SUBJECT: November 30, 2021 — Public Hearing
Application from First 2 Aid EMS, Inc for a Certificate of Public Convenience and Necessity to provide interfacility Basic Life Support and Advanced Life Support transport services.

On August 27, 2021, First 2 Aid EMS, Inc ("First 2 Aid" or "Applicant") submitted its amended application for a Certificate of Public Convenience and Necessity ("COPCN") to Orange County's Office of the Medical Director/EMS Division ("EMS") proposing to provide interfacility Basic Life Support ("BLS") and Advanced Life Support ("ALS") transport services within a geographic area that includes all of Orange County and the facilities within Orange County ("Application").

EMS published notice of the Application on September 5, 2021 and received two written objections: (1) on September 29, 2021, EMS received a letter from RG Ambulance Service, Inc. d/b/a American Ambulance ("American Ambulance") objecting to First 2 Aid's Application, and (2) on September 30, 2021, EMS received a letter from Lifefleet Southeast, Inc., d/b/a American Medical Response ("AMR") objecting to First 2 Aid's Application.

EMS investigated the Application, the public need for the proposed service, and the geographical area involved. EMS concluded its investigation and made a recommendation to the Orange County Board of County Commissioners ("Board" or "BCC") on October 15, 2021 that the Board grant First 2 Aid's Application for a COPCN to provide interfacility BLS and ALS transport services in Orange County.

Prior to granting any certificate of public convenience and necessity, the Board is required by Section 20-93(b) of the Orange County Code to determine that the

proposed service, to the extent to be authorized by the certificate, is or will be required by the present or future public convenience or necessity, and that the applicant is financially and otherwise able to provide adequate and uninterrupted service at the times required.

ACTION REQUESTED: Grant First 2 Aid EMS, Inc's Application for a Certificate of Public Convenience and Necessity to Provide Interfacility Basic and Advanced Life Support Transport Services in Orange County for a two-year term; and authorize the County Mayor or designee to execute and issue a Certificate of Public Convenience and Necessity in accordance with applicable law and consistent with direction from, and on behalf of, the Board of County Commissioners.

Hello Chris,

Hope all is well.

I'm writing to you regarding your application for a COPCN in Orange County. Based on the preliminary review for completeness, we need clarification on the following:

- 1) Addresses of your current stations
- 2) The business agreement submitted is with "RG Ambulance service" and Advent Health. Is First 2 Aid EMS, Inc a subsidiary of RG? If so appropriate documentation is needed. If not, is there a business agreement between first 2 Aid and a facility in Orange County?
If so please submit said business agreement.

If you clarification please feel free to call me.

Thanks,
Crystal

ARTICLE IV Compensation

4.1 Compensation to Provider for Services. Hospital will seek pre-authorizations from Medicaid and other third party payors and Provider will bill Medicaid, third party payors and the Patient for the Services. In addition, during the first 100 days of a Medicare beneficiary's inpatient stay, Provider will bill Hospital for Medicare transports which meet the Medical Necessity requirements (as defined under Medicare): (i) transports for the initial admission to a skilled nursing facility ("SNF"); (ii) transports for the final discharge from a SNF to the home (if the patient is not returned to a SNF on the same calendar day); (iii) transports for admission to the Hospital; (iv) discharges to a SNF following a Hospital admission; (v) transports to the residence for Medicare home health services; (vi) transports for dialysis; (vii) transports for emergency services in a hospital; (viii) transports back to a SNF following emergency services at the hospital; and (ix) transports to/from the hospital for MRI, CT scans, ambulatory surgery requiring an operating room, cardiac catheterization, radiation therapy, angiography, lymphatic and venous procedures. All other transports for Medicare beneficiaries during the first 100 days of a Medicare beneficiary's inpatient stay (PPS - Medicare Part A), as well as any other transports or services Hospital agrees in writing to pay for, will be billed to the Hospital at the Medicare allowable rates. Payments from Hospital to Provider for Services described above are contingent upon Provider's submission of written evidence of denial of payments from Medicaid or other third party payor to Hospital

due to lack of pre-authorizations. After the first 100 days of a Medicare beneficiary's inpatient stay have lapsed, Provider will bill Medicare for all Medically Necessary and Medically Reasonable (as defined under Medicare) transports which meet Medicare's origin and destination coverage requirements. In the event that Hospital requests that Provider transports Patient from Hospital to another facility for any reason regardless of Medical Necessity (as defined under Medicare), Provider will bill Hospital and Hospital will compensate Provider for such transports at the Medicare allowable rates. Provider shall bill non-Medicare and non-Medicaid Patients.

