SUBJECT: August 30, 2022 – Consent Item
County-Initiated Street Name Change - Seidel Road

Pursuant to the Village F Road Network Agreement approved by the Board on June 18, 2013 (recorded as Document # 20130333652), improvements to Seidel Road were completed in April 2019 including major realignment of the road and widening to a four-lane roadway. As a result of that effort, there is now a segment of road from the previous alignment that needs to be renamed in order to avoid routing confusion in this area of the County.

While the County has adopted Resolution No. 2015-M-12 for Street Name Petitions when a name change is desired by the public, staff is requesting this county-initiated road name change for the benefit of the public's safety. Roadways that are a continuation, extension of, or in alignment with existing roads are required to bear the same name as that of the existing road. Segmented roadways that bear the same name but are not a continuation of each other can cause difficulty for first responders in responding to an emergency. The affected property owners have been notified of the proposed change and did not provide any feedback regarding the renaming. Staff will notify all of the property owners with frontage along the road advising them of the name change upon approval of the request. This portion of Seidel Road will be renamed Old Seidel Road which will allow for a continuation of the address numbering system for consistency.

ACTION REQUESTED: Approval of the County-initiated street name change to rename a portion of Seidel Road to Old Seidel Road to ensure public safety and authorization for County staff to update associated records. District 1
