SUBJ: Construction of Raised Crosswalks on Silverlake Park Drive

At the request of the property owners on Silverlake Park Drive, ballots were mailed to the property owners on Silverlake Park Drive for the installation of a raised crosswalk located at a school crossing for Bay Lake Elementary School. This was to determine if the property owners supported the installation of a raised crosswalk on the street. If two-thirds of the returned ballots from the property owners were in favor of the raised crosswalk, the County would install the raised crosswalk.

The result of the survey was that only five surveys were returned and the returned ballots failed to garner the two-thirds in favor of the project. Subsequently, the Orange County School Board contacted the District Commissioner supporting the installation of the raised crosswalk. The District Commissioner concurs with the School Board that the project is needed and is willing to fund the project utilizing Public Works district funds.

Action Requested: Approval to construct a raised crosswalk on Silverlake Park Drive. District 1.