Hospital will use its reasonable efforts to assist Provider in obtaining patient, third party billing or claim information and/or any other relevant information needed in order for Provider to collect payment. If Hospital determines in good faith that Services provided by Provider, based on the circumstances at the time the Services were performed, exercising reasonable judgment, were not medically necessary and Hospital denies payment, then Provider shall have the right to bill patient and/or any third party payor. Provider shall comply with all Medicare, Medicaid and other third party payor billing requirements and all applicable laws, rules and regulations in its billing practices.

4.3 Reimbursement for Uninsured or Self Pay Patients. Hospital will compensate Provider for transports provided for self-pay and uninsured Patients at the Medicare allowable rate. Such compensation shall be contingent upon Provider's compliance with the requirements set forth in Section 4.4 below.

4.4 Submission of Invoice and Billing Invoice Dispute. All invoices must be submitted to Hospital for payments within six (6) months plus thirty (30) days of the date that the services were rendered. Provider acknowledges and agrees that Hospital will not compensate Provider for invoices submitted after such period. If Hospital determines that a deficiency or deficiencies exist in Provider's invoice, Hospital shall notify Provider in writing of all such deficiencies within thirty (30) days of original receipt of Provider's invoice and shall give Provider a reasonable time to resubmit the billing for payment.

4.5 Charge Verification. Upon request, Provider shall furnish Hospital or its duly authorized representative with such documents or reports as may be reasonably necessary to verify the accuracy of Provider's charges under this Agreement.

4.6 Fair Market Value. The payment terms set forth in this Agreement have been negotiated at arm's length and in good faith by the Parties. Nothing contained in this Agreement, including any compensation paid or payable, is intended or shall be construed: (i) to require, influence or otherwise induce or solicit either party regarding referrals of business or patients, or the recommending the ordering of any items or services of any kind

whatsoever to the other Party or any of its affiliates, or to any other person, or otherwise generate business between the Parties to be reimbursed in whole or in part by any Federal Health Care Program, or (ii) to interfere with a Patient's right to choose his or her own health care provider.

In order to assure that compensation paid to the Provider hereunder is included in determining the proper reimbursement to the Hospital under Medicare and Medicaid, the Parties agree that if this Agreement is determined to be a contract within the purview of 42 U.S.C.A. Section 1395x(v)(I) and the federal regulations promulgated pursuant thereto, the Provider agrees to make available to the Comptroller General of the United States, the Secretary of the Department of Health and Human Services and their duly authorized representatives, access to the books, documents and records of the Provider and any other information as may be required by the Comptroller General or Secretary to verify the nature and extent of the costs of the services provided by the Provider. If the Provider carries out the duties of the Agreement through a subcontract worth TEN THOUSAND (\$10,000) DOLLARS or more over a twelve (12) month period with a related organization, the subcontract will also contain an access clause to permit access by the Secretary, Comptroller General and their representatives to the related organization's books and records.

If the Provider refuses to make the books, documents and records available for any inspection and if the Hospital is denied reimbursement for any services, the Provider agrees to indemnify the Hospital for the loss or reduction in reimbursement suffered by the Hospital. The obligation of the Provider to make its records available shall extend for four (4) years after the furnishing of the latest services under this Agreement or any renewal thereof.

10.17 Provider Handling of Confidential Materials. In addition of Protected Health Information, as defined by HIPAA, during the course of performing Services under this Agreement, Provider may become informed of, and have access to, valuable and confidential information of Hospital (the "**Confidential Information**"). Except as required by law, Provider shall not, at any time, either during or subsequent to the expiration or termination of this Agreement, use, reveal, report, publish, copy, transcribe, transfer or otherwise disclose to any person, corporation or other entity, any of the Confidential Information without the prior written consent of Hospital.

