Orange County, Florida Citizens Annual Financial Report

For the Year Ended September 30, 2016

Prepared by Phil Diamond, CPA County Comptroller www.occompt.com

Orange County, Florida

Board of County Commissioners

Teresa Jacobs, County Mayor	Successive
Victoria P. Siplin, Vice Mayor	District 6
Betsy VanderLey	District 1
Bryan Nelson	District 2
Pete Clarke	District 3
Jennifer Thompson	District 4
Emily Bonilla	District 5

Elected Constitutional Officers

Tiffany Moore Russell	Clerk of the Circuit and County Courts
Phil Diamond, CPA	County Comptroller
Rick Singh	Property Appraiser
Jerry L. Demings	Sheriff
Bill Cowles	Supervisor of Elections
Scott Randolph	

OFFICE OF THE COMPTROLLER ORANGE COUNTY FLORIDA

Phil Diamond, CPA County Comptroller 201 South Rosalind Avenue Post Office Box 38 Orlando, Florida 32802 Telephone: 407-836-5690 Fax: 407-836-5599 email: Phil.Diamond@occompt.com Web site: www.occompt.com

To the Citizens of Orange County:

Orange County Government must be responsive to its citizens. It must be accountable for how it operates. One of the most important ways that government carries out its duties and priorities is how it raises and spends public money. With that in mind, I have prepared this Citizens Annual Financial Report as a way to briefly explain how Orange County raises and spends tax dollars.

Each year, the County adopts a budget to determine how much

money it will raise and, to prioritize how funds will be spent. The budget year, also known as the "fiscal year," begins on October 1st and ends on September 30th. So, this report covers the fiscal year beginning October 1, 2015 and ending September 30, 2016.

The County's finances are divided into various "funds." This improves accountability and better tracks restrictions on certain types of revenues. To simplify this report, all of the County's funds have been merged together on a consistent basis into one set of figures. An audited comprehensive annual financial report on all of the individual funds is also prepared by my office. That report and other additional financial information are available at www.occompt.com.

Orange County Government includes several components that have been combined for this report. Most of the County's operations fall under the Board of County Commissioners. Other specific duties fall under financially related special districts and separately elected Constitutional officers. A County organizational chart is included in this report.

I am pleased to present this report as part of our responsibility to be accountable to the citizens of Orange County. I hope that you will find this report interesting and informative.

Sincerely,

Phil Diamond, CPA County Comptroller

Citizens Annual Financial Report

for the year ended September 30, 2016

ORANGE COUNTY ORGANIZATIONAL CHART

This chart displays the basic structure of the County government in an easy to read format.

OPERATIONAL REVIEW

This section explains how the County is organized, how its budget process works, and what its key accomplishments were during the fiscal year. Also, the financial results for the year are explained, accompanied by a summarized operating statement.

SOURCES OF COUNTY FUNDS

The various types of funds that the County received to support its operations are explained here in greater detail. The presentation includes a description of all major County revenues and a table that displays how key County tax rates and service fees are applied to a typical residential home.

USES OF COUNTY FUNDS

The way in which the County's resources were spent is discussed here in greater detail. Each category of service is explained, including a breakdown of resources used for current operations and capital outlays. Also displayed are average costs for a crosssection of County services.

COUNTY LONG-TERM DEBT

The County has a need to borrow funds for many of its major capital projects. This section explains how the borrowing is handled, what borrowed funds are used for, how much is owed, and what the next year's payment obligation will be.

ORANGE COUNTY TREND INDICATORS

This final section provides a historic review of key economic, demographic, and County financial trends that have occurred over the past five years.

