At the March 7, 2017, BCC meeting, staff provided the one year update on the automated residential garbage and recycling service. The Board indicated that the large item collection service, which is part of the automated residential garbage and recycling service, should be improved by providing regularly scheduled collection services.

In response to the Board's request, Utilities Department staff will provide two options and cost for adding scheduled large item collection service to our existing residential collection service contracts.

**Action Requested: Selection of one option for scheduled large item collection services to be added to the Orange County residential collection service contracts for 2018.**