Upon the termination or expiration of this Agreement, Provider shall promptly deliver to Hospital all deliverable Confidential Information which is in the Provider's possession or control.

All business and medical records of the Hospital are and shall remain the property of Hospital. Provider shall require and ensure that all of Provider's employees, including all Provider Personnel, shall be bound by and comply with the covenants and obligations of this Section 10.17.

10.17.1 Irreparable Harm. Provider acknowledges that the Confidential Information is owned by the Hospital and that any unauthorized disclosure or use of such Confidential Information would cause irreparable harm and significant injury to the Hospital, the degree of which may be difficult to ascertain. Provider hereby agrees that money damages would not be a sufficient remedy for any breach or threatened breach of this Agreement by Provider and that Hospital shall be entitled, without the requirement of posting a bond or other security, to specific performance and injunctive or other equitable relief in the event of any such breach or threatened breach by Provider, in addition to all other remedies available to Hospital at law or in equity.

10.17.2 Third Party Request for Information. In the event that Provider is requested or becomes legally compelled by a judicial, governmental or regulatory entity with jurisdiction over it (by, and without limitation, oral questions, interrogatories, requests for information or documents, subpoena, investigative demand or similar process) to disclose any of the Confidential Information provided to it by Hospital, the Provider will promptly provide the Hospital with notice thereof so that Hospital may seek a protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. If, in the absence of a protective order or other remedy or waiver, the Provider is, in the opinion of Provider's counsel, legally compelled to disclose Hospital's information or else stand liable for contempt or suffer other censure or penalty, Provider will furnish only that portion of Hospital's information that is legally required to be furnished and will exercise reasonable efforts to obtain reliable assurance that confidential treatment will be accorded such information.

10.18. Survival. The following provisions shall survive the termination or expiration of this Agreement, shall remain in full force and effect, and shall be enforceable by the Parties and their respective legal representatives, affiliates, successors and permitted assigns: Sections 1, 7.4, 10.5, 10.9, 10.16, 10.17, 10.18, 10.22 and Articles IV and IX.

10.19. No Inconsistent Tax Position. Provider agrees that Provider is not entitled to and will not take any tax position that is inconsistent with being a service provider to Hospital with respect to the Hospital property. Provider agrees, for example, not to claim any depreciation or amortization deduction, investment tax credit, or deduction for any payment as rent with respect to the Hospital property.

10.20. Control of the Property by the Hospital. The Parties acknowledge that the Hospital has control over, or the right to approve (a) the annual budget of the Hospital property, (b) capital expenditures with respect to the Hospital property, (c) each disposition of property that is part of the Hospital property, and (d) the general nature and type of use of the Hospital property.

10.21 Non-discrimination. Each party shall not discriminate in its performance of its obligations hereunder, whether on the basis of a person's age, sex, marital status, sexual orientation, race, color, religion, ancestry, national origin, disability, handicap, health status, or other unlawful basis including, without limitation, the filing by a person of any complaint, grievance or legal action against Hospital or Provider. Notwithstanding the above, Provider is not required to provide services to a person who refuses to cooperate with Provider's efforts to provide services or if Provider has other good cause of refusing to provide services to a person. Each Party shall comply with their respective responsibilities under applicable Executive Order(s), federal and state laws and regulations, as amended, relating to non-discrimination.

10.22 Publicity Provision. Neither Party shall use any trademarks, service marks, visual product representations, trade names, logos or other commercial or product designations of the other Party or disclose such without said party's express prior written consent. In particular, neither party shall identify or make reference to the other Party in any advertising or other promotional modality regardless of its form without explicit prior written consent from said Party.

10.23 Exclusion of Certain Damages. Notwithstanding any provision in this agreement to the contrary, in no event shall either Party, their affiliates or any of their respective directors, officers, members, shareholders, employees, agents or subcontractors be liable to facility for lost profits, special, consequential, or incidental regardless of the basis of the claim, whether in contract, tort, strict liability, or other legal or equitable theory, whether or not such Party has been advised of the possibility of such damages.