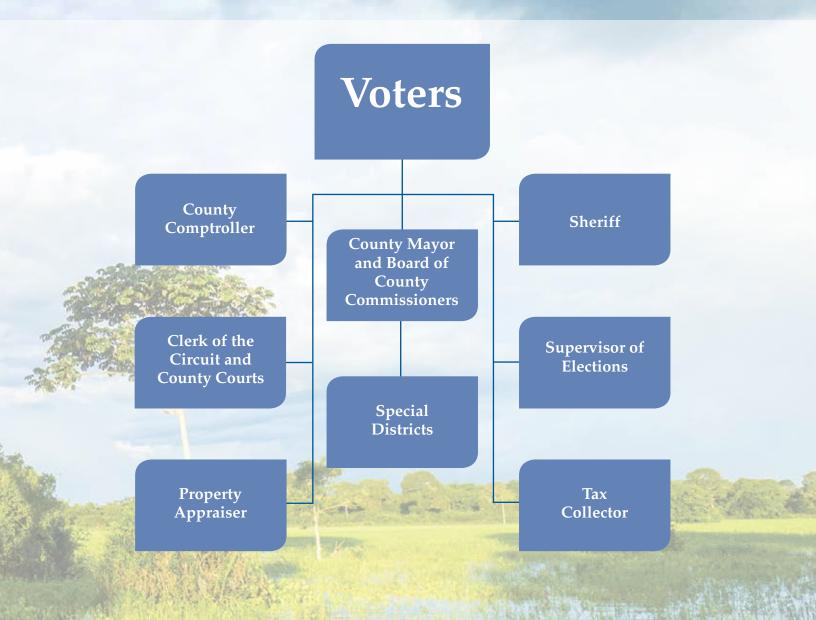

This publication was designed and printed by the Orange County Graphics Department

Orange County Organizational Chart

Operational Review

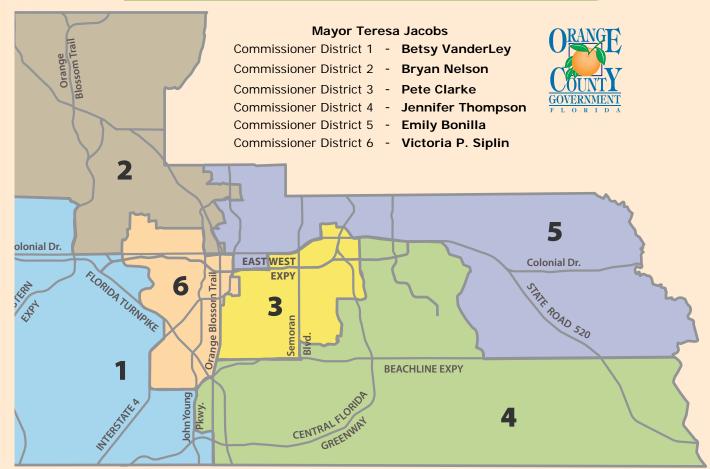

County Organization

Orange County operates under a charter enacted by the voters in 1987 and most recently amended in November 2016. The legislative body is the seven-member Board of County Commissioners, made up of the County Mayor, elected county-wide, and six district Commissioners, each elected from their respective districts. The Mayor also serves as the chief administrative officer for the operations under the Board. Certain special districts also fall under the Board's jurisdiction.

Six constitutional officers, who are separately elected on a county-wide basis, perform

specifically designated governmental functions. These officers and the Board members as well are listed at the beginning of this report and included in the organizational chart found on the previous page. Terms of office for these elected officials are four years.

The districts represented by each Commissioner were most recently revised in November 2011 and were effective beginning with the 2012 elections. The map below displays the current location of each district.

Orange County, Florida Commissioner Districts

Operational Review

Major Initiatives

The County was involved in a number of major initiatives during the fiscal year. With economic indicators continuing to highlight positive economic gains, the County recognized the importance of adequate infrastructure to our quality of life and to the area's economic vitality.

Renovations were completed on 13 fire stations and a full renovation of the kitchen and laundry facilities was completed at the jail. The renovations are expected to improve the operating efficiency of these facilities.

Design and construction work was underway to widen or extend Richard Crotty Parkway, Econlockhatchee Trail, Holden Avenue, International Drive, John Young Parkway, Taft Vineland Road and Texas Avenue. Major roadway projects on Ficquette Road and Wetherbee Road were completed during Fiscal Year 2016. Also, 429 miles of roads were either paved or resurfaced.

Construction was completed on the Deputy

Brandon Coates Community Park and the John Young Community Park.

Four water quality improvement projects were completed, with 17 additional water quality improvement projects in progress.

Construction of Harbor House was completed.

This facility will provide emergency shelter for approximately 162 victims of domestic abuse annually.

Continued on page 6

Operational Review 😹

The County's business-type activities include the Convention Center and a utilities system that provides water, wastewater, garbage collection, and landfill/recycling services.

