SUBJ: Establishment of a Multi-Way Stop Condition at the Intersection of
Nashville Avenue and 39th Street

A concerned citizen has requested a multi-way stop condition at the intersection of Nashville Avenue and 39th Street.

The Traffic Engineering Division has conducted a multi-way stop warrant study at the intersection of Nashville Avenue and 39th Street. The study consisted of an evaluation of existing field conditions including critical approach speed, sight distance, traffic volumes, and crash history. This location is an intersection of two residential streets of similar design and operating characteristics. To improve safety and operation, staff supports the installation of a multi-way stop condition at the intersection of Nashville Avenue and 39th Street.

Staff recommends the Board approve installation of a multi-way stop condition at the intersection of Nashville Avenue and 39th Street.

Action Requested: Approval of a multi-way stop condition installation at the intersection of Nashville Avenue and 39th Street. District 6.