10.24 Force Majeure. In the event of interruption of Hospital's operations due to acts of God, natural disasters, fire, strikes, labor disputes or any other reason beyond the control of Hospital or Provider, as the case may be, which impairs Provider's ability to perform Services and which continues for a sixty (60) day consecutive period, any Party to this Agreement may elect to terminate this Agreement upon the expiration of the sixty (60) day period; provided, however, the provisions of this Section shall not preclude a Party from terminating this Agreement pursuant to Article VII, Sections 7.2 or 7.3 of this Agreement.

10.25 Master List. This Agreement and any other agreements between Hospital and Provider shall be included in a central Master List maintained by the Adventist Health System Corporate Responsibility Department.

Provider's Insurance Coverage

1. **1. Insurance Requirements.** Prior to the commencement of services performed hereunder and during the term of this Agreement, including any extension(s) thereof, Provider shall obtain and provide the following insurance:

a. **Automobile Liability.** Automobile Liability Insurance with a combined single limit for bodily injury and property damage of not less than \$2,000,000 for each occurrence and a \$5,000,000 aggregate limit, with respect to Provider's owned, hired and non-owned vehicles utilized in the performance of its services. Uninsured motorist coverage, underinsured motorist coverage and personal injury protection or "no fault" insurance coverage shall not be required under this Agreement, except where required by specific state law and then, only at the statutory minimum required.

b. **Commercial General Liability.** Commercial General Liability Insurance covering bodily injury and property damage, with a limit of not less than \$2,000,000 for each occurrence and a \$5,000,000 aggregate limit.

c. **Professional Liability.** Provider shall maintain Professional Liability Insurance covering bodily injury, with a limit of not less than \$2,000,000 for each occurrence and a \$5,000,000 aggregate limit.

d. **Worker's Compensation.** Provider shall carry Workers' Compensation Insurance to cover obligations imposed by federal and state statutes; and Employer's Liability Insurance with a limit of not less than \$1,000,000.

2. **Primary Insurance.** Provider's insurance shall respond first as it relates to bodily injury or property damage caused by Provider in the performance of its services hereunder.

3. **Certificates of Insurance.** Upon request, Provider shall furnish to Hospital Certificate(s) of Insurance issued by Provider's insurer as evidence that the coverage: (1) is placed with reasonably acceptable insurers; (2) is detailed on the Certificate(s) as specified in this Agreement; and (3) is in full force and effect on the commencement date of services. Upon request, or as required by this Agreement, Provider shall furnish to Hospital updated Certificate(s) as policies are renewed.

4. **Additional Insured.** The insurance coverage required hereunder, except Workers' Compensation, shall name the Hospital, its agents, employees, and officers, as an Additional Insured.

5. **Insurance Company Rating.** Insurance policies required under this Agreement shall have

been issued by an insurance company having a financial rating of B plus or better according to the

A.M. Best rating Guide as of the commencement of this Agreement.

6. Notice of Cancellation. Provider shall notify the Hospital at least thirty (30) days in advance of cancellation or termination of any required insurance coverage.

7. Waiver. The Commercial General Liability and Auto Liability policies shall contain a waiver of recovery (subrogation) against the Hospital for any claims arising out of Provider's performance of its services under this Agreement.

8. Supplemental Insurance. During the term of this Agreement, Hospital, in its reasonable discretion, may require Provider to obtain additional coverage or increase the amount of any insurance Provider carries to the extent the coverage is reasonably and commercially available to Provider ("Supplemental Coverage"). In such event, Hospital shall pay to Provider the extra cost of the Supplemental Coverage. Such appropriation and payment of funds shall be a condition precedent to Provider's duty to obtain such Supplemental Coverage. Hospital shall allow reasonable time for Provider's broker to research the market availability of such required Supplemental Coverage.

9. Claims Made. In the event Provider elects to obtain insurance required under this Agreement on a "claims made" basis, then such coverage shall extend for two (2) years past the completion of the services rendered by Provider to Hospital and Provider shall, upon request, provide Hospital a Certificate of Insurance evidencing such extended coverage.

10. Market Fluctuations. The Hospital acknowledges that, from time to time, insurance market fluctuations may increase the premiums Provider must pay in order to secure the coverage required under this Agreement. In the event that the premiums increase during the term of this Agreement, the Hospital agrees to consider in good faith Provider's request for an equitable adjustment in Provider rates to cover the increased cost.