During the year, the Convention Center completed an extensive renovation of the Valencia Ballroom, a 62,000 square foot multiple-purpose room. The Center's current capital improvement plan totals \$191.5 million over the next five fiscal years, primarily for renovations to the existing facility.

Under utilities, renovation of water distribution systems continued in 2016, including projects along LeeVista Boulevard

and the Western Regional and Malcolm Road Water Supply Facilities. Water distribution system modifications were completed at the Eastern Regional Water Supply Facility and East Service Area Storage and Re-pumping Facility.

With regard to wastewater treatment, improvements were completed on 14 pump stations during Fiscal Year 2016, with an additional 62 in either the design or construction phase. Additionally, construction is underway on the expansion of the Eastern Water Reclamation Facility with an expected completion date of 2018.

• Under the Solid Waste System, replacement of the McLeod Road Transfer Station is in the design phase. Future plans include expansion of the Landfill Gas Collection System in Cell 2.

Budget Approval Process

The County's budget is enacted annually by fiscal year and serves as a key tool for setting operational and capital project spending priorities.

Preparation of the budget proposal for direct spending by the Board of County Commissioners is the responsibility of the Mayor.

After preparation, the Mayor reviews the proposed budget with the Board in public work sessions during the summer. Changes to the proposal are made as desired by a majority of the Board.

The agreed upon budget proposal is then formally presented to the citizens at two public hearings in September, where any final adjustments may be made. These hearings are also used to set the annual property tax rates. Individual budgets for the elected constitutional officers are prepared by each respective officer.

All budgets are required to be balanced, with all expenditure budgets backed by identified funding sources. On September 30th of each year, all unspent budget amounts expire and remaining funds become available as a funding source for the County in the next fiscal year.

Operational Review

Financial Information

The financial information presented in this report includes the operations of the Board of County Commissioners, the six elected constitutional officers, and the other small related agencies managed by the Board.

The County began Fiscal Year 2016 with \$1.20 billion in available funds, of which 47% was restricted for capital projects or was being held as reserves related to past borrowing.

▶ Funds received during the year totaled \$2.13 billion. After \$1.97 billion in operational costs and capital project outlays, the County finished the year with \$1.36 billion on hand.

About 53% of those moneys were earmarked for capital projects and debt-related reserves, leaving the remaining 47% or \$633 million available to fund County operations at the start of the next fiscal year in October 2016.

• Some of the remaining operational funds were used to fund operations until annual property tax collections began in late November 2016, and some were set aside as reserves for unexpected events or emergencies.

• The ending balance designations reflect the continued conservation of funds for operational reserves as a hedge against a weakened economy or other contingencies.

The County used a well-defined program for investment of funds during the year. High-risk investments are avoided, and investments are set to come due as needed for payment of obligations. As a result, investment income of \$14 million (\$13 million of interest earned plus \$1 million market value adjustment) was earned during the fiscal year across all funds of the County in a very low interest rate environment.

Other Governmental Units

Other legally separate units are related to but not financially dependent on the County. As such, they are not included in this report.

These units publish their own annual financial reports. Seven are special districts created by State law or by County ordinance or resolution, and one is a not-for-profit corporation established jointly by the County and the City of Orlando. The Board of County Commissioners either appoints or serves as a majority of these units' board members; however, it doesn't fund their annual budgets or actively oversee their operations. These related units are:

- Orange County Library District
- Orange County Housing Finance Authority
- Orange County Research and Development Authority
- International Drive Master Transit and Improvement District
- Orange County Industrial Development Authority
- Orange County Health Facilities Authority
- Orange County Educational Facilities Authority
- Orange Blossom Trail Development Board, Inc.

