SUBJ: Construction of Speed Tables on County Road 13

At the request of the residents on County Road 13, a speed table survey was mailed to the property owners. This was to determine if the property owners supported the installation of speed tables on the street. If two-thirds of the returned ballots from the property owners were in favor of the speed tables, the County would install the speed tables.

The result of the survey was that 100% of the returned ballots from property owners supported the installation of the speed tables. The project is being funded by Commission District 5 and Public Works.

**Action Requested: Approval to construct Speed Tables on County Road 13.