Re: Objection to First 2 Aid EMS Inc COPCN Application

Dr. Zuver:

Our firm represents RG Ambulance Service, Inc. d/b/a American Ambulance, an existing holder of a Certificate of Public Convenience and Necessity ("COPCN") to operate Advance Life Support ("ALS") interfacility services in Orange County. Pursuant to Section 20-92 (b)(2) of the Orange County Code of Ordinances, RG Ambulance hereby files this objection to the Application of First 2 Aid EMS Inc. (hereinafter "First2Aid" or the "Applicant") for COPCN to operate ALS interfacility service within Orange County. This objection is timely under Section 20-92(b)(2) because it has been served within 30 days of the County's notice of the Application.

Summary of Argument

The application submitted by First2Aid is both deficient in required information and insufficient in its description of "need." The deficiency is in two regards. First, the application fails to list the location(s) from which the applicant will operate. As well, the application falls short in listing adequate staff for First2Aid's proposed operations. The insufficiency lies in the Applicant's statement of facts showing demand or need. Simply, the statement of "facts" contains NO facts, and instead, generally states there is a need. As discussed more fully below, there is in fact no verifiable need within the County as the current providers are exceeding expectations in responding to the current need. For these reasons, more fully discussed below, we respectfully request that Orange County reject this application by First2Aid.

Applicable Standards and Grounds for Objection

In reviewing an application for a COPCN, Section 20-92(b)(1) of the Code requires the Emergency Medical Office (the "EMSO") to "investigate the public need for the proposed service". Further, in reviewing the EMSO's recommendation on the application, Section 20-93(b) of the Code requires "the board of county commissioners shall determine that the proposed service, to the extent to be authorized by the certificate, is or will be required by the present and future public convenience or necessity..." In fact, Section 20-92(a)(4) requires a "statement of facts showing the demand or need for the proposed service" in the application. In other words, the Orange County Code requires that the applicant demonstrate that there is a

need for additional interfacility service in the County and that the existing service is not adequate to meet the public need in the service category.

Florida law also requires that applicants seeking a certificate of public convenience and necessity for transportation services carry the burden of providing that existing service is inadequate. *See: Surf Coast Tours, Inc. v Florida Public Service Commission*, 385 So. 2d 1353, 1355 (Fla. 1980) (recognizing that an evaluation of “the adequacy of the existing services” must be measured by evaluating existing service providers’ performance and the applicant has the burden of proving substandard performance); *Stewart Bonded Warehouse, Inc v Bevis*, 294 SO. 2d 315 (Fla. 1974) (holding that an applicant shall not receive a certificate of public convenience and necessity if it fails to demonstrate that existing service is inadequate). See also: *Great Southern Trucking Co. v Mack*, 54 So. 2d 153, 156 (Fla. 1951) in which the Court acknowledged that:

Statutes in this connection (public transportation) generally contemplate and frequently expressly require that additional new service from a different source shall not be permitted to supersede or vitally impair the present transportation service, where that is or may become adequate to the public needs. Existing investment should be conserved, and present service protected, where adequate and satisfactory, in the interest of justice and public welfare.

Here the applicant has completely failed to demonstrate public necessity for additional ALS interfacility service as required by Florida law and the Orange County Code. In fact, p.2 of the Application section 9 requires “STATEMENT OF FACTS SHOWING DEMAND OR NEED FOR THE PROPOSED SERVICE”. The Applicant’s statement is brief and lacking in any facts:

Currently Orange County is in need of not only an ambulance service to help with interfacility volume, but also companies wanting to invest in our community. We feel we can provide both, currently hospitals are experiencing long transport ETAs and there have been reports of delayed responses from private services responding to 911 call request within the county and municipalities.

The applicant’s statement of need and necessity is inadequate, ambiguous, lacks supporting documentation of FACT and does not meet the requirements of Section 20-92. Furthermore, the statement focuses more on an alleged lack of community investment and shortcomings in the 911 response. To make the record clear, RG Ambulance Service, Inc. d/b/a American Ambulance is not part of the 911 response system and is not requested for this type of response. This begs the question of whether First2Aid believes it will be included in the 911 call request service? Does it have a contract or offer to suggest that it will provide 911 response? Additionally, the Applicant suggests that current COPCN holders are not investing in the community. Although not a requirement of a COPCN holder, American Ambulance has operated and has been based in Orange County for two decades. The organization and team members are residents, taxpayers and are very much involved in our community. Any suggestion otherwise is meant to distract from the Applicant’s inadequate response regarding actual need for additional certificate holders.

