ACTION REQUESTED:

Ratification of Amendment No. 7, Contract Y15-1091-LC, Liquid Polymer for South Water Reclamation Facility (SWRF), with Polydyne, Inc., in the amount of \$68,900, for a revised total contract amount of \$719,900.

PROCUREMENT:

To maintain a supply of liquid polymer used by the SWRF to thicken the sludge for the digestion process and to dewater the biosolids that are transported from the SWRF for land application at Florida Department of Environmental Protection approved sites.

This amendment extends the current contract for the period of June 2, 2019 through July 1, 2019, allowing sufficient time for the approval and execution of a new contract.

FUNDING:

Funding is available in account number 4420-038-1351-4153.

APPROVALS:

The Water Reclamation Division concurs with this request.

REMARKS:

The Board approved award of Y15-1091-LC on August 25, 2015, in an estimated annual contract amount of \$506,000 for a one-year term with further approval for the Procurement Division to renew the contract for two additional one-year terms.

The re-solicitation process for this procurement includes two rounds of pre-bid lab testing to ensure a compliant polymer is qualified during the solicitation period. Firms are scheduled for on-site testing over a 30-day period. As a result, the bid process is extended to ensure adequate competition. This amendment ensures continuity of supply until a new contract is awarded.
