SUBJ: Installation of a "Stop" Sign on Vaughn Avenue at Waterwitch Drive

Based upon a citizen request, the Traffic Engineering Division performed a field evaluation regarding a sight distance concern at the intersection of Vaughn Avenue and Waterwitch Drive. The current traffic control at the intersection is a "Yield" sign on Vaughn Avenue approaching Waterwitch Drive. The Traffic Engineering Division is requesting that the "Yield" sign on Vaughn Avenue at Waterwitch Drive be changed to a "Stop" sign to aid in the safe movement of vehicular traffic.

The Traffic Engineering Division has determined that the installation of a "Stop" sign will increase vehicle and pedestrian safety at this intersection.

Staff will support the installation of a "Stop" sign on Vaughn Avenue at Waterwitch Drive.

Action Requested: Approval to install a "Stop" sign on Vaughn Avenue at Waterwitch Drive. District 3.