While the statement of facts is the most glaring inadequacy of First2Aid’s application, there are other fatal flaws and omissions which demonstrates the application fails to comply with County Code.

INCLUDE DELIVERY PHRASES IN HEADER

Dr. Christian Zuer
September 29, 2021
Page 3

The application requires listing of locations from which the applicant will operate.

The COPCN Ordinance in Section 20-92(a)(7) requires that the application shall include “[t]he address and description of each of the locations from which the applicant will operate...” The application provided by Orange County for a COPCN license accordingly requires the applicant to “LIST THE ADDRESS AND DESCRIPTIONS OF EACH OF THE LOCATIONS YOU WILL OPERATE FROM, AND THE HOURS OF OPERATION AND STAFFING AT EACH PROPOSED LOCATION.” See Attachment II: Communication Capabilities, Question 1 on page 5 of 8 (Emphasis in the Application). This requirement is in all caps and is clear. The applicant based on the COPCN Ordinance and the application must provide this information.

The Applicant fails to list any locations within Orange County. As such the EMSO will not be able to determine if the location would be appropriate if the board of county commissioners were to grant a COPCN.

The application requires verification of staffing requirements.

Section 20-92 (a)(6) of the County Code requires verification of staffing requirements and “certification of personnel to be employed”. While the application includes a staff list, it appears that all these employees are with the Applicant’s existing Bay County or Osceola /Polk county operations. In fact, the Applicant admits “lack of applicants” and suggests an attempt to bring applicants into an Academy and certify EMT’s and Paramedics. This is problematic at best. The Applicant has not demonstrated that they are a state approved or an affiliated EMT/ Paramedic training site licensed by State of Florida under Chapter 401. The net result would simply be a reshuffling of employees with no additional capacity added to the service or benefit Orange County, and thus further exacerbating an already-existing staffing issue within Orange County for all COPCN holders.

The application requires demonstration of financial ability.

Section 20-93 (b) requires the Applicant demonstrate that it is financially and otherwise able to provide adequate and uninterrupted service. However, the information provided through public records request was a one-page notice of deposit issued from Chase. The document’s financial information is blacked out and only lists the Officers of the Applicant. There is no financial information whatsoever made available. While the Applicant may be financially sound, we do not have insight and would ask that there be at least an affirmative statement by the County as to whether this financial ability has been demonstrated.

Conclusion

There are numerous, significant defects with the Application that merit its denial. RG Ambulance Service, Inc. d/b/a American Ambulance would be able to further demonstrate that it and other providers within Orange County have the capacity serve the ALS interfacility market. Should this application for interfacility be granted, without any demonstrated need for the service in Orange County, the intent behind Florida’s certificate of need statute and the County Code implementing the statute would be completely disregarded.

RG Ambulance Service, Inc. d/b/a American Ambulance has an outstanding reputation in Orange County and the surrounding communities. To date we have not received one single complaint of service or violation from the EMSO in almost two decades.

For all reasons identified, RG Ambulance Service, as an existing provider of ALS interfacility service provider within Orange County, respectfully requests that the Application of First 2 Aid EMS, Inc be rejected and/or denied.

Re: Objection to Application of First 2 Aid EMS, Inc. for COPCN
MPD File No. 120316

Dear Dr. Zuver,

Our firm represents Lifefleet Southeast, Inc., d/b/a American Medical Response ("AMR") as an existing holder of a Certificate of Public Convenience and Necessity ("COPCN") to operate Advanced Life Support ("ALS") services in Orange County. Pursuant to Section 20-92(b)(2) of the Orange County Code of Ordinances, AMR hereby files this objection (the "Objection") to the Application of First 2 Aid EMS, Inc. (the "Applicant") for a COPCN to operate ALS interfacility service within Orange County. This Objection is timely under Section 20-92(b)(2) because it has been served within 30 days of the County's notice of the Application.

