1. Development shall conform to the Goldenrod Reserve PD Land Use Plan; Orange County Board of County Commissioners (BCC) approvals; Goldenrod Reserve Preliminary Subdivision Plan dated "Received July 18, 2016," and to the conditions of approval listed below. Development based upon this approval shall comply with all applicable federal, state, and county laws, ordinances, and regulations, which are incorporated herein by reference, except to the extent any applicable county laws, ordinances, or regulations are expressly waived or modified by these conditions, or by action approved by the BCC, or by action of the BCC. In the event of a conflict or inconsistency between a condition of approval of this preliminary subdivision plan and the preliminary subdivision plan dated "Received July 18, 2016," the condition of approval shall control to the extent of such conflict or inconsistency.
2. This project shall comply with, adhere to, and not deviate from or otherwise conflict with any verbal or written promise or representation made by the applicant (or authorized agent) to the Board of County Commissioners ("Board") at the public hearing where this development received final approval, where such promise or representation, whether oral or written, was relied upon by the Board in approving the development, could have reasonably been expected to have been relied upon by the Board in approving the development, or could have reasonably induced or otherwise influenced the Board to approve the development. In the event any such promise or representation is not complied with or adhered to, or the project deviates from or otherwise conflicts with such promise or representation, the County may withhold (or postpone issuance of) development permits and/or postpone the recording of (or refuse to record) the plat for the project. For purposes of this condition, a "promise" or "representation" shall be deemed to have been made to the Board by the applicant (or authorized agent) if it was expressly made to the Board at a public hearing where the development was considered and approved.
3. Pursuant to Section 125.022, Florida Statutes, issuance of this development permit by the County does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the County for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. Developer/applicant acknowledges and understands that any such changes are solely the developer's/applicant's obligation and responsibility to disclose and resolve, and

that the developer's/applicant's failure to disclose and resolve any such changes to the satisfaction of the County may result in the County not issuing (or delaying issuance of) development permits, not recording (or delaying recording of) a plat for the property, or both.

5. Property that is required to be dedicated or otherwise conveyed to Orange County (by plat or other means) shall be free and clear of all encumbrances, except as may be acceptable to County and consistent with the anticipated use. If the applicant can show the existence of a positive outfall for the subject basin, then in lieu of designing for the 100-year/24-hour storm event, the developer shall comply with all applicable state and local stormwater requirements and regulations. An emergency high water relief outfall shall be provided to assure overflow does not cause flooding of surrounding areas.

The County Engineer shall establish the amount of the letter of credit or cash escrow.
13. 2. This project shall comply with, adhere to, and not deviate from or otherwise conflict with any verbal or written promise or representation made by the applicant (or authorized agent) to the Board of County Commissioners ("Board") at the public hearing where this development received final approval, where such promise or representation, whether oral or written, was relied upon by the Board in approving the development, could have reasonably been expected to have been relied upon by the Board in approving the development, or could have reasonably induced or otherwise influenced the Board to approve the development. Developer/applicant acknowledges and understands that any such changes are solely the developer's/applicant's obligation and responsibility to disclose and resolve, and that the developer's/applicant's failure to disclose and resolve any such changes to the satisfaction of the County may result in the County not issuing (or delaying issuance of) development permits, not recording (or delaying recording of) a plat for the property, or both.
5. Property that is required to be dedicated or otherwise conveyed to Orange County (by plat or other means) shall be free and clear of all encumbrances, except as may be acceptable to County and consistent with the anticipated use. The original NOI form shall be sent to the Florida Department of Environmental Protection by the developer.
7. The site shall be stabilized following grubbing, clearing, earth work, or mass grading to establish a dense stand of grass, or shall incorporate other approved Best Management Practices, on all disturbed areas if development does not begin within 7 days. Final stabilization shall achieve a minimum of seventy percent (70%) coverage of the disturbed land area and shall include a maintenance program to ensure minimum coverage survival and overall site stabilization until site development. Prior to clearing or grubbing, or approval of mass grading or constructions plans, a letter of credit or cash escrow acceptable to the County shall be submitted to guarantee the required site stabilization and maintenance of all disturbed areas. The County Engineer shall establish the amount of the letter of credit or cash escrow.
8. Prior to construction plan approval, documentation with supporting calculations shall be submitted which certifies that the existing drainage system and pond have the capacity to accommodate this development and that this project is consistent with the approved master drainage plan (MDP) for this PD.
9. This project shall be a gated community and shall comply with the minimum requirements of the Gated Community Ordinance, Orange County Code Sections 34-280, 34-290, and 34-291, as they may be amended from time to time.

