Sign Waiver for Residential Identification Signs

A waiver from Section 31.5-67(b) to allow for the maximum height of a ground sign in a commercial district that is located within one hundred (100) feet of a residential district, and not having a right-of-way between the sign and residential district, for the copy area of the sign be a maximum of eight (8) feet in height and architectural features of the sign above the copy area of to be proportional in height and size to the copy area, in lieu of the requirement that the maximum height of the sign shall be eight (8) feet.

Justification: The two (2) entry signs for the Residential development are located on Commercial parcels that immediately about the Residential parcel, and will be placed on either side of the entry road into the Residential development. The two (2) Residential entry signs are located on a major arterial roadway (US 441) at a significant curve of the roadway, and are setback from the roadway to allow for sight distance requirements for traffic exiting the development. The additional sign height will allow for better visibility of the identification sign for the Residential development, and compensate for the curvature of the roadway and the travel speeds of approaching traffic.

Waiver #2: A waiver from Section 31.5-67(f) to allow for a maximum of two (2) ground signs on a parcel within a right-of-way frontage with approximately two hundred and seventy (270) linear feet, in lieu of the requirement that such frontage measure more than four hundred (400) linear feet.

Justification: The waiver is requested for the southern of the two (2) PD Commercial parcels that has less than four hundred (400) linear feet of frontage on US 441. The southern Commercial parcel is one of two (2) Commercial parcels in the PD. The two (2) Commercial parcels flank the right-of-way that provides access into the Residential area of the PD. A portion of each of the Commercial parcels is needed for identification signage for the Residential neighborhood. This waiver would allow each of the parcels to also have a Commercial ground sign, in addition to the Residential identification sign. The northern Commercial parcel has right-of-way frontage in excess of four hundred (400) linear feet, so no waiver is requested for the northern Commercial parcel.

Waiver #3: A waiver from Sec. 31.5-67(j) to allow for a ground sign to be erected on unimproved property.

Justification: The waiver is to allow the two (2) entry signs for the Residential development to be located on unimproved Commercial parcels within the PD. The Residential subdivision of the Holly Estates PD does not front on the project's access road, US 441. The subdivision is accessed via a right-of-way that traverses between the two PD Commercial parcels fronting on US 441 into the Residential subdivision area. The waiver is needed to provide appropriate identification for the Residential neighborhood, and is consistent with other similar approved Residential subdivision signage. The Master Sign Plan included in the PD Land Use Plan provides locations for future Commercial signage on the Commercial parcels when they are developed.

Waiver #4: A waiver from Sec. 31.5-73(g) to allow for a sign stating only the name of an approved residential development to be erected outside the subdivision.

Justification: The Residential subdivision of the Holly Estates PD does not front on the project's access road, US 441. The subdivision is accessed via a right-of-way from US 441 that traverses between the two PD Commercial parcels fronting on US 441 into the Residential subdivision area. The waiver is needed to provide appropriate identification for the Residential neighborhood, and is consistent with other similar approved Residential subdivision signage.

General Sign Notes

1. Locations are illustrated on the PD Land Use Plan for the Residential signs and the Commercial signs.
2. Commercial signs may be single tenant or multi-tenant.
