

## Interoffice Memorandum

October 30, 2017

**TO:** Mayor Teresa Jacobs  
and Board of County Commissioners

**FROM:** Raymond E. Hanson, P. E., Director  
Utilities Department

**SUBJECT: BCC AGENDA ITEM – Work Session  
November 14, 2017 BCC Meeting  
Water Conservation Update  
Contact Person: Jacqueline W. Torbert,  
Manager, Utilities Water Division  
407-254-9850**

The St. Johns River Water Management District and the South Florida Water Management District have declared the traditional groundwater resource, the Floridan Aquifer, alone cannot meet the future water demands of this region. Water conservation and other alternative sources have been identified as critical strategies to help meet the current and future water supply needs.

The Utilities Water Division will provide an update to the Board on the strategies and various water efficiency programs in progress, as well as those planned in the future.

This work session is for informational purposes, and no action is being requested.
