In the event of a conflict or inconsistency between a condition of approval of this preliminary subdivision plan and the preliminary subdivision plan dated "Received July 18, 2016," the condition of approval shall control to the extent of such conflict or inconsistency.

2. This project shall comply with, adhere to, and not deviate from or otherwise conflict with any verbal or written promise or representation made by the applicant (or authorized agent) to the Board of County Commissioners ("Board") at the public hearing where this development received final approval, where such promise or representation, whether oral or written, was relied upon by the Board in approving the development, could have reasonably been expected to have been relied upon by the Board in approving the development, or could have reasonably induced or otherwise influenced the Board to approve the development. Pursuant to Section 125.022, the applicant shall obtain all other applicable state or federal permits before commencement of development.

Developer/applicant acknowledges and understands that any such changes are solely the developer's/applicant's obligation and responsibility to disclose and resolve, and that the developer's/applicant's failure to disclose and resolve any such changes to the satisfaction of the County may result in the County not issuing (or delaying issuance of) development permits, not recording (or delaying recording of) a plat for the property, or both.
5. Property that is required to be dedicated or otherwise conveyed to Orange County (by plat or other means) shall be free and clear of all encumbrances, except as may be acceptable to County and consistent with the anticipated use.
