

**Petition Summary:** We the Undersigned are concerned citizens and residents of the Little Lake Barton Shores Community are tired of the **disruptive influence of the methadone clinic, New Season, run by Colonial Management Group LP at 1002 N. Semoran Blvd in our community** due to the additional pedestrian and vehicle traffic combined with unacceptable management of the facility operations and property including loitering, garbage, and other illegal activities. **Action Petition For:** Through this petition, we request that the State of Florida work with local officials, including law enforcement, in partnership to regularly monitor and inspect the clinic to ensure they are in compliance with all required permit conditions and site standards. Any violations should be immediately corrected by the facility management or their **permits revoked** until an acceptable operational plan be reviewed and implemented. We understand the methadone clinic has a right to locate here, but they need to be a responsible community member and immediately address the nuisance issues which are having a detrimental affect on the health and safety of our neighborhood and local businesses.
