SUBJECT: Approval of Purchase Order M82236 to Fully Rebuild all Interior  
Components for Ozone Generator Number 2

### ACTION REQUESTED:

Approval of Purchase Order M82236 to Fully Rebuild all Interior Components for Ozone Generator Number 2, with Aqua-Aerobic Systems, Inc., in the amount of \$318,733.76.

### PROCUREMENT:

To provide all parts, material and labor to rebuild ozone generator number 2. This service includes a three year warranty.

### FUNDING:

Funding is available in account 4420 038 1324 3820.

### APPROVALS:

The Water Division concurs with this recommendation.

### REMARKS:

Aqua-Aerobic Systems, Inc., is the single entity responsible for manufacture and service of the ozone system. The rebuild of ozone generator number 2 is required to return the system used in the treatment of drinking water at the Southern Regional Water Supply Facility back into operation.

The pricing for this full rebuild was compared to partial cleaning and replacements which were done on the other two generators. The pricing is consistent with the number of dielectric lamps that need to be pulled and replaced.
