people walk outdoors without social distancing or masks. At this point, it seems the mask mandate has more to do with compliance than it has to do with science or logic. The unconstitutional mask mandate is not suited for the comfort of everyone, only for those that blindly accept what corrupt health organizations tell them. I have been discriminated against during this time as well as refused service because I am extremely uncomfortable and feel UNSAFE wearing a mask. No one is pointed at, shamed, or embarrassed for wearing one. If people want to wear masks and feel unsafe in public, they can continue to do that voluntarily after the restrictions are lifted. No one is responsible for my health but myself, and I am not responsible for worrying about anyone else's. If your job is to serve the people, it should be fair for all people and their needs. This situation is no one's fault, especially the people themselves. However, I believe everyone should start turning their heads towards the government for not better controlling the situation in the first place. They have ruined many lives. Instead of blaming the people, the government needs to own up and hold themselves accountable for once. End the mask mandate and let sovereign people make their own decisions.</p>

<b>Comment:</b> It is time to do away with unproven and unwarranted mask mandates. Leave the decision to the citizens as to how they would like to "protect" themselves and their families. Give us back our civil freedoms to live our lives by our own convictions. We deserve to govern our own actions and make informed medical decisions for ourselves. It is time to go back to allowing all people the liberty to choose.

<b>Comment:</b>  Please restore the people's ability to govern ourselves, to choose to wear a mask or not, basically freedom. I'm not asking you to take away the freedom to choose to wear a mask or for businesses to ask customers to wear them. Just remove the requirement and enforcement threat. An order like this with no end date is equal to oppression. Thank you.

<b>Comment:</b> <p>The residents of Orange County are requesting that you mr.mayor end this mask mandate and stop fining small bussiness. Wearing a mask or not wearing a mask should be up to each individual person and it is our right. Do not turn a blind eye to each individual and their needs as you are supposed to hear each person out. If a person would like to wear their mask they should have the right to just as a person who does not want to wear one. This has been over a year of this indefinite mask mandate and the mr.mayor the people of orange county are done. Thank you</p>

<b>Comment:</b> <p>There should be backyard chickens allowed through out the county. this will allow residents to have fresh eggs at a low price. this will support local feed stores when they sell chickens and chicken supplies. This will allow organic sustainable living and not promote factory farming. chickens do not smell or make noise. they are like small pets. They are great pets. Chickens help control bugs and weeds. Should be allowed at least 10 chickens/ house. Are very low maintenance and can be used as compost to reduce waste. The county can also make money by having a \$10 permitting fee. Also, in R CE the ordinance needs to be revised. I can build a house and a horse stable much closer to the property line than where I can keep a coop. Currently a coop needs to be 30 ft from property lines. this is ridiculous and there is no good reason for it. My horse stable can be much closer to the property line. Thank you for your consideration, Mohammad Ali, MHA</p>

<b>Comment:</b> <p>I don't imagine anything that I have to say will change the outcome of the vote on this matter. However, it doesn't feel right to remain silent, either. I am not specifically opposed to this request, but I think at some point we need to realize that if we continue to pave over and develop every last bit of land, there will be no quality of life for anyone. I am particularly opposed to the way most (all?) development is being conducted in this area. To entirely scrape every last vestige of vegetation and level any change in elevation makes for a very unappealing environment for any form of life. In the past few years I have witnessed countless majestic old live oaks destroyed. This is a tree which supports upwards of 300 species of insects, more than any other tree species.. Many songbirds rely on that food source to raise their young. We are currently in the middle of a mass extinction of insects worldwide. At what point do we admit that we are a part of the problem, and when do we decide to stop? Better now, than when it is too late, although I think it already is too late.</p>

<b>Comment:</b> <p>Mayor Demings, as a new home owner in Orange County, a military wife, and mother of 4, I respectfully request that you immediately rescind the OC mask mandate for all residents of and visitors to OC. It is not the government's role to dictate the steps I take to keep myself healthy. It is my responsibility to hear what elected officials report, to consult with my personal, trusted health and wellness providers and my higher power, and to take the steps I deem necessary to maintain and/or return to a state of health and wellbeing. Furthermore, I can guarantee you that my husband has not dutifully served this country for 32 years, in operations both stateside and overseas, so that elected officials could dictate the manner in which I, a free citizen, conduct my life in a presumably free society, and so that those same officials could, in essence and reality, attempt to, and actually, silence my voice. Mayor Demings, lest you've forgotten, you are employed BY the people. You work FOR the people. Mask wearing and vaccination are personal decisions. Rescind the mask mandate, resume in person, maskless meetings and stop targeting and harassing the businesses in OC who respect personal decisions and simply want to run a business.</p>

<b>Comment:</b>  Mask mandates must be rescinded. You are breaking your own order by refusing to allow exemptions in government buildings. Government buildings are tax payer funded and the people can bony be forced to submit to an unlawful mandate that they didn't agree to. This is against the state governor's orders but most importantly it is against the state constitution. Stop bullying, intimidating and threatening businesses and citizens of the state with your unlawful mask mandates.

<b>Comment:</b> <p>I would like to register my thoughts on the continuation of the mask mandate for Orange County. Given the precipitous drop in COVID cases, hospitalizations, and deaths, it is my belief that we should be returning to a system of government that prioritizes liberty, trusts in the intelligence and reasoning ability of the voting public, and is in keeping with returning to a sense of normality. Removing the mask mandate does not and will not mean that the public will suddenly stop wearing masks. We are perfectly capable of wearing a mask without it being mandated by edict from on high as if we are not living in a free society. More importantly, a mask is a medical device designed to be worn in the case of sickness or disease, and having political officials prescribing the wearing of medical devices to the citizenry at large is far outside of the scope of government officials. Despite the oft repeated refrain that masks save lives, the ACTUAL scientific consensus is far from conclusive on the efficacy of mask usage by the general public. Because of all of the above factors, as an Orange County voter, I am registering my request that the Orange County Board of Commissioners rescind the mandatory mask mandate and return the freedom of choice to the citizenry.</p>

<b>Comment:</b>  Regarding the Orange County Mandatory Mask Requirement: Commissioners: Given that the Governor is allowing the residents of Florida to exercise their own judgement about the necessity for masking and Given that many residents are now vaccinated and Given that our new case numbers are dropping and Given that the CDC now advises that vaccinated individuals no longer need to mask I ask that the Commissioners vote against a mandatory mask order. Since this year old situation is no longer a crisis mandatory orders dictating behavior is now an infringement on our personal rights. Thank you .
