SUBJ: Establishment of a Multi-way Stop Condition at the Intersection of
Sarazen Drive and Golf Club Parkway

A concerned citizen requested that the Traffic Engineering Division review the traffic control at the intersection of Sarazen Drive and Golf Club Parkway.

Traffic Engineering conducted a multi-way stop study, which consisted of an evaluation of existing field conditions including critical approach speed, sight distance, traffic volumes, and crash history. To improve safety, staff recommends the present two-way stop control be converted to a multi-way stop control at the intersection of Sarazen Drive and Golf Club Parkway.

Staff recommends that the Board approve the establishment of a multi-way stop condition at Sarazen Drive and Golf Club Parkway

Action Requested: Approval of multi-way stop installation at Sarazen Drive and Golf Club Parkway. District 6.