11. Prior to construction plan approval, documentation must be provided certifying that this project has the legal right to tie into the master drainage system.
12. A mandatory pre-application / sufficiency review meeting for the re-plat shall be required prior to re-plat submittal, but after approval of the site construction plans. The applicant shall resolve, to the County's satisfaction, all items identified in the

Unless the property is otherwise vested or exempt, the applicant shall be subject to school concurrency and required to go through the review process prior to platting.
14. 15. Construction plans within this PD shall be consistent with an approved and up-to-date Master Utility Plan (MUP). MUP updates shall be submitted to Orange County Utilities at least thirty (30) days prior to the corresponding construction plan submittal. - 9) At the time of approval of a plan for a single-family detached residential unit project, the developer shall have prepared and submitted for review a document containing covenants, conditions, and restrictions (CC&Rs) for the property being platted. The CC&Rs, which shall be recorded simultaneous with the recording of the plat, shall include a provision incorporating, verbatim, the following requirements:
- a) The same front facade for single-family residential units may not be repeated more than 5 times within 1 block length for both sides of any street, and shall be separated by at least 2 units with different facades.
 - b) House front facades shall be varied and articulated to provide visual interest to pedestrians along the street frontage. The front facade of the main body of the house shall not exceed 40 feet in length, except for wings of "L"s which are setback from the front facade. In no case shall more than 50 percent of the front facade of a house consist of an unobstructed block wall or garage door.
 - c) At least 50 percent of all single-family residential units 75' in width or less shall have a front porch. A front porch shall be a minimum of 7 feet in depth; 8 feet in width and cover a minimum 10 feet in width or 1/3 of the front facade, whichever is greater.

 - e) Unless otherwise prohibited by the CC&Rs, fencing in the front yard shall be located within 3 feet of the sidewalk to define the separation of public and private spaces. Such fences shall be no higher than 3 feet, 6 inches, and be limited to decorative wrought iron or wood picket style. The provisions of the CC&Rs incorporating the above referenced

requirements shall not be amended, removed, or superseded without the prior approval of the Board of County Commissioners, which approval may be withheld in the Board's sole discretion, and the CC&Rs shall contain a statement to that effect. Furthermore, the CC&Rs shall provide that the homeowner's association and any person owning property in the development have the right to enforce these requirements in the event they are violated. Finally, the CC&Rs shall also state that Orange County shall have the right, but not the duty, to enforce these requirements in the same manner as it enforces other Orange County ordinances and regulations.

- 10) Tree removal / earthwork shall not occur unless and until construction plans for the first Preliminary Subdivision and/or Development Plan with a tree removal and mitigation plan have been approved by Orange County.
- 11) The applicant must apply for and obtain a Capacity Encumbrance Letter (CEL) prior to construction plan submittal and must apply for and obtain a Capacity Reservation Certificate (CRC) prior to platting. Nothing in this condition, and nothing in the decision to approve this plan, shall be construed as a guarantee that the applicant will be able to satisfy the requirements for obtaining a CEL or a CRC.
- 12) The following public education-related Conditions of Approval shall apply:
 - a) Developer shall comply with all provisions of the Capacity Enhancement Agreement entered into with the Orange County School Board as of 08/16/06, and amended on 4/29/08 and 06/24/08, and all future amendments.
 - b) Upon the County's receipt of written notice from Orange County Public Schools that the developer is in default or breach of the Capacity Enhancement Agreement, the County shall immediately cease issuing building permits for any residential units in excess of the 199 residential units allowed under the zoning existing prior to the approval of the PO zoning. The County shall begin issuing building permits upon Orange County Public Schools' written notice to the County that the developer is no longer in breach or default of the Capacity Enhancement Agreement. The developer and its successor(s) and/or assign(s) under the Capacity Enhancement Agreement, shall indemnify and hold the County harmless from any third party claims, suits, or actions arising as a result of the act of ceasing the County's issuance of residential building permits.
 - c) Developer, or its successor(s) and/or assign(s) under the Capacity Enhancement Agreement, agrees that it shall not claim in any future

litigation that the County's enforcement of any of these conditions are illegal, improper, unconstitutional, or a violation of developer's rights.

- d) Orange County shall be held harmless by the developer and its successor(s) and/or assign(s) under the Capacity Enhancement Agreement, in any dispute between the developer and Orange County Public Schools over any interpretation or provision of the Capacity Enhancement Agreement.
- e) At the time of platting, documentation shall be provided from Orange County Public Schools that this project is in compliance with the Capacity Enhancement Agreement.
- f) An APF agreement shall be scheduled simultaneously with this Land Use Plan.