There are many other specialized governmental units in the Central Florida area, some of which even bear the name "Orange County" in their titles. However, they operate independently from the County and are not financially related despite their names. These better-known units not included in this report are:

- Orange County Public Schools (School Board)
- Central Florida Expressway Authority
- Central Florida Regional Transportation
 Authority ("LYNX")
- Greater Orlando Aviation Authority
- Orange Soil and Water Conservation District

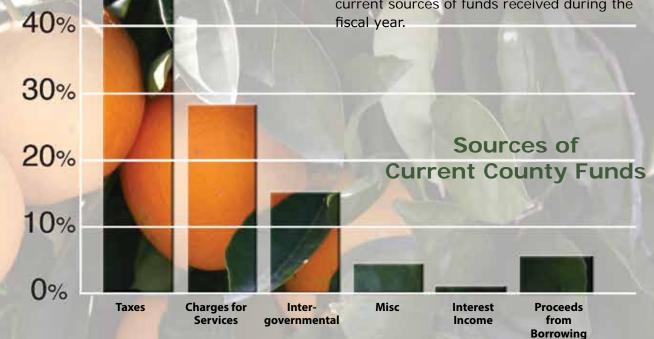

Orange County receives its operational funds from a variety of sources.

The Board of County Commissioners levies four primary taxes as well as other lesser taxes and fees. The primary levies are property taxes, the tourist development tax, public service and communications taxes, and a local option gas tax. The Board also sets user charges for specific services, most notably the water, wastewater, garbage collection, and landfill service charge rates for the Utilities System operations. Next, the County receives operating funds shared by the State as well as grants from the Federal and State levels. This includes one-half cent of the six cents per dollar State sales tax that is allocated to counties. Many other types of revenue come into the County, including court fees, local

business taxes, building permit fees, and Convention Center operating funds. Finally, interest income is received throughout the year, as all public funds held by the County are invested until needed to pay budgeted obligations.

Current revenues from all of the sources listed above are combined with funds left over from the previous fiscal year, including any remaining cash proceeds from prior County borrowing, to make up the total resources available to fund budgeted expenditures. Some revenue sources are raised for specific purposes and can only be used within their respective restrictions, while other sources can be used for a variety of public purposes.

The following page provides a brief description of the County's key revenue sources. These key sources, when combined with interest income and funds borrowed for capital projects, account for 85% of the current sources of funds received during the fiscal year.

50%

Primary Taxes Levied by the Board of County Commissioners

Property Tax – An annual tax is levied on land, buildings, and business equipment. Multiple levies are made for various purposes. A county-wide levy is made to cover county-wide operations

and some capital projects, and other levies are made in the unincorporated areas (i.e., outside limits of cities in the County) or parts thereof for specified purposes such as Sheriff services and fire/emergency medical services.

Tourist Development Tax - A six percent tax is levied on all short-term living quarters such as hotels, motels, apartments, and campgrounds. Under State law, tax proceeds are generally

restricted to the Convention Center, tourism promotion, auditoriums, museums, and certain types of sports facilities. The first five percent is used for tourism promotion, cultural and sports facilities, and for operations and debt repayment for the Convention Center. The sixth percent is earmarked for tourism promotion and for a portion of debt repayment for the City of Orlando's Amway Center.

Public Service/Communications Taxes – The Board levies a tax of 10% on the use of electric, water, and gas/propane utilities and four cents per gallon on the use of fuel oil in the unincorporated area.

Communications services are taxed on a statewide basis, which includes a 4.98% local component approved by the Board. These tax proceeds are used for various purposes including environmentally sensitive land acquisition, parks, Sheriff services, transportation, and for annual payments on County debt incurred for major capital projects.

Local Option Gas Tax - A tax of six cents per gallon is levied on motor fuel sold in the County. Tax proceeds are shared by the County and cities for construction and maintenance of roads.

Primary Service Fees Charged by the Board of County Commissioners

Utilities System - Service fees are established for use of the County water and wastewater utility system. Also, fees are charged for garbage disposal at the

County landfill, mandatory garbage collection services in the unincorporated areas, and stormwater management.

Impact Fees - Fees are charged on new development for its impact on transportation, water and wastewater, parks and recreation, schools, fire, and law enforce-

ment services. School impact fee collections are forwarded to the Orange County School Board.

Primary Funds Received from Other Governments ("Intergovernmental" Revenue)

State Sales Tax - A portion of Florida Sales Tax is returned to counties for operational purposes. This source is used for transportation and other

county-wide operations, and for annual payments on County debt incurred for major capital projects.

Federal and State Grants - The Federal and State governments award grants to the County for a variety of specific purposes and programs such as criminal justice,

homeland security, social services, transportation and environmental protection.

State Revenue Sharing - Certain State revenues are shared with counties for operational purposes. This source is used for county-wide operations and for

annual payments on County debt incurred for major capital projects.