Applicable Standards and Grounds for Objection

In reviewing an application for a COPCN, Section 20-92(b)(1) of the Code requires the Emergency Medical Services Office (the "EMSO") to "investigate the public need for the proposed service". Further, in reviewing the EMSO's recommendation on the application, Section 20-93(b) of the Code requires "the board of county commissioners shall determine that the proposed service, to the extent to be authorized by the certificate, is or will be required by the present or future public convenience or necessity . . ." In fact, Section 20-92(a)(4) requires a "statement of facts showing the demand or need for the proposed service" in the application. In other words, the Orange County Code requires that the Applicant demonstrate that there is a need for additional service in the County and that the existing service is not adequate to meet the public need in the service category.

Florida law also requires that applicants seeking a certificate of public convenience and necessity for transportation services carry the burden of proving that existing service is

inadequate. *See: Surf Coast Tours, Inc. v. Florida Public Service Commission*, 385 So. 2d 1353, 1355 (Fla. 1980) (recognizing that an evaluation of “the adequacy of existing services” must be measured by evaluating existing service providers’ performance and applicant has the burden of proving substandard performance); *Stewart Bonded Warehouse, Inc. v. Bevis*, 294 So. 2d 315 (Fla. 1974) (holding that an applicant shall not receive a certificate of public convenience and necessity if it fails demonstrate that existing service is inadequate). *See also: Great Southern Trucking Co. v. Mack*, 54 So. 2d 153, 156 (Fla. 1951) in which the Court acknowledged that:

Statutes in this connection (public transportation) generally contemplate and frequently expressly require that additional new service from a different source shall not be permitted to supersede or vitally impair the present transportation service, where that is or may become adequate to the public needs. Existing investment should be conserved, and present service protected, where adequate and satisfactory, in the interest of justice and public welfare.

Here, the Applicant has completely failed to demonstrate a public necessity for additional ALS service as required by Florida law and the Orange County Code. Specifically, on p. 2 of the Application (Section I, subsection 9), the Applicant’s “Statement of Facts” demonstrating alleged need for additional ALS interfacility service is limited to the following statement:

Currently Orange County is in need of not only an ambulance service to help with interfacility call volume, but also companies wanting to invest in our community. We feel we can provide a solution to both, currently hospitals are experiencing long transport ETAs and there have been reports of delayed responses from private services in responding to 911 call requests within the county and municipalities.

This “statement of facts” is nothing more than a conclusory assertion that call volume and wait times for ALS transport are high without any supporting evidence or data. The Applicant does not provide a single verified statement from a facility or any entity regarding “delayed responses” or “long transport ETAs.” In fact, on p. 4, the Application requires references from business partners and the Applicant lists several entities. However, the Applicant fails to provide a letter of reference from any of these entities as the Application requires. Instead, the letter of reference is included from Alivi which is a *Non-Emergency Medical Transportation* services broker for Medicaid patients in Florida. Of course, the Application is for a COPCN for advanced life support which means “treatment of *life-threatening medical emergencies* through the use of techniques such as endotracheal intubation, the administration of drugs or intravenous fluids, telemetry, cardiac monitoring and cardiac defibrillation by a qualified person, pursuant to Florida Statutes.” See Code Section 20-51 (emphasis added). Therefore, Alivi’s alleged need for non-emergency transport has nothing to do with the application for advanced life support by the Applicant for “life threatening medical emergencies” and should be disregarded. In fact, the

Alivi letter states it regards "ALS/BLS permits" which further confuses the issue as the Applicant is not even applying for a BLS COPCN.

Moreover, the Applicant recognizes on p. 2 that there is currently a "lack of applicants" for EMT's and paramedics. In other words, the Applicant acknowledges there is a shortage in this critical labor market, which also affects the existing providers, including AMR. This labor shortage means the market cannot support a new entrant and the Applicant will have to try to hire away employees from current providers in Orange County. If it were able to do so, the net result would simply be a reshuffling of employees with no capacity added to service or benefit to the County.

Additionally, Code Section 20-92(a)(7) requires a description of the location from which the applicant will operate. Yet, on p. 2 of the Application, the Applicant admits it has no location in Orange County and will have to simply "figure it out" if it is granted a COPCN. Conversely, AMR has had a base of operations in Orange County for over a decade from which it has effectively serviced County citizens.

