

Interoffice Memorandum

June 5, 2018

To: Mayor Teresa Jacobs
and the Board of County Commissioners

From: Carrie Mathes, Manager, Procurement Division

Contact: Todd Swingle, Deputy Director, Utilities Department
407-254-9880

Subject: Ratification of Purchase Order M90858, Eastern Water Reclamation Facility Replacement of 115 feet of 12-inch Gravity Main

ACTION REQUESTED:

Ratification of Purchase Order M90858, Eastern Water Reclamation Facility Replacement of 115 feet of 12-inch Gravity Main, to Schuller Contractors Incorporated, in the amount of \$145,780.

PROCUREMENT:

The project provides for the emergency replacement of 115 feet of 12-inch gravity main at the Eastern Water Reclamation Facility (EWRF).

FUNDING:

Funding is available in account number 4420-038-1538-6310.

APPROVALS:

The Utilities Engineering Division concurs with this recommendation.

REMARKS:

EWRF is currently under a consent order from the Florida Department of Environmental Protection to complete construction activities for the EWRF Phase V construction project by December 31, 2018 in order to meet new, more stringent permit requirements. Currently, EWRF is in the final stages of completing a new pretreatment (PT) structure, which is part of the improvements included in the construction project and contained in the Consent Order.

The Utilities Department discovered that there was approximately 115 feet of existing gravity sewer line that could not be cleaned and required replacement prior to connecting flows from the PT structure. The County requires the replacement of this pipe prior to the start-up of the pretreatment structure. The start-up occurred in June and the referenced gravity line had to be functioning prior to the start-up. Failure to have this work performed would result in a potential cost for the County and non-compliance with the construction schedules established in the Consent Order. Therefore, this project was procured via emergency procedures. Three competitive quotes were solicited. Schuller Contractors Incorporated has a satisfactory record of performance and was selected for award. The project is located in District 4.