Notes:

Excludes taxes and fees levied by the School Board, city governments, and other special districts.

- Property taxes based on a home assessed at \$165,000 with \$50,000 homestead exemption. One mill equals one dollar of tax for each \$1,000 of assessed value.

 Public Service taxes based on monthly use of 1,000 kilowatts for electricity and 10,000 gallons for water. Natural/bottle gas and fuel oil also subject to tax. Communications Services Tax based on one home phone, two shared cell phones, and one cable TV/DVR box.

- Gas taxes based on 1,300 miles driven per month with fuel economy of 25 miles per gallon. State imposed gas tax is the portion remitted back to counties.

- Sales tax is the portion remitted back to counties based on \$1,575 of monthly purchases.

- Water and wastewater service based on monthly usage of 10,000 gallons.

⁽¹⁾ Local portion collected by the State and returned to the County. Replaces former County levies on telecommunications and cable TV. ⁽²⁾ Collected by the State and returned to the County as Intergovernmental revenue.

Uses of County Funds

Orange County provides a wide variety of services to its citizens.

Some services are provided county-wide, while other additional services are provided specifically to citizens residing in the unincorporated areas outside the corporate limits of any cities.

Annual operational expenses are paid with the current revenues that come in during the year and with funds left over from the previous fiscal year.

Major capital projects are usually funded by proceeds from borrowing, but also may be funded by prior fiscal year funds on hand and certain current revenues earmarked for project purposes such as

- gas taxes
- · impact fees, and
- a portion of property and public service taxes.

87%

of the total funds used by the County during the fiscal year were for annual recurring operating purposes. This includes debt payments for funds borrowed in previous years that have been spent on capital projects. The remaining 13% was used for capital projects and equipment, which included utilities system facilities, various road construction and stormwater drainage improvements, county jail upgrades, renovations to fire stations and the Convention Center, and new community park projects.

The major categories of County services are:

Law Enforcement and Judicial System - This includes all

services connected with the enforcement of civil and criminal laws in the community. Services include the Sheriff's Office, County jail system, the Clerk of the Circuit and County Courts Office ("Clerk"), court administration and reporting, and partial funding for the State Attorney and Public Defender. Since July 1, 2004, as a result of a State constitutional amendment, the Clerk's court operations have been funded by State appropriations.

Utilities System - The Utilities System provides services relating to management of water resources and for the proper disposal or recycling of garbage. Specific services include water supply, wastewater treatment/reclamation, stormwater management, recycling programs, garbage collection, and the County landfill operation.

Community Services – This covers a wide range of services delivered directly to citizens that preserve and enhance their quality of life. Key services provided are health and social services, veterans' services, children's programs, animal services, cultural services, parks and recreation, building/planning/zoning and environmental regulation, housing assistance, and school improvements.

Convention Center and

Tourism – This area covers services related mainly to the tourism and convention industry that is a highly visible element of the County's economy. Services include the Orange County Convention Center operations and ongoing capital improvements, major funding for the Convention and Visitors Bureau (known as "Visit Orlando"), support for cultural and sporting events related to tourism, and capital funding assistance for community facilities that serve tourism and local residents such as the Amway Center and the Dr. Phillips Center for the Performing Arts.

Transportation – Services provided for transportation include county-wide road and transit systems. Key activities include road and sidewalk construction and maintenance, streetlights, and partial funding for the Lynx bus system.

General Government – This provides for the various administrative and support services vital to the efficient operation of the County. Key services are the Mayor's, Commissioners' and County Administrator's offices, the operations of the Comptroller, Supervisor of Elections, Property Appraiser and Tax Collector, the legal, personnel, purchasing and budgeting functions, and county-wide support services such as facilities maintenance, computer systems, internal mail, security, and radio and telephone services.

Fire Rescue – The provision of public safety services for fire and health emergencies in the unincorporated areas of the County, as well as disaster planning and response, are provided here. Services cover fire suppression and prevention, emergency medical services, and natural disaster planning and recovery.

Debt Payments – This category provides for the annual installment payments necessary to repay funds the County has borrowed in the past to acquire property, construct major county facilities, or make major equipment purchases. The next section on long-term debt provides further information on this subject.