Finally, at the August 6, 2019, Board of County Commissioners Meeting the Board considered the application of Affordable Transport, Inc. ("ATI") for an ALS interfacility COPCN, like the application here. The Board granted ATI a limited COPCN to service a specific facility only. However, during the public hearing, the Board recognized that the Code provisions regarding review and adjudication of COPCN applications needed to be revised to "perfect the process regarding determination of need going forward." See Public Hearing Report details available on the County's website. The Board recognized that COPCN applicants, like the Applicant here, should have to meet a more precise process and specific evidentiary standard of proving that an unmet need exists before being granted a COPCN and the Code should be revised accordingly. The Code, however, remains unchanged since August 6, 2019. As such, consideration of the current application should be postponed (if it is not outright rejected due to lack of proof of need) until the Code can be revised in accordance with the Board's directives.

In sum, there are numerous, serious defects with the Application that merit its denial. AMR would be able to further demonstrate in any future public hearing that it and the other providers have capacity to serve the ALS market in Orange County. If this Application for ALS transport is granted, without any demonstrated need for such service in Orange County, the intent behind Florida's certificate of need statute and County Code implementing the statute would be completely eviscerated and the citizens of Orange County would suffer by ever-expanding industry cannibalization. In short, AMR has a record of exemplary service in Orange County, and in other counties throughout Florida and there is no proven need for an additional service provider.

RE: EMS's Recommendation on FIRST 2 AID EMS, INC's Application for a Certificate of Public Convenience and Necessity to Provide Interfacility Basic and Advanced Life Support Transport Services in Orange County

Chapter 20, Article III, Division 2, Subdivision II of the Orange County Code delineates the process for obtaining a Certificate of Public Convenience and Necessity ("COPCN") as required to provide emergency medical care or transportation services in Orange County. Applications for a COPCN must be made on forms provided by Orange County's Emergency Medical Services Office ("EMSO") and must contain, among other things, a statement of facts showing the demand or need for the proposed service and such other reasonable information as may be required by Orange County's Health Services Department ("Department"). Upon receiving an application for a COPCN, EMSO makes an investigation into the application and the public need for the proposed service. After concluding its investigation, EMSO makes a recommendation to the Orange County Board of County Commissioners (the "Board" or "BCC") to either grant or deny the application, or grant the application with such conditions of approval as the Department feels are necessary. The purpose of this Memorandum is to provide the BCC with a recommendation on FIRST 2 AID EMS, INC's (the "Applicant" or "First 2 Aid") application for a COPCN in accordance with Section 20-92(b)(3), Orange County Code.

On August 27, 2021, First 2 Aid submitted its amended application for a COPCN to EMSO seeking to provide interfacility Basic Life Support ("BLS") and Advanced Life Support ("ALS") transport services within a geographic area that includes all of Orange County and the facilities within Orange County (the "Application"). Subsequently, EMSO conducted an investigation into the Application and the public need for BLS and ALS interfacility transport services in Orange County. EMSO has determined that the Application is complete and does not contain any material deficiencies. The Application includes: (1) a statement of facts showing the demand or need for interfacility BLS and ALS transport services in Orange County; (2) the addresses and descriptions of the locations from which the Applicant will operate; (3) a staff roster with the names, positions, and license numbers of the Applicant's employees; and (4) several business and credit references. Additionally, the Applicant attached a business agreement between the Applicant and

AdventHealth Orlando for the provision of "emergency and non-emergency medical transportation" services for multiple healthcare facilities throughout Orange County which also demonstrates to EMSO a demand or need for such services. Further, the Applicant disclosed that it has a COPCN from Osceola County and Seminole County and an ALS License Number from the State of Florida. For the foregoing reasons, EMSO recommends that the Board grant First 2 Aid's Application for a COPCN to provide interfacility BLS and ALS transport services in Orange County.

RECOMMENDATION: Grant FIRST 2 AID EMS, INC's Application for a Certificate of Public Convenience and Necessity to Provide Interfacility Basic and Advanced Life Support Transport Services in Orange County.
