Joint Violent Crime Intervention and Reduction Initiative

History

- May 13, 2016 - Violent Crime Intervention and Reduction Forum at Valencia College.
- As a result, four subcommittees were developed: **Prosecution, Enforcement, Intervention and Prevention.**

Subcommittees were designed to:

- Be community led
- Identify problems and develop solutions
- Develop crime reduction strategies
- In partnership with law enforcement, implement the crime reduction strategies

Joint Violent Crime Intervention and Reduction Initiative

- Committee members were sought out to be representative of the community
- Members traveled to other communities to learn about their successes
- The various subcommittees have been meeting every 3-4 weeks to develop crime reduction strategies for their respective subcommittees.

Subcommittee Leadership

Prevention

- Cory Johns – Civilian Co-Chairman
- Jay Adams – Civilian Co-Chairman

Intervention

- Ramon Ojeda – Civilian Chairman

Enforcement

- Pastor Michael Kimbrough – Civilian Chairman
- Lieutenant Jose Campina – OCSO Facilitator
- Lieutenant Tory Wright – OCSO Facilitator
- Sergeant Ira Morris – OPD Facilitator

Prosecution

- Steve Foster – Civilian Chairman

Four-Pronged Approach

Prevention

- Identification of the problem from various viewpoints in order to determine the most effective way to target our youth. Target age will start at elementary school age youth while allowing the program to transition with the youth into middle and high school

Intervention

- Redirects the activities of young offenders and those at-risk of engaging in illicit activities or gang involvement. Such programs may involve sports, scouting, exploring, or other positive activities.

Four-Pronged Approach

Enforcement

- Statistical analysis on criminal activity to identify “Focus Areas” with increased criminal activity and then educate the community on the zero tolerance enforcement tactics

Prosecution

- The central mission of state and federal prosecutors is the enforcement of criminal statutes against the most dangerous offenders

Prevention

Preliminary Recommendations

- Work with Orange County Government representatives to provide crime prevention recommendations
 - Street lighting
 - Abandoned/Condemned Homes
 - Landscaping/Overgrown Trees
 - Security Cameras
- Identify stakeholders who are vital to the success of the initiative
- Identify area of focus to pilot program
- Mapping current programs/services in Pine Hills zip codes (32808/32818)
- Identify the target age group for recommended services

Intervention

Preliminary Recommendations

- Offer an intervention program outside of jail for first time adult non-violent offenders
 - The focus group will be first time non-violent offenders
 - Deferring the prosecution when appropriate
 - Applying long term counseling and therapy in an effort to reduce criminal behavior
 - The focus group for this model will be youthful offenders
- Collaborate with established community organizations that have demonstrated expertise and success in mentoring/counseling programs focused on at-risk youth

Enforcement

Preliminary Recommendations

- Engage in multi-county Regional Offender Operations
- Worst/Repeat Offenders Identification
 - Countywide
 - Score / Point driven
 - Identify Future Offenders
- Collaborate with Federal, State and Local Law Enforcement Agencies
- Expand the use of CFIX to identify regional crime trends
- When appropriate, utilize an alternative to arrest
 - Ensure law enforcement is using all available means to enforce the laws to include using Notices to Appear, any Diversion Programs available, and the use of Civil penalties instead of criminal penalties

Prosecution

Preliminary Recommendations

- Create an educational curricula of the criminal justice system and procedures to increase the citizen involvement for prosecution of criminal offenders
- Identify an area of focus to pilot the education program
 - Identify communities within Pine Hills and South Orange Blossom Trail for an educational program on criminal justice system and procedures
- Ensure the effective prosecution of habitual/repeat offenders, firearms offenses and gang members

Operation Restoring Inclusiveness, Safety and Empowerment (R.I.S.E.)

Overview

- Portions of the Pine Hills community continue to be a hub for violent crime. Additional resources and increased collaborative efforts from other agency units are required in order to get the area stabilized so that patrol units can then maintain order.
- The Orlando Police Department has seen a similar increase within their city limits adjacent to Pine Hills. As a result of this singularity, both law enforcement agencies have collaborated in a joint operation within their respective jurisdictions.

Operation R.I.S.E.

Goals

- Reduce crime and the fear of crime
- Foster a safer environment
- Empower the residents and business owners of the Pine Hills community to improve their quality of life

Results of OPERATION R.I.S.E.

December 16, 2016 to Jan 19, 2017

- Arrests made: **217**
- Cannabis seized: **4,912.7 grams**
- Powder Cocaine seized: **36.1 grams**
- Crack Cocaine seized: **1.8 grams**
- Traffic: **298 Citations / 1,405 Stops**
- Cash: (seized or submitted to evidence) **\$23,042.27**
- Heroin: **14.8 grams**
- Xanax: **39 bars**
- MDMA: **10 pills**
- Guns Recovered: **26**

Summary

- Law Enforcement has a plan and is currently engaging the community for additional ideas
- Tactical Law Enforcement initiatives are currently showing success through Operation R.I.S.E.
- Law Enforcement working collaboratively with Orange County Government in crime prevention efforts

Future Board Considerations

- Additional funding for Security Cameras
- Funding for mentoring/counseling related programs
- Funding for post incarceration services (after care programs, substance abuse treatment, employment training, housing assistance, mental illness treatment, etc.)
- Additional Law Enforcement Personnel

Discussion/Questions