County Long-Term Debt

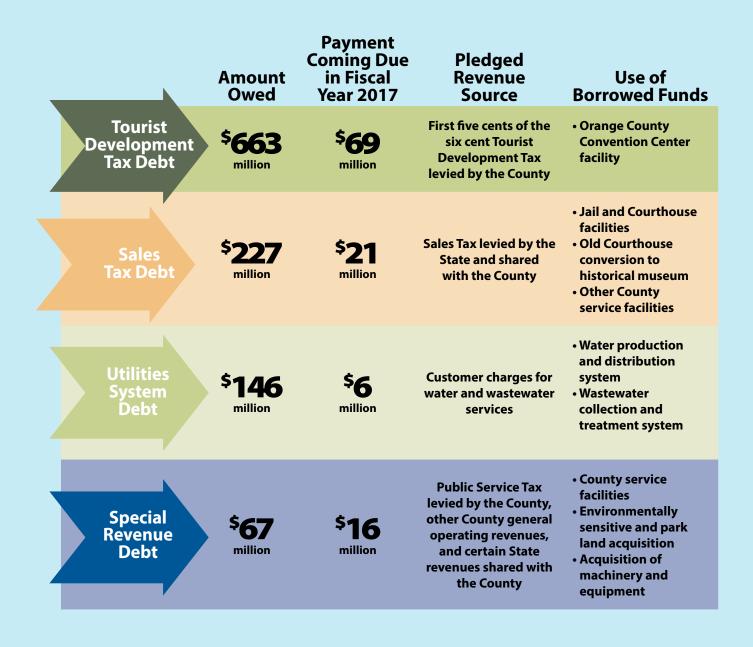

hile the County is able to balance its budget each year for operating expenses, it does go into debt for the acquisition of most major facilities and equipment. This is done to extend the payment for such things over their useful lives; much like a citizen does with a home mortgage or car loan. By doing this, the burden for paying for these facilities and equipment is spread out to all of the future taxpayers who will benefit, rather than only those present at the time of construction or acquisition.

County Long-Term Debt

State law prohibits the County from giving facilities or equipment as collateral for debt.

Instead, the County pledges certain sources of revenue to make debt installment payments. These pledged revenues must be used to first pay the installments due, after which any left over amounts may be used for ongoing operations.

range County has experienced dynamic changes in many ways over the years. Maintaining adequate public services to provide a reasonable quality of life is a key challenge faced by the County as well as its various city governments.

This trend information is presented to display a five-year view of changes in County government financial indicators and how they compare to key demographic indicators in the community. The following pages provide a compilation of these indicators in the general categories of property values and taxes, demographics, and sources and uses of County funds. Key information is displayed below for general overview purposes.

Summary of Key Trend Indicators

Juin	nary of Key

Source: Orange County Comptroller - Citizens Annual Financial Reports

Citizens Annual Financial Report

The Office of the County Comptroller

The County Comptroller, an elected official answering directly to the citizens of Orange County, acts as watchdog for the public in the use of County resources.

This function serves as a check and balance, and results in the greatest accounting integrity and safeguarding of public assets.

Services performed by the County Comptroller can be classified into three broad categories: financial, audit, and records administration. The Comptroller's specific roles include serving as chief financial officer, county auditor, clerk of the board, recorder, and custodian of County funds and records.

County Comptroller's Web Site

The County Comptroller actively maintains a web site at www.occompt. com. Visitors can avail themselves of a wide variety of information and documents, such as:

- Board of County Commissioner meeting minutes, ordinances, and resolutions
- Official Records documents relating to land records, persons, or legal actions
- Value Adjustment Board information, minutes, and online petition filing
- Financial reports and information for the County in a variety of formats
- Tourist Development Tax information and tax dealer registration/payment procedures
- Information on surplus equipment auctions and lands available through tax deed sales
- Internal audit reports published by the County Comptroller's Audit Division
- Search tools, recording fees calculator, and online forms and publications
- Links to other State, local and informational web sites

<u>Fraud Hotline:</u> Orange County citizens or County employees may contact the County Audit Division's Fraud Hotline in instances where fraud, waste, or abuse of County assets or resources is suspected. The Fraud Hotline phone number is (407) 836-5775. Comments, inquiries, etc. may be submitted to the Director of County Audit at: fraudhotline@occaudit.com
